INAUGURAL ADDRESS

OF

HON. ARTHUR N. HARRIMAN

MAYOR OF NEW BEDFORD

MASSACHUSETTS

TO CITY COUNCIL

JANUARY 7, 1946

AMERICAN PRESS

INAUGURAL ADDRESS

OF

HON. ARTHUR N. HARRIMAN

MAYOR

TO CITY COUNCIL

January 7, 1946

My Fellow Citizens:—

In the exercises of their power and the right of self government, the people of this city have committed to one of their fellow citizens a supreme and sacred trust and he, here, consecrates himself to their service.

No one knows better than I the feeling of appreciation of the confidence expressed in me by my fellow citizens at the close of an administration of three years.

This expression of your confidence makes me very humble.

The people of this city have been very, very good to me.

In return for their goodness and their trust, I pledge to them that they will have, in this administration, the same honest and efficient government that they have had during the last three years.

In the discharge of my official duties as Mayor I have endeavored in the past, and shall in the future, be guided by a just and unstrained construction of the city charter and careful observance of the distinction between the executive and legislative branches of our local government.

But he, who today took the oath as prescribed, only assumes the solemn obligation which every citizen should share with him.

The charter that prescribes his oath IS YOURS, the government you have chosen him to administer for a time IS YOURS.

The law and entire system of our self-rule IS YOURS.

Every voter as surely as your chief executive under the same high sanctum, though in a different sphere, exercises a public trust — nor is this all.

Every citizen owes to his city a vigilant watch and close scrutiny of its public servants and a fair and reasonable estimate of their fidelity and usefulness.

It is the duty of those serving the people in public places to limit public expenditures to the needs of the government.

We should never be ashamed of simplicity and of those prudential economies which are best suited to the operation of our city.

Those who are selected, for a limited time, to manage public affairs are still of the people, and may do much by their example, consistent with the dignity of their office, that the plain way of life among their fellow citizens adds integrity and promotes thrift and prosperity.

We shall during the next two years, as in the past three, be confronted with many problems.

They will call for patience, common sense, wisdom and courage.

Your government now enters upon a new two-year term of service, but that service can not be successful if we look to ourselves alone.

For without the help, protection and guidance of Divine Providence we must fail.

God and He alone is our refuge and our strength.

From the problems and conditions of war we are now faced with the conditions of readjustments.

Upon us they repose as heavy a duty and as great a responsibility as those of war.

Our people demand that their Finances shall be established upon a sound and sensible basis.

Our system of revenue should be so adjusted as to relieve the people of unnecessary taxation.

FINANCES: The financial condition of the city is upon a solid basis.

This has been made possible by the administration of your city affairs without waste and with honesty and efficiency.

Our Bonded Debt has been reduced as has our tax rate.

And because of this kind of government, your city is in a better financial condition than any other industrial city in the commonwealth.

Let us keep it so.

I shall submit to the City Council, at the earliest possible moment, an order providing for the borrowing of $1,000,000 inside the debt limit, to be used for the construction of a sewer and two pumping stations on our water front.

This will clear up the sewage which empties into the Acushnet River in the area from Sawyer Street south as far as Leonard Street.

This sewer and the pumping stations are made necessary by the increase in industrial activity and the establishment of fillet houses along our water front.

The fishing business has become one of our principal industries and for its continued expansion the sewer is necessary, due to the fact that the Federal and State governments have warned the city that there can be no further pollution of our harbor waters.

Not only will this new sewer take care of the refuse from the fishing industry but it will also take care of residences within this prescribed area.

Closely allied with the necessity of sewer drainage for our industrial water front is that of the completion of necessary repairs on Homer's Wharf and the replacing of spiles.

For this purpose I shall ask the Council for an appropriation of $50,000 to be taken from the Excess and Deficiency account.

MOTOR EQUIPMENT: Because of the conditions during the past three years it has been next to impossible to provide the departments with the necessary motor equipment, and as a result of this inability our repair bills have been heavy and much of the machinery is worn out.

Thus it will be necessary to secure new equipment as soon as it is available.

It may be possible that some of the necessary supplies and machinery for the city may be obtained from the surplus property of the Federal government.

At the same time the request is made of the City Council for the appropriation providing for sewers and wharves, I shall also request an appropriation of $50,000 for the acquisition of two new aerial trucks and a new pumping engine for the Fire Department.

The funds for the purchase of this equipment will be provided from the same account.

The public has the right to efficient and needful services, and for the full protection by their government in all their activities and for this they are willing to pay.

I am convinced that they will be satisfied with contributing to their government if they know that they will receive a dollar's worth of value for every dollar that is taken from them in the form of taxes.

But this does not preclude the extravagant expenditure of the public funds, for they realize, as well as do you and I, that "you can't eat your cake and have it."

AIRPORT: While the airport has been declared surplus by the Navy, it has not yet been returned to the city.

The acquisition of a Municipal Airport presents a new departure in municipal management and its development is of vital importance to the growth of New Bedford.

It is one of these services which may be likened to the maintenance of our streets and highways, inasmuch as in all probability it will not be self supporting.

Several conferences have been held with the Naval officials, and I am assured by them that when the field reverts to the city some machinery and equipment for the operation of the field will be included in the transfer.

I have, from time to time, visited airports which are comparable to the situation which confronts New Bedford and I recommend to the City Council that they approve of legislation creating an Airport Commission along the lines of the Wharf Commission which has been so successful in the administration of our wharf property and the encouragement and development of our fishing industry.

The necessity for prompt action on the part of the Council will brook no delay.

HOUSING: This city, as every other, is faced with a very critical housing shortage.

It is the unescapable duty of your municipal government to see to it that every aid is given to facilitate the building of new homes.

There is, however, the means of providing additional tenements and it is the only remedy that is available to immediately meet this present crisis.

I urge the Council to adopt the recommendation that I have made to them for the amendment of our Zoning Ordinance.

This amendment will allow attic tenements in buildings commonly known as two and one-half story type.

The adoption of my recommendation will immediately make available several hundred tenements.

This change in the Zoning Ordinance will be effective for a period of two years subsequent to its enactment.

In view of the shortage of material and other construction obstacles, it is the only available remedy that will provide additional housing now.

I can not too strongly urge upon the Council immediate adoption of this zoning change.

SARGENT FIELD: The City Council now has before it the question of accepting a deed of Sargent Field.

There is no question but what this field should be publicly owned and that it should be used for the same purposes for which it was intended — i.e. for the athletic activities of the schools of the City of New Bedford.

Because of the sacredness of this trust and because of the necessity of administration, I have recommended to the Council that the care and custody of this field be placed with the School Committee.

If accepted by the city, it may be used primarily for school athletics and certainly common sense would dictate that there is only one agency that is morally bound to care for the education of our school children, and certainly their physical development is on the same level as the other activities of the School Board.

VETERANS' INFORMATION BUREAU: There has been established a Veterans' Information Bureau, under the direction of an efficient information officer who is a veteran.

There has also been appointed, an Advisory Board consisting of fifteen citizens to work in conjunction with him in meeting the veterans' problems that arise from the returning veterans and their needs.

Those who have fought our battles for us are deserving of every aid that we can give them, and it is for this purpose that this bureau has been established.

PLAN B CHARTER: Our present charter provides for a distinct line of demarcation between the executive and legislative departments of our municipal government.

It is a radical departure from the form of government which the city had before the adoption of our present charter.

Some progress has been made along the line of conforming to Plan B, and another step in that direction should be the abolition of the City Property Committee.

In its place there should be substituted a Board or Commission to assume the responsibility of the care and custody and disposal of the properties in the name of the city.

I therefore recommend that the City Council take such action as is necessary to abolish the City Property Committee.

RECLASSIFICATION: Early in this administration there was a reclassification of Civil Service employees.

In my opinion this was one of the most valuable services that could be rendered, both to the employees and to the orderly process of municipal government, and I am confident that it will continue to prove the worth of its adoption.

CIVILIAN DEFENSE: With the end of the war the Civilian Defense has been discontinued.

I would be remiss, not only in behalf of myself but every citizen, if I did not here record the value of the volunteer work of these citizens during the dark hours of war.

I now take this opportunity to publicly express to them the thanks of all of our citizens and to their commander, Charles S. Kelley, Jr., I personally express to him appreciation of his efforts.

POST WAR: There has been submitted, many worthwhile projects for the Post War period and all of which are desirable and yet, if all were undertaken the cost would be prohibitive.

This requires careful planning, over a period of time, into which must be taken into consideration the changing conditions and the manner of procuring the necessary funds.

These projects, and the revamping of our economy from war to a peace-time basis, constitutes one of the responsibilities of government.

DEPARTMENT HEADS and CITY EMPLOYEES: Again may I repeat what I have previously said, that no one not occupying my position can realize the kind of value that you have rendered to the city during the past year.

What the city has gained from your activities, and from this administration, is due in no small degree to the interest and fidelity that you have shown in the performance of your various duties.

I express to you not only my own appreciation but the appreciation of all of our citizens, and I am confident that I shall continue to have your loyal support and helpful co-operation.

COUNCILLORS: The majority of you are not new to the office to which you have been elected, and you are not unfamiliar with its duties and responsibilities.

It is an honor that you have received at the hands of your fellow citizens that you are called upon to serve in their government.

You have learned much during the service you have rendered and I am confident, as are all of our citizens, that you will realize, as do they, that public office is a public trust.

All of us should realize that the holding of public office, either by election or appointment, does not convey a divine right.

That we have a trusteeship under which many forms of conduct in our work-a-day world are forbidden.

And that we are held to a code of morals stricter than those of the market place.

With the full knowledge of our responsibilities and our duties, and conscious of the trusteeship that is ours, we must not fail and we shall not prove unworthy if we are honest with ourselves and our fellow men.

During the next two years the eyes of our fellow citizens are upon us, and we shall earn their praise and their blessing if we are the instruments that protect them against selfish and bad government.

We are called upon by our honor to give diligent, unselfish and disinterested service, and if we fail we have committed the unpardonable sin of the betrayal of a public trust.

God grant that we may so live in our public and private life that we shall prove to be good public officials.

ANNUAL REPORT

OF THE

Building Department

CITY OF NEW BEDFORD, MASS.

FOR THE YEAR 1945

BUILDING DEPARTMENT

ANNUAL REPORT

1945

In accordance with Chapter 7 Section 158 of the City Code of the City of New Bedford, I hereby submit a report of the activities of the Superintendent of Buildings for the calendar year of 1945.

BUILDING DEPARTMENT

During the past year the volume of construction, alteration and repair of buildings within the City limits was somewhat higher than in 1944.

The Department issued 1090 permits for work estimated by the various applicants to cost $807,917.00.

While there was an increase in the total valuation of the work, for which permits were issued during 1945 over 1944, you will note that the number of permits issued in 1945 were less than the number of permits issued in 1944. This was due to the fact that in 1944 we had a very severe hurricane which caused considerable structural damage to property. The increase in the valuation of the work for which permits were issued in 1945 over 1944 was due I believe to the Government, lifting for a time some of the restrictions that were placed on construction during the War period. The result was that many larger jobs were permitted to be constructed.

The outstanding permits for 1945 were:

General Ice and Cold Storage	$100,000.00
Mullin's Fish Gear Inc.	8,000.00
Revere Copper and Brass Co.	43,000.00
Gosnold Mill Corp. (Garage)	5,000.00
Gosnold Mill Corp. (Enlarge picker room)	5,000.00
East Coast Fillet Co.	6,500.00
Wes-Stan Inc.	11,500.00
Guisti Baking Co.	5,000.00
Hathaway Mfg. Co.	18,000.00
Louis A. Lesso	8,000.00
Ronny-Dannie Fish Corp.	6,000.00
N. B. Rayon Co.	6,500.00
Wilcox Mfg. Co.	6,000.00
J. I. Paulding Inc.	5,000.00

SUMMARY OF BUILDING PERMITS

1945

	Permits	Estimated Cost
New Construction	221	$284,460.00
Alterations	646	455,686.00
Heating	160	67,771.00
Demolitions	63	
Total	1090	$807,917.00

NEW CONSTRUCTION:

Dwellings	30	$120,900.00
Garages	36	19,425.00
Filling Stations	5	7,075.00
Business, Manufacturing and Schools	5	111,300.00
Miscellaneous	143	25,760.00
Excavations	2	
Total	221	$284,460.00

ALTERATIONS:

Dwellings	402	$137,715.00
Business	170	287,635.00
Miscellaneous	74	30,336.00
Total	646	$455,686.00

Comparative Summary of Construction for the last Five Years:

Year	No. of Permits	Estimated Cost
1941	924	$1,361,983.00
1942	635	353,955.00
1943	819	375,846.00
* 1944	1592	786,055.00
1945	1090	807,917.00

* The 1944 permits include permits issued in connection with Hurricane Damage.

During 1945, the Department made 163 special investigations. These were the results of complaints that were filed, or for the purpose of assisting some property owners who desired information relative to making changes in existing property.

In 1945, the Building Department approved the construction sketches, site of location, and the method of erection and maintenance of one hundred and seven signs.

One hundred and three elevators inspected and tested by the Department in 1945. There were 35 return visits.

Thirty-one hotels and lodging houses were inspected during the year. A report of each inspection was forwarded to the Commissioner of Public Safety of Boston, Mass.

Elevator operators' licenses granted during the year were one hundred and six. Of this amount, seventy-seven were renewals, and twenty-nine were originals. An operator's license is granted after the applicant successfully passes an operating examination given by an inspector of this department.

In 1945 there were 41 appeals from the rulings of the Inspector of Buildings relative to the application of the Zoning Ordinances.

Granted *	22
Denied *	16
Withdrawn	3
	41

There was one case relative to the Building Code:

Supt. Ruling sustained	1

* Appeals that are granted are reversals of the rulings of the Inspector of Buildings, while appeals denied upheld the Inspector's rulings.

Because of the changes to Chapter 143 of the General Laws, which became effective November 1, 1945, the Building Inspector in every City and Town is charged with the duty of enforcing Chapter 143 of the General Laws as they pertain to Places of Assembly, Factories, Hotels, Rooming Houses, or any buildings where ten or more people are employed, or there are more than eight rooms above the second floor. By these changes the State Building Inspectors have been relieved of certain responsibilities, which have now been imposed upon the local Building Inspectors of the Cities and Towns. It is hard for one to realize the magnitude of the changes and what they mean in regards to additional duties for this Department.

FINANCIAL STATEMENT

BUILDING DEPARTMENT

Appropriations:		
Salaries and Wages		$12,758.66
General Expenses		1,000.00
Travel out of State		200.00
Total		$13,958.66
Expenditures:		
Salaries and Wages	$12,307.30	
General Expenses:		
Equipment Maintenance	83.00	
Office Stationery and Supplies	103.71	
Postage, Telephone and Expenses	29.40	
Printing and Binding	152.30	
Motor Maintenance	580.37	
Travel and Membership	12.44	
Travel out of State:	163.88	
		13,432.40
Balance		$ 526.26

BUILDING MAINTENANCE

The building maintenance crew which was established in 1943 has been called upon for many different kinds of service. While there was no increase in the number of persons employed in this crew, there has been an increase in the number of buildings which we have been asked to take care of. It is surprising the different things that come up from day to day that these men are called upon to do. The miscellaneous jobs have been so numerous that only the larger ones will be mentioned at this time. Some of which are as follows:

CENTRAL POLICE STATION

- Resetting of call door guides
- Installing ceramic floor in Cell Rooms

MUNICIPAL BUILDING

Repairs to Boilers
Miscellaneous electrical work and plumbing
Repainting City Clerk's Office
Repainting Water Department Office
Exterior painting (second coat)

CENTER LIBRARY

Removing and resetting of all glass in sky lights
Interior painting
Repairs to Elevator

NORTH END LIBRARY

Removing and resetting of all glass in sky light

WATER DEPARTMENT REPAIR SHOP

Repairs to windows

CITY INFIRMARY

Roof and sky light repairs
Painting Men's Hospital
Installation of Walk-in Cooler
Installing Bathroom in Men's Infirmary

Total Expenses			$55,831.22
Balance			$ 3,169.50

DISPOSITION OF INDUSTRIAL PROPERTY

During the past year the City Property Committee and the City Council sold the large three story Butler Mill building to the Wilcox Mfg. Co. of Providence, R. I.

The two story Langshaw Mill Building was sold to Samuel Elias and the four story Langshaw Mill Building, to the Hathaway Mfg. Co.

By the sale of these buildings the City has been relieved of a financial burden.

In conclusion, I would like to acknowledge the assistance this department has received from associated individuals and departments in the performance of our duties and express our gratitude for this cooperation.

Respectfully submitted,

Supt. & Insp. of Buildings.

Total amount deposited for perpetual care	$575,820.07

Respectfully submitted,

BERENICE E. IRVING,

Clerk of the Cemetery Board

BOARD OF CEMETERY COMMISSIONERS

In September approximately fifteen stones were overturned in Rural Cemetery by vandals. The stones were left as they fell for some time before being re-set on their bases, as we thought perhaps people seeing these stones might demand more action in trying to stamp out vandalism. We believe the destruction was the work of men as these stones were too large to have been pushed over by young boys.

One of our trucks went out of commission last May which was at the very time of year it was most needed. This made it necessary for us to hire a truck at considerable expense. The cost of the hire of this truck would have gone a long way towards buying a new truck which is needed to replace one of our older ones and we hope to be able to purchase a new one in 1946.

The much discussed opening and closing of the Matthew Street gate is now settled by the work being done with our own labor. The gate is opened every day at 8 a.m. and closed at 4 p.m.

The building on the island in the pond at the Rural Cemetery was condemned and removed.

An Electric Trimmer, Snow Plow and Hydraulic Lift was purchased in 1945. The plow and lift has long been needed and the Electric Trimmer will not only expediate the work but will save labor as well.

We are looking forward to a new office building at the Pine Grove Cemetery. This is a growing cemetery, situated on a much traveled boulevard and should have an office building in keeping with the cemetery and a room for services when desired. The tool house, where the office is now, is quite some distance from either entrance. The estimated cost of this new building as planned, exclusive of furniture and fixtures is $17,614.

The entrance planned for Rural Cemetery, from Rockdale Avenue will be very convenient for burials on the World War Plot and all other burials in this particular part of the cemetery. This is a very large cemetery and has only two vehicle entrances, one at Dartmouth Street and the other at Allen Street.

Herbert F. Lasell, Superintendent of Cemeteries, retired on a pension September 21, 1945 and Walter F. Smith, a foreman in this department since November 19, 1923 was given the temporary appointment as Superintendent of Cemeteries.

In 1945 ninety-six new lots and graves were sold and thirty transfers of lots made.

Since 1918 we have had two clerks in the main office plus the assistance of the Clerk at the Oak Grove Cemetery office, who was employed with the understanding that when needed she would be transferred permanently to the main office. Our work has been steadily increasing so that it is now necessary to have three clerks permanently in the main office. This leaves the office at the Oak Grove Cemetery unattended most of the time. We feel that enough money should be provided to employ an attendant for the Oak Grove Cemetery office building as we have attendants in each of the other two cemeteries and Oak Grove Cemetery is the second largest of our three cemeteries.

Since 1940 our receipts for the Sales of Lots have increased 46% and for care, interments, etc., 25%. When you consider the detail involved in each transaction and that the receipts for the care, interments, etc., are made up of amounts ranging mostly from $3.00 to $15.00, one realizes that each year brings more work and that our appropriations must be larger as time goes on.

Respectfully submitted,

ROBERT CROMPTON, *Chairman*
WILLIAM A. BRIGHTMAN
ROBERT S. WEAVER, *Secretary*

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners:—

Gentlemen:—

I herewith present to you my annual report of work accomplished in the city's several cemeteries under my supervision during the past year, together with such recommendations as I think practicable for the coming year.

The boiler in the greenhouse at the Oak Grove Cemetery gave out last year and a three section boiler that was formerly in the Monte Pio Hall was furnished and installed by the Building Department. One more section can be added to this boiler but even if this is done it will not hold the necessary heat to do away with the extra night work. As we will have to build an additional greenhouse some time in the future, I recommend a new boiler be purchased for the greenhouse.

The south side of the potting shed of the greenhouse should be shingled and the palm house re-built. The rafters of the palm house have rotted out and not only is it unsafe for a man to go on the palm house to paint it or re-set glass whenever necessary but our men refuse to do this work.

Three of our buildings need painting and the garage at Oak Grove Cemetery needs shingling. All this work is done by our own men so that the only added expense will be the cost of the paint and shingles.

About 600 feet of pipe was laid, by our own employees, from section 200 to the World War Plot No. 2. This will save people from carrying water such long distances.

The main avenues in the Rural and Oak Grove Cemeteries need re-building. Nothing has been done to them since they were built and they are now in very bad condition.

Material has been purchased for a flag pole to be erected on the World War Plot No. 2 in the Rural Cemetery. This pole will be put up in the Spring in order that a flag can fly over this plot May 30, 1946. Approximately $300 will be saved by doing this work with our own labor.

The building which was on the island in the pond at the Rural Cemetery was removed and the material salvaged for our own use. As far as burials are concerned this ground is useless, therefore, I suggest that the pond be filled in with dirt, which we now have, and the ground be made a beauty spot by planting flowers and shrubbery. It is a very suitable place for such, as it is opposite the Grand Army plot.

One of the sections, on the opposite side of the avenue of section 200, in Rural Cemetery should be made a single grave section. The only single grave section we have is in the Pine Grove Cemetery which is at the extreme end of the city. If a person in the south part of the city cannot afford a two grave lot it is necessary for them to go to the other end of the city to purchase a single grave.

If labor is available, the several hundred feet of drain pipe which controls the level of the pond at Pine Grove

Cemetery, which has been plugged for several years, should be taken up, cleaned out and replaced.

Our trucks are all very old. In 1945 one of our trucks was overhauled and this year the truck which is used at the Pine Grove Cemetery and the Lafayette sedan should be thoroughly overhauled. A new truck is very much needed.

A Compressor is equipment that is very necessary for this department to own and will save considerable labor and hardships for our men in the digging of graves in the winter.

In order to properly cut the grass on the 4500 lots which are paid for yearly, we must have new power and hand mowers to replace the equipment that is now beyond repair. For several years past we have been unable to obtain power mowers but this year predictions are that they will be obtainable.

This department supplied the Memorial Day Committee with approximately 1400 geraniums, free of charge, to decorate Soldiers' and Sailors' graves on Memorial Day, 1945.

The following is a summary of general work done in 1945:—

SUMMARY OF WORK DONE IN 1945

	Rural	Oak Grove	Pine Grove
Lineal ft. borders trimmed		250	
Foundations for tablets and markers	93	45	33
Foundations for monuments	28	18	8
Corner posts in lots		15	4
Flower and shrub beds	16	50	
Trees removed	30		175
Trees trimmed and pruned	102		39
Shrubs trimmed and pruned	160	150	135
Shrubs removed	8	10	
Neglected graves fitted	26	30	10
Graves fitted	132	145	49
Graves fitted in Public Ground		10	10
Headstones fitted	2	8	
Neglected headstones fitted	74		
Bodies dis-interred	3	1	3
Interments made in lots	183	99	32
Interments made in graves			48
Interments made in Public Ground			35
Interments made in World War Plot No. 1			11
Interments made in Spanish American War Plot			6
Interments made in World War Plot No. 2	2		
Total interments, 1945	185	99	137
Lots sold	30	3	14
Graves sold			48
Prepared lots unsold	281	146	399
Value of lots unsold	$55,147	$29,639	$75,860
Graves unsold			81
Value of graves unsold			$2,835
Number of stones cleaned	4		
Number of monuments cleaned	1	1	
Brick graves built	3	1	1
Lot and grave numbers set		16	207
Soldiers' markers set up	2	1	28
Lots in annual care	427	262	184

Respectfully submitted,

WALTER F. SMITH,
Superintendent of Cemeteries

REPORT OF CARETAKER
OF
SOLDIERS' AND SAILORS' GRAVES

New Bedford, Mass.
January 1, 1946

To the Honorable City Council of the
City of New Bedford.

Gentlemen:—

I hereby submit the following report of the work done on neglected lots and graves where soldiers and sailors are interred, as authorized in Chapter 218, Acts of Legislature, 1920:—

	Care of lots and graves	
Rural Cemetery	153	
Oak Grove Cemetery	146	
Pine Grove Cemetery	22	
Peckham West Cemetery	10	$19.00 was expended for fitting graves.
Sacred Heart Cemetery	42	
Jewish Cemetery	23	
Congregational Church Cemetery	2	
	398	

The amount appropriated for this work was $1,800 and of this amount $1,780.77 was expended for cutting grass and $19 for fitting graves, making a total of $1,799.77 and leaving a balance of $0.23.

Respectfully submitted,

HERBERT F. LASELL,
Caretaker of Soldiers' and
Sailors' Graves

ANNUAL REPORT

OF THE

CITY AUDITOR

OF THE

CITY OF NEW BEDFORD
MASSACHUSETTS

FOR THE FISCAL YEAR ENDED
DECEMBER 31, 1945

CITY OF NEW BEDFORD

OFFICE OF THE CITY AUDITOR

To His Honor Arthur N. Harriman, Mayor of New Bedford and the Honorable the City Council:

Submitted herewith are the following statements and schedules showing the receipts and expenditures for the City of New Bedford for the fiscal year ended December 31, 1945 and the financial condition.

Exhibit A—Balance Sheet as of December 31, 1945.

Exhibit B—Statement of Receipts for the Year Ended December 31, 1945.

Exhibit C—Statement of Expenditures for the Year Ended December 31, 1945.

Exhibit D—Summary of Receipts and Expenditures for the Year Ended December 31, 1945.

Exhibit E—Detailed Analysis of Appropriations, Receipts and Expenditures for the fiscal Year January 1, 1945 to December 31, 1945.

Exhibit F—Schedule of Bonded Debt and Sinking Funds as of December 31, 1945.

Exhibit G—Schedule of Real Estate and Personal Property as of December 31, 1945.

Exhibit H—Schedule of Indebtedness Payable at the close of the fiscal years 1925 through 1945.

Exhibit I—Summary of Bonded Debt and Sinking Funds as of December 31, 1945.

Exhibit J—Schedule showing year of maturity for Bonded Debt and Sinking Funds as of December 31, 1945.

Exhibit K—Comparative Balance Sheets as of December 31, 1944 and December 31, 1945.

My audit of Cash in Banks as of December 31, 1945 disclosed balances totaling $960,283.20, an increase of $58,322.64 in comparison with the beginning of the year.

Taxes Receivable at the close of the year were $248,220.69 against $300,394.53 on December 31, 1944, reflecting a decrease of $52,173.84.

Tax Titles totaling $95,071.78 show a decrease of $60,484.25 in the balance shown on December 31, 1944.

On December 31, 1945 Bonded Debt Outstanding totaled $3,081,000.00 against $3,849,000.00 at the close of the previous year. This is a net reduction of $768,000.00. Bonds outstanding and payable by the City of New Bedford are listed in detail on Exhibit F.

During the year the City of New Bedford borrowed $1,900,000.00 in Notes Payable for Temporary Revenue Loans, this obligation was paid during the fiscal year ended December 31, 1945.

Exhibit H shows the Bonded Debt for the City of New Bedford for each year commencing in 1925 through 1945. At the close of the year 1926 bonded debt totaled $14,075,000.00, the highest point reached during the past twenty years and at the close of the year 1945 this indebtedness had been reduced to $3,081,000.00.

Exhibit J sets forth the net amount payable yearly from revenue to provide for payments against bonded debt outstanding at the close of the year 1945. These requirements total $600,000.00 for the fiscal year 1946 and show substantial decrease each year with final payment liquidating all bonded debt during the year 1957.

All receipts and expenditures for the fiscal year ended December 31, 1945 are shown in detail on Exhibits B and C. Total receipts including money borrowed totaled $10,545,854.33 while expenditures were $10,512,425.84.

The City of New Bedford closed the fiscal year 1945 with a surplus of $695,815.83 in the Excess and Deficiency Account after transferring $250,000.00 for Post War Activities: $250,000.00 to apply against the tax rate and $138,500.00 for departmental appropriations.

Exhibit K shows a comparison of assets and liabilities at the beginning and end of the fiscal year ended December 31, 1945, setting forth the increase or decrease in each amount.

I certify that in the course of my audit of the books and records of the City of New Bedford I verified cash on deposit and securities representing the investments of sinking funds of the City of New Bedford and several trust funds in the custody of the commissioners, trustees and city treasurer and find that the same is in agreement with reports and records rendered by said commissioners, trustees and city treasurer to the City Council.

Respectfully submitted

EDWARD F. NERBONNE

City Auditor

Expenditures for 1945		$20,690.06
Expenditures for 1944		19,107.82
Increase over 1944		$582.24

FINANCIAL

It is extremely gratifying to note that our financial receipts for 1945 were larger than at any time during the past ten years. This figure would have been even considerably higher were it not for a loss in fees due to legislation authorizing the granting of certain licenses without fees. One hundred persons availed themselves of the provisions of Chapter 140 of the Acts of 1945, under which the owner of any dog was exempt from paying a license fee, if he was serving in the military or naval services.

Servicemen who were residents of Massachusetts, or stationed within the Commonwealth; persons 70 years of age, as well as recipients of Old Age Assistance, were entitled to hunting and fishing licenses without charge under other statutes. One hundred twenty-one (121) free licenses were issued to servicemen.

In addition thereto, certified copies of vital statistic records continued to be furnished without charge, if used by servicemen or veterans in connection with any rights under veteran legislation. The call for these records far exceed the demand of any previous year.

The sum of $995.50 remained in unexpended balance on December 31st, plus an additional credit of $350.00 which was transferred from the "City Clerk" budget appropriation to the budget account "City Council".

CITY COUNCIL

Councillor Joseph D. Saulnier was elected President of the City Council for the year 1945.

During the year the city council held 20 regular meetings and 15 special meetings.

The annual budget was received from Mayor Arthur N. Harriman on February 16, 1945 and the city council sitting as a quasi committee of the whole studied it for the full 45 days allowed by law, during which time no action as to approval or disapproval was taken. The budget in the amount of $6,708,270.55 was approved by the Emergency Finance Board on May 1, 1945.

On July 1, 1945 the necessity for approval of all appropriations by the Emergency Finance Board of the Commonwealth ceased in accordance with the provisions of Chapter 444 of the Acts of 1939.

On April 18, 1945 Ovila Fortin was elected a military substitute for Councillor Arthur E. Parent of Ward One, under the provisions of Chapter 548 of the Acts of 1943. Councillor Parent resumed his duties on October 25, 1945.

On May 31, 1945 Edward T. Glennon was elected a military substitute for Councillor John S. Zielinski. Mr. Glennon died before qualification, and on September 20, 1945 the council elected Thomas H. Margeson to fill the vacancy.

ACCEPTANCE OF LEGISLATIVE ACTS

On September 13, 1945 the council accepted Section 3 of Chapter 635 of the Acts of 1945, entitled "An Act Providing for Advances of their Vacation Pay to Officers and Employees of the Commonwealth and a Certain Counties, Cities and Towns," which was approved by the Mayor on September 15, 1945.

On October 11, 1945 the council accepted the provisions of Chapter 447, Acts of 1945, entitled "An Act Relative to Granting Vacations to Employees who Return to the Service of Certain Counties, Cities or Towns after Serving in the Armed Forces of the United States during the Present War," which was approved by the Mayor on October 19, 1945.

On October 25, 1945 the council accepted Chapter 723, Acts of 1945 entitled "'An Act Authorizing the Establishment and Maintenance of Municipal Departments and of Districts for Furnishing Information, Advice and Assistance to Veterans of World War II or Other Veterans," which was approved by the Mayor on October 26, 1945.

On November 23, 1945 the council accepted "An Act Relative to the Retirement Allowances of School Janitors in Certain Cities and Towns" which was approved by the Mayor on November 29, 1945.

ELECTIONS

During the year 1945 two elections were held, namely the Municipal Preliminary on August 7th and the Biennial Municipal on November 13th.

MUNICIPAL PRELIMINARY

This election was held on August 7th to facilitate the early printing of absent voting ballots for use by persons in the armed services. Authority for advancing the date of the election was contained in Chapter 166 of the Acts of 1945. Acting thereunder, the city council established the date at a meeting held on April 12th, which date was approved by the Mayor on April 14th.

Of 51,781 persons entitled to vote, 28,643 or about 55 1/3% participated in the election.

MUNICIPAL ELECTION

At the Municipal Election held on November 13, 1945 a total vote of 37,256 was cast, out of an enrolment of 52,-

942. Therefore about 70 1/3% of the registered voters participated. This office sent 178 ballots to the servicemen, of which 117 were returned and cast.

REFERENDA — MUNICIPAL ELECTION

The three questions submitted to the voters were adopted, the votes thereon being as follows,—

Question 1, Part 1. Shall the City of New Bedford vote to have the office of City Clerk placed within the classified Civil Service?

YES	22,057
NO	4,908
BLANKS	10,291

Question 1, Part 2. If it is voted to place the office of City Clerk within the classified Civic Service, shall the City of New Bedford vote to provide for the continuance in said office of Charles W. Deasy, the present incumbent thereof, after passing a qualifying examination?

YES	18,867
NO	5,456
BLANKS	12,933

Question 2, Part 1. Shall the City of New Bedford vote to have the office of Superintendent of Buildings placed within the classified Civil Service?

YES	21,432
NO	4,942
BLANKS	10,882

Question 2, Part 2. If it is voted to place the office of Superintendent of Buildings within the classified Civil Service, shall the City of New Bedford vote to provide for the continuance in said office of Frederick R. Ripley, the present incumbent thereof, after passing a qualifying examination?

YES	18,948
NO	5,193
BLANKS	13,115

Question 3. Shall the City of New Bedford construct, establish and maintain a general municipal hospital?

YES	27,983
NO	3,990
BLANKS	5,283

DISABLED VOTERS

AND

REGISTRATION OF DISABLED PERSONS

The privilege of absent voting was extended by the Legislature in 1945 to include persons physically disabled to vote in person although within the municipal limits. This authority is contained in Chapter 466, Acts of 1945, entitled "An Act Authorizing Absent Voting by Persons Who Are Unable by Reason of Physical Disability to Vote in Person."

Absent registration was provided for by Chapter 715, Acts of 1945, an act entitled "An Act to Provide for Absent Registration for Voting by Those Who by Reason of Physical Disability Are Unable to Make Application in Person at Sessions Called for the Purpose of Registering Voters." Under authority of this act, 49 persons were registered in hospitals, sanitariums and private homes.

While the enactment of the aforementioned legislation was definitely a progressive step, it should be amended so that eligible persons would not be deprived of the privilege through the cost involved under the present law. The weakness in the present law is apparent when you realize that the application for an absent ballot must be accompanied by a signed statement of a physician, registered nurse, hospital superintendent or Christian Science practitioner, and that the affidavit envelope must be notarized. Many persons with chronic illnesses or physical handicaps do not have any physician calling regularly, and so must incur the expense of a doctor's visit as well as a notary public's fee. If the law were amended to allow the application to be made "under the penalties of perjury" and the same provision made in relation to the ballot affidavit envelope, many more citizens could exercise their voting privilege.

CONTINUOUS REGISTRATION

Chapter 246, Acts of 1945 provided that any qualified person could be registered as a voter during regular business hours on application, except during such time as registration is not permitted by law.

CENSUS

Starting January 1st the Decennial Census was taken by police officers under the supervision of the Registrars of Voters. The official count was 110,308, which represents a population loss of 33 since the federal census in 1940.

BOARD OF SURVEY

This board, which consists of the Mayor and members of the city council under authority of Chapter 271 of the Acts of 1914, considered three petitions during the year 1945. The contemplated building boom is undoubtedly responsible for this increased activity.

GENERAL

The audit of accounts of the City of New Bedford for the period from January 1, 1944 to March 24, 1945, made in accordance with the provisions of Chapter 44 of the General Laws by the Director of Accounts of the Department of Corporations and Taxation, was submitted to the city council on June 14, 1945, and is on file in the records of the city council meeting of that date. The report may be seen at the city clerk's office upon request.

Storage space is at a premium both in our main office and in the vault. Some years ago a project was proposed which called for an excavation under the east lawn of the Municipal Building and the construction of a modern fireproof addition. This would make a splendid postwar project and rates a priority second only to those which are vitally essential to the public health and safety.

In order to conserve fuel, the Municipal Building was closed on Saturday from the first of the year through April 14th. In keeping with our previous policy, I arranged to have the office open part of the morning in order to accommodate the public. On these occasions either Pauline C. Roberts, the assistant city clerk, or myself were present aided at times by other members of the office force.

Cordial, efficient and courteous service has been given to the public at all times, and I herewith express my sincere thanks to the employees in this office for their splendid cooperation.

Respectfully submitted,

CHARLES W. DEASY,

City Clerk

ANNUAL REPORT

— OF THE —

CITY SOLICITOR

CITY OF NEW BEDFORD
MASSACHUSETTS

FOR THE YEAR
1945

American Press
1946

CITY SOLICITOR
ANNUAL REPORT
1945

November 1, 1946

To the City Council:

Gentlemen:

There is submitted herewith the annual report of the City Solicitor in accordance with Chapter 3, Section 44, of the City Code, as of the fiscal year ending December 31, 1945.

This office in 1945 rendered 35 written opinions, some of which were of major importance.

Several hundred contracts entered into by the City were examined and approved. A number of leases were drawn and executed.

Department heads frequently conferred with this office in connection with their departmental problems and various council committee meetings were attended by the City Solicitor and the Assistant City Solicitor.

A bill in equity was instituted against the City of New Bedford by the N. A. Textile Corporation and hearings in court were held in that case.

In the suit which the City had instituted against Jacob Genensky involving the so-called Butler Mill property a final decree was entered dismissing the bill of complaint and ordering the City to pay to the defendant the sum of $3,186.66. This action was taken as the result of an order enacted by the City Council authorizing the City Solicitor to consent to a decree against the City of New Bedford for the return of the deposit given to the City by the defendant at the time of the auction sale so that this property could be disposed of by the City and a sale advantageous to the City has been consummated.

A petition for writ of mandamus instituted by four municipal employees in behalf of all the other municipal employees to compel the Mayor of the City to submit a budget to the City Council providing for the money for the increased wages resulting by virtue of an ordinance enacted by the City Council was argued both in the Superior Court and before the Supreme Judicial Court of the Commonwealth of Massachusetts, and a demurrer filed in behalf of the Mayor was sustained.

This office handled all of the legal work in connection with the sale of two separate parcels of the former Langshaw Mill property, and also the Butler Mill property.

Considerable work was entailed in connection with the layout and acceptance of Smith street court.

Furthermore, the legal work pertaining to the former Beacon Mill land which was sold to the Textile Warehouse Corporation was handled in this office.

During this year 90 industrial accident cases were disposed of and reports on all of them were made to the Industrial Board. This office has also dispensed of a great variety of claims against the City.

There is hereto attached a list of the suits which were pending in favor of and against the City of New Bedford December 31, 1945,—

SUITS PENDING IN FAVOR OF CITY

Defendant	Facts	Ad damnum
John F. McGartlan	Suit for damage to hydrant by motor vehicle	$300

HENRY L. BURDING, Chauffeur, Engine Co. No. 6, joined the department Sept. 11, 1906, placed on pension roll Aug. 7, 1932.

EDWARD MARSH, Hoseman, Hose Co. No. 2, joined the department May 1, 1921, placed on pension roll Dec. 11, 1932.

JOSEPH ROBINSON, Hoseman, Engine Co. No. 2, joined the department Nov. 23, 1920, placed on pension roll Jan. 1, 1933.

HENRY LEEMING, Hoseman, Engine Co. No. 7, joined the department March 1, 1901, placed on pension roll Jan. 21, 1934.

JOHN T. CONWAY, Hoseman, Engine Co. No. 3, joined the department Dec. 18, 1894, placed on pension roll Sept. 16, 1934.

JOHN HUBBARD, Hoseman, Engine Co. No. 4, joined the department Sept. 16, 1917, placed on pension roll Oct. 27, 1934.

JOHN F. PARKER, Hoseman, Engine Co. No. 9, joined the department Dec. 6, 1886, placed on pension roll April 15, 1936.

JAMES V. BRENNAN, Hoseman, Engine Co. No. 4, joined the department Feb. 2, 1920, placed on pension roll Aug. 25, 1937.

ALBERT J. ABRAIN, Hoseman, Engine Co. No. 10, joined the department Feb. 2, 1920, placed on pension roll Oct. 24, 1937.

STEPHEN F. MILLER, Hoseman, Engine Co. No. 9, joined the department Dec. 1, 1917, placed on pension roll Dec. 26, 1937.

MRS. HELEN T. POLLOCK, widow of Captain Edward A. Pollock, who died as a result of fire duty Oct. 26, 1936, was granted an annuity by the City Council, effective Feb. 27, 1937.

JAMES J. DONAGHY, Deputy Chief, joined the department Sept. 1, 1884, pensioned July 1, 1938.

EDWARD H. COGGESHALL, Captain, Engine Co. No. 7, joined the department Sept. 1, 1890, pensioned July 1, 1938.

JOHN E. JOSEPH, Lieutenant, Engine Co. No. 4, joined the department Dec. 30, 1895, pensioned July 1, 1938.

GEORGE H. BAYLIES, Mechanician, Repair Branch, joined the department Nov. 1, 1891, pensioned July 30, 1938.

CHARLES E. GREENE, Captain, Truck Co. No. 3, joined the department Dec. 15, 1892, pensioned Dec. 11, 1938.

FRANK H. VINCENT, Chauffeur, Engine Co. No. 6, joined the department Oct. 26, 1903, pensioned Feb. 1, 1940.

THOMAS WOOLLEY, JR., Hoseman, Engine Co. No. 6, joined the department Nov. 1, 1910, placed on pension roll April 1, 1940.

JOHN H. McDONALD, Captain, Engine Co. No. 2, joined the department Nov. 1, 1910, pensioned July 15, 1940.

WILLIAM W. ENTWISTLE, Ladderman, Truck Co. No. 2, joined the department Feb. 2, 1920, placed on pension roll Sept. 29, 1940.

THOMAS F. BREAKELL, Hoseman, Engine Co. No. 3, joined the department May 12, 1909, pensioned Jan. 1, 1941.

CHARLES H. LAWRENCE, Chauffeur, Truck Co. No. 5, joined the department Feb. 3, 1902, pensioned Feb. 1, 1941.

FRANK N. CLEVELAND, Captain, Truck Co. No. 4, joined the department Oct. 23, 1903, pensioned March 2, 1941.

ROLAND H. COBB, Ladderman, Truck Co. No. 2, joined the department July 17, 1918, placed on pension roll April 27, 1941.

JOHN McQUILKEN, JR., Hoseman, Engine Co. No. 6, joined the department Oct. 19, 1908, pensioned May 1, 1941.

JOHN MURPHY, Hoseman, Engine Co. No. 9, joined the department Feb. 2, 1920, placed on pension roll Jan. 1, 1942.

EDWARD J. REGAN, Ladderman, Truck Co. No. 1, joined the department Oct. 7, 1918, placed on pension roll Jan. 1, 1942.

ALFRED J. NORMANDIN, Hoseman, Engine Co. No. 7, joined the department May 2, 1918, placed on pension roll March 1, 1942.

JOHN H. GALLIGAN, Hoseman, Engine Co. No. 7, joined the department Dec. 13, 1898, placed on pension roll March 1, 1942.

JOSEPH MILER, Hoseman, Engine Co. No. 9, joined the department April 2, 1922, placed on pension roll June 21, 1942.

JOSEPH A. WALKER, Hoseman, Engine Co. No. 4, joined the department Aug. 13, 1922, placed on pension roll Sept. 6, 1942.

PERCY SHEPHERD, Captain, Truck Co. No. 3, joined the department Oct. 14, 1915, placed on pension roll July 12, 1942.

ALBERT SCHOENE, Ladderman, Truck Co. No. 4, joined the department Sept. 24, 1922, placed on pension roll March 28, 1943.

FREDERICK WIGNALL, Chauffeur, Engine Co. No. 4, joined the department Feb. 2, 1920, placed on pension roll May 2, 1943.

LAWRENCE F. COCKING, Chauffeur, Engine Co. No. 6, joined the department Feb. 2, 1920, placed on pension roll Dec. 5, 1943.

FRANK C. CORRE, Chauffeur, Engine Co. No. 6, joined the department Feb. 2, 1920, placed on pension roll Feb. 6, 1944.

EDGAR J. ROSS, Fireman, Hose Co. No. 2, joined the department Feb. 2, 1920, placed on pension roll June 18, 1944.

THOMAS COLLINS, Fireman, Truck Co. No. 3, joined the department Nov. 25, 1917, placed on pension roll Sept. 24, 1944.

GEORGE H. DENHAM, Chauffeur, Engine Co. No. 1, joined the department Aug. 3, 1903, placed on pension roll Nov. 19, 1944.

WALTER H. HAWES, Fireman, Engine Co. No. 9, joined the department Nov. 25, 1917, pensioned Dec. 1, 1944.

ROBERT E. ALLEN, Ass't Sup't of Fire Alarm, joined the department Sept. 26, 1898, pensioned Dec. 1, 1944, but retained in department under provisions of Chap. 16, Acts of 1942.

FRANK J. NICKLAS, Captain, Engine Co. No. 1, joined the department Jan. 3, 1915, pensioned March 1, 1945.

HORACE A. BIRD, Fireman-Chauffeur, Engine Co. No. 9, joined the department June 1, 1907, placed on pension roll April 24, 1945.

WILLIAM N. WHELAN, Captain, Truck Co. No. 1, joined the department Aug. 29, 1904, pensioned July 4, 1945.

JAMES T. WING, Lieutenant, Fire Alarm Branch, joined the department Jan. 28, 1901, pensioned July 19, 1945, but retained under the provisions of Chap. 16, Acts of 1942.

CAPTAINS IN CHARGE OF STATIONS

REPAIR SHOP, STATION NUMBER ONE
JAMES H. DOWNEY, Master Mechanic
Appointed December 31, 1919

HEADQUARTERS, STATION NUMBER TWO
ROBERT E. ALLEN, Assistant Superintendent
Appointed June 9, 1918

STATION NUMBER TWO
ALBERT WOOLEY
Appointed July 8, 1945

STATION NUMBER THREE
EDWARD J. BLY
Appointed January 18, 1943

STATION NUMBER FOUR
JAMES P. QUINN
Appointed March 30, 1941

STATION NUMBER FIVE
EDWARD DUPUIS
Appointed April 29, 1945

STATION NUMBER SIX
HENRY J. FISHER
Appointed December 11, 1938

STATION NUMBER SEVEN
ELMER H. JAMES
Appointed July 1, 1938

STATION NUMBER EIGHT
CHARLES J. McKENNA
Appointed March 2, 1941

STATION NUMBER NINE
JOSEPH RUMNEY
Appointed March 22, 1931

STATION NUMBER TEN
PHILIP A. RAINVILLE
Appointed July 15, 1940

STATION NUMBER ELEVEN
ARTHUR W. RAYMOND
Appointed March 30, 1941

REPORT

December 31, 1945

Hon. Arthur N. Harriman, Mayor

Dear Sir:

I have the honor to submit, herewith, my forty-second annual report of the conditions and operations of the Fire Department for the year 1945.

The Department answered 310 Box alarms and 688 Still or Telephone alarms, a total of 998 calls during the year.

There are eleven brick Stations and one frame building in the custody of this Department.

The Fire Prevention Bureau made numerous inspections during the year and corrected many fire hazards.

Due to lack of manpower, a limited number of periodic inspections were made by the Deputy and District Chiefs and Firemen throughout the year.

APPARATUS IN COMMISSION

8	Motor Pumping Engines.
4	Electrical Aerial Trucks.
1	City Service Truck.
2	Hose Wagons with Booster Equipment.
1	Fog Fire Fighter.
1	Foam Chemical.
5	Automobiles for Chief and Assistants.
1	Automobile for Fire Prevention Bureau.
1	Supply Truck for Repair Force.
1	Wrecking Car for Repair Force.
1	Supply Truck for Fire Alarm Bureau.
1	International Truck equipped with Civilian Defense skid pump, assigned to Auxiliary Company at Sassaquin.
1	Jet propelled Fireboat.

APPARATUS IN RESERVE

1 Motor Combination Pumping Engine.
1 Hose Wagon with Booster Equipment.
1 Chrysler Coupe.
1 1½ ton White Truck equipped with Civilian Defense skid pump.
1 Rolls Royce Ambulance.
1 ¾ ton International Squad Wagon.

We have also in our custody the following Civilian Defense equipment, assigned as follows:

3 Front-end Pumps to Dept. of Public Works.
1 Trailer Pump to Water Works Department.
1 Trailer Pump to Firestone Mfg. Co.
1 Trailer Pump to Fire Station No. 6.
2 Trailer Pumps to Fire Station No. 7.
2 Trailer Pumps to Fire Station No. 8.
2 Trailer Pumps to Fire Station No. 9.
1 Trailer Pump to Fire Station No. 11.
3 Trailer Pumps to Repair Shop.
7,200 feet of 2½″ Single Jacket Hose.
3,600 feet of 1½″ Single Jacket Hose.
Also an assortment of Gas Masks, Coats, Pants, Pump Cans, Medical Kits, etc.

MANUAL FORCE

Consists of 209 men.

HOSE

1,000 feet of 3 inch.
19,500 feet of 2½ inch.
1,850 feet of ¾ inch.
500 feet of ¾ inch high pressure hose.
200 feet of 1 inch.
147 Waterproof Covers carried on apparatus.

DEATHS

James L. Haskins, Captain, Engine Co. No. 1, joined the department April 24, 1893, pensioned July 1, 1938, died Jan. 11, 1945.

Antone B. Medeiros, Jr., Fireman, Hose Co. No. 1, joined the department Nov. 29, 1942, died Jan. 29, 1945.

Philias J. Chartier, Lieutenant, Engine Co. No. 4, joined the department Feb. 2, 1920, died Dec. 10, 1945.

RESIGNATIONS

Roland C .Schellenberg, Fireman, Truck Co. No. 1, appointed March 21, 1943 while in the Armed Forces, resigned Aug. 12, 1945 without having reported for duty.

FATALITIES

Cornelia Morse, age 70 years of 279 Cottage St., burned so badly at fire at 5.52 P.M., July 13, 1945 that she died at St. Luke's Hospital at 9.14 A.M., July 14, 1945.

RECOMMENDATIONS

I recommend the purchase of at least 1,000 feet of 2½" Double Jacket Hose, 600 feet of ¾" Booster Hose, two Pumpers and two Aerial Trucks.

Respectfully submitted,

EDWARD F. DAHILL,
Chief of Department.

FTM

OFFICE OF THE BOARD OF HEALTH
New Bedford, Massachusetts

April 11, 1946

To His Honor, the Mayor and
Gentlemen of the City Council:

Pursuant to provisions of Section 28 Chapter 111 (Tercentenary Edition) of the General Laws, we herewith present to your honorable body the report of the activities of this department for the year ending December 31, 1945.

Respectfully submitted,

H. ERNEST DIONNE, Chairman
CHARLES L. BOOTH
M. F. SOUSA, M. D.
Board of Health

REPORT OF AGENT AND MEDICAL OFFICER

Except for Diphtheria and Tuberculosis the communicable disease situation was satisfactory during 1945.

Sixteen (16) cases of Diphtheria were reported with one death, the greatest number of Diphtheria cases reported since 1936. As stated before, there is only one way of keeping down the incidence of Diphtheria and this is by immunization. That fact has been proven and now admitted by public health officials. But to successfully carry out a program of adequate immunization your Department of Health must have the parents' full cooperation. This is not only needed, but absolutely indispensable.

Eighty-five (85) cases of Tuberculosis with thirty-nine (39) deaths were reported. The number of deaths is the largest since 1942. It now is a certainty that our program of Tuberculosis control so long envisioned and hoped for will be inaugurated this summer. After many delays we have received our X-ray equipment and now may go on with the work. By detecting T.B. in its early stages we will help in the eradication of this preventable disease. With this we hope to make Tuberculosis as obsolete as Typhoid or Smallpox.

The highlights of the year were the following:

General adjusted death rate 10.28

Infant mortality rate 32.09, the lowest ever recorded for our city

The age group between 70 and 80 gave the greatest number of deaths — 166

The continued downward trend of maternal mortality is most encouraging.

We cannot fail to take cognizance of the increasing rate of deaths due to heart disease. The number of yearly deaths at five-year intervals due to some form of heart disease in our city from 1925 to 1945 follows:

1925	289
1930	269
1935	322
1940	381
1945	404

If one were to consider mortality rates alone, public health work would certainly be somewhat discouraging if judged by the increasing death rates from the various forms of heart disease, as shown above.

Health Departments often become the last resort of complainants who are unable to get redress anywhere else. We feel compelled to have all complaints investigated, though we know that by no stretch of the imagination can the majority of them be considered of any concern to this Department.

During the last year complaints from tenants over some dispute with the landlord in regard to upkeep and repairs have been very numerous. Investigation generally revealed that no problem of public health was involved, but that the freezing of rents on one hand and increase of wages to trades employed in making such repairs on the other hand was found to be cause for the proprietors' refusal to make needed repairs. Evidently that is not of this Department's concern and causes considerable time spent on problems of no sanitary significance.

It is generally conceded that the Incinerating Plant is, at times, taxed to such an extent that serious thought should be given to either increasing its capacity or altering it in such a way that loaded trucks may be taken care of without delay.

A. N. SENESAC, M.D.
Agent and Medical Officer

The following is the record of deaths and mortality rates since 1889:

Year	Deaths	Rate	Population
1890	775	18.9 +	41,000
1891	960	21.8 +	*44,000

INFANT MORTALITY

The following record is interesting to those who are engaged in infant welfare work.

Year	Under 1 month	Year	Under 1 month
1927	98	1937	52
1928	96	1938	51
1929	62	1939	32
1930	64	1940	54
1931	90	1941	34
1932	52	1942	49
1933	58	1943	50
1934	70	1944	36
1935	57	1945	32
1936	61		

The infant mortality rate for the same period follows:

Year	Rate	Year	Rate
1927	39.9	1937	30.7
1928	40.1	1938	29.9
1929	31.3	1939	20.2
1930	32.1	1940	29.3
1931	49.0	1941	20.4
1932	30.0	1942	25.4
1933	34.8	1943	27.2
1934	39.6	1944	29.9
1935	32.7	1945	19.7
1936	34.9

Food Condemned	There were 18 pkgs. Egg Noodles, 1 bbl. of Corn Meal and 505 bags of Flour condemned in November.											

CAUSE OF DEATH	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
I. Infectious and Parasitic Diseases **Diseases Due to Bacteria**													
1. Typhoid Fever	....	....	....	....	....	1	....	....	....	....	....	....	1
6. Cerebrospinal (meningococcus) meningitis	....	1	....	....	1	....	....	....	....	....	....	....	2
10. Diphtheria (infection by C. diphtheriae)	....	....	....	....	....	1	....	....	....	....	....	....	1
13. Tuberculosis of the respiratory system (including the bronchiol and mediastinal lymph nodes)													
b. Without mention of occupational disease of the lungs	4	2	4	4	....	3	5	2	7	4	2	1	38
14. Tuberculosis of the meninges and central nervous system	....	....	1	....	....	....	....	....	....	....	2	....	3
22. Disseminated tuberculosis													
a. Acute (generalized) miliary tuberculosis	....	....	....	....	....	....	1	....	....	....	....	1	2
Diseases Due to Spirochetes													
30. Syphilis													
d. Aneurysm of the Aorta	....	1	....	....	....	....	....	....	....	....	....	....	1
g. Other and unspecified forms of syphilis	....	....	1	....	....	....	....	....	....	....	....	....	1
Diseases due to Filtrable Viruses													
38. Other diseases due to filtrable viruses e. Chickenpox	....	....	....	....	1	....	....	....	....	....	....	....	1
Diseases Due to Fungi													
44. Other infectious and parasitic (communicable diseases)													
b. Lmphogranulomatosis (Hodgkin's disease)	....	....	....	....	....	....	1	....	....	....	....	....	1
II. Cancer and Other Tumors													
Cancer and other Malignant Tumors													
45. Cancer of the buccal cavity and pharynx													
b. Tongue	1	....	....	....	....	....	....	....	....	1	....	....	2
f. Pharynx	1	1	....	....	....	....	....	....	....	....	....	....	2
46. Cancer of the digestive organs and peritoneum													
a. Esophagus	....	....	....	....	....	....	....	1	....	1	....	....	2
b. Stomach	2	2	1	....	4	3	1	1	5	6	1	3	29

CAUSE OF DEATH	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
II. Continued.													
d. Rectum and anus	1	....	....	3	1	3	....	....	....	....	....	....	8
e. Intestines (except duodenum and rectum)	2	6	....	1	2	2	4	1	4	3	1	2	28
f. Liver and biliary passages	...	2	....	....	2	....	1	....	....	....	....	....	5
g. Pancreas	....	1	....	....	....	1	1	....	1	1	....	....	5
47. Cancer of the respiratory system													
a. Larynx	....	....	....	....	....	....	....	1	1	....	2	....	4
d. Lung	2	....	1	2	....	1	1	1	....	2	....	2	12
48. Cancer of the uterus													
a. Cervix	....	....	1	1	....	....	....	1	....	....	....	1	4
b. Other and unspecified sites	1	....	....	1	1	1	....	2	....	....	1	....	7
49. Cancer of other female genital organs													
a. Ovary	....	1	....	1	....	....	....	....	....	....	1	....	3
50. Cancer of the breast	3	....	1	2	2	2	....	2	....	2	....	1	15
51. Cancer of the male genital organs													
b. Prostate	....	....	....	....	....	....	1	1	2	....	2	....	6
Penis	...	....	....	....	....	....	1	....	....	....	....	....	1
52. Cancer of the urinary organs (male and female)													
a. Kidney	..	. .	....	....	....	....	....	....	....	1	1	1	3
b. Bladder	2	2	1	2	2	....	....	1	2	....	....	....	12
55. Cancer of other and unspecified organs													
e. Other and unspecified organs	1	....	1	1	1	1	....	1	....	1	1	....	8
III. Rheumatism, Diseases of Nutrition and of the Endocrine Glands, Other General Diseases and Avitaminoses Rheumatic Diseases													
58. Rheumatic fever													
e. Other forms of acute rheumatic fever	...	..	1	....	....	....	....	....	....	....	....	....	1
59. Chronic rheumatism and other rheumatic diseases													
a. Rheumatoid arthritis	...	....	....	....	....	....	....	....	....	....	....	1	1
Diseases of Nutrition and of the Endocrine Glands and Other General Diseases													
61. Diabetes mellitus	2	....	2	2	3	....	2	1	2	1	1	2	18
IV. Diseases of the Blood and Blood-Forming Organs													
73. Anemias (except splenic anemia)													
a. Pernicious Anemia	....	1	1	....	1	....	1	....	....	....	....	....	4
b. Other hyperchromic anemias	....	....	....	1	....	....	....	....	....	....	....	....	1

CAUSE OF DEATH	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
IV. Continued													
d. Other and unspecified anemias)	....	....	1	....	....	....	1	....	1	....	....	....	3
74. Leukemias and aleukemias													
a. Leukemias	....	....	....	1	1	....	1	....	....	....	....	....	3
75. Diseases of the spleen													
b. Splenomegaly (of undetermined nature)	....	....	....	....	....	....	....	....	....	....	....	1	1
V. Chronic Poisoning and Intoxication													
77. Alcoholism (ethylism)													
c. Acute alcoholism	....	....	....	....	....	....	1	....	....	....	....	....	1
VI. Diseases of the Nervous System and Sense Organs													
80. Encephalitis (non-epidemic)													
b. Other encephalitis (non-epidemic)	1	....	....	....	1	....	....	....	....	....	....	....	2
81. Meningitis (not due to meningococcus)													
a. Simple meningitis	....	1	....	1	....	1	1	....	....	1	....	1	6
b. Acute cerebrospinal meningitis (not due to meningococcus)	...	....	....	....	1	....	....	....	....	....	....	....	1
83. Intracranial lesions of vascular origin													
a. Cerebral hemorrhage or effusian (excluding birth injuries)	15	19	13	11	14	19	10	10	6	7	11	13	148
b. Cerebral embolism and thrombosis	5	3	4	....	1	1	2	4	6	5	4	2	37
d. Hemiplegia and other paralysis of unspecified origin	...	....	....	....	....	1	....	....	....	....	....	....	1
86. Convulsions (under 5 years of age)	...	....	....	1	....	....	....	....	1	....	....	....	2
87. Other diseases of the nervous system													
c. Paralysis agitans (except result of encephalitis)	....	....	....	....	....	1	....	....	....	....	....	1	2
d. Disseminated sclerosis	....	1	....	....	....	....	....	1	....	....	....	....	2
e. Other diseases of the nervous system	...	1	....	....	....	....	....	....	....	1	....	....	2
VII. Diseases of the Circulatory System													
91. Acute endocarditis (except rheumatic)													
a. Bacterial endocarditis (acute, subacute or unspecified)	....	....	....	....	1	....	....	....	....	....	....	....	1
92. Chronic affections of the valves and endocardium													
b. Diseases of the mitral valve (whether or not specified as rheumatic)	....	2	....	....	....	1	1	1	....	....	1	1	7
d. Diseases of other and unspecified valves and chronic endocarditis not specified as rheumatic	....	....	1	1	1	....	2	....	....	....	....	....	5

CAUSE OF DEATH	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
VII. Continued.													
e. Endocarditis (not specified as acute, chronic or rheumatic, 45 years of age and over)	....	....	....	....	....	....	....	....	....	....	1	2	3
93. Diseases of the myocardium													
a. Acute myocarditis (except rheumatic)	....	....	....	....	....	1	....	....	2	....	....	1	4
b. Myocarditis (not specified as acute, chronic or rheumatic, under 45 years of age)	....	....	....	....	....	....	1	....	....	....	....	....	1
d. Chronic Myocarditis and myocardial degeneration, not specified as rheumatic	7	12	17	12	9	11	12	3	10	7	9	11	120
e. Other myocarditis (not specified as acute, chronic or rheumatic)	....	1	1	3	2	....	1	....	....	....	1	3	12
94. Diseases of the coronary arteries and angina pectoris													
a. Diseases of the coronary arteries	11	14	22	13	20	21	14	12	21	20	15	26	209
b. Angina pectoris	1	1	2	2	2	....	1	....	....	1	....	1	11
95. Other diseases of the heart													
b. Other diseases of the heart, specified as rheumatic.	....	....	....	1	1	1	1	....	....	1	3	....	8
c. Other diseases of the heart not specified as rheumatic	1	1	1	1	2	6	....	8	....	2	....	1	23
97. Arteriosclerosis (except coronary or renal sclerosis)	10	11	4	9	8	9	5	10	6	3	3	18	96
98. Gangrene	....	1	....	....	1	1	....	1	....	....	....	....	4
99. Other diseases of the arteries	....	1	....	....	....	....	....	1	....	....	....	....	2
VIII. Diseases of the Respiratory System													
104. Diseases of the nasal fosae and accessory sinuses													
b. Diseases of the accessory sinuses	....	....	....	1	....	....	....	....	....	....	....	....	1
106. Bronchitis													
a. Acute	....	....	....	....	....	....	....	....	....	....	1	....	1
c. Unspecified	....	1	1	....	....	....	....	....	....	....	....	....	2
107. Bronchopneumonia (including capillary bronchitis)	9	9	6	2	3	1	1	2	2	3	2	2	42
108. Lobar Pneumonia	....	2	2	1	....	1	....	....	1	....	2	3	12
111. Hemorrhagic infarction, thrombosis, edema, and chronic congestion of the lungs													
a. Hemorrhagic infarction and thrombosis of the lungs	....	....	2	3	....	1	2	1	....	....	1	....	10
b. Acute edema of the lungs	2	....	....	....	....	....	....	....	1	....	....	....	3
c. Chronic and unspecified congestion of lungs	....	....	....	2	....	1	....	....	....	....	....	....	3
112. Asthma	....	....	....	....	....	....	....	....	....	....	1	....	1

CAUSE OF DEATH	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
VIII. Continued													
114. Other diseases of the respiratory system (except tuberculosis)													
d. Abcess of lung	....	....	....	1	....	....	....	....	....	....	....	....	1
IX. Diseases of the Digestive System													
116. Diseases of the esophagus	....	....	....	....	....	....	....	1	....	....	....	....	1
117. Ulcer of stomach or duodenum													
a. Stomach	....	....	1	....	....	1	....	....	1	....	....	1	4
b. Duodenum	....	1	....	....	....	....	....	....	....	....	....	....	1
118. Other diseases of the stomach (except cancer)	....	....	1	....	3	....	....	....	....	....	....	....	4
119. Diarrhea, enteritis, and ulceration of the intestines (under 2 years of age)													
a. Diarrhea and enteritis	....	3	....	....	....	....	....	....	....	....	1	....	4
120. Diarrhea, enteritis and ulceration of the intestines (2 years of age and over)													
a. Diarrhea and enteritis	....	....	....	....	....	1	....	....	1	....	....	1	3
b. Ulceration of the intestines, (except duodenum)	....	....	....	....	....	....	1	....	....	....	....	....	1
121. Appendicitis	1	....	....	2	....	....	1	....	....	....	....	....	4
122. Hernia and intestinal obstruction													
a. Hernia	....	....	....	....	....	....	....	....	1	....	....	....	1
b. Intestinal obstruction	....	1	2	1	1	....	....	1	1	1	3	....	11
124. Cirrhosis of the liver													
b. Without mention of alcoholism	....	2	1	1	....	1	....	3	....	1	1	2	12

ANNUAL REPORT

OF THE

INSPECTOR OF WIRES
POLICE SIGNAL SYSTEM
STREET LIGHTS

TO THE CITY COUNCIL

FOR THE YEAR 1945

Darwin Press
New Bedford, Mass.
1946

ANNUAL REPORT

New Bedford, Massachusetts

March 26, 1946

To the City Council of the City of New Bedford.

Gentlemen:

I respectfully submit the annual reports of the departments of the Inspector of Wires, Street Lights and the Police Signal System from January 1, 1945 to and including December 31, 1945.

INSPECTOR OF WIRES

A total of 7,888 inspections were made during the year, the highest since the year 1935. The requests for inspections steadily increased and it seems that 1946 will reach an all time high for the department.

Mr. John Beauparlant, former Assistant Inspector of Wires, was honorably discharged from the United States Navy in September, and has returned to the department. He achieved the rank of Chief Electrician's Mate while in the Navy.

There were 127 inspections after fires in 1945 against 164 in 1944, a decrease of 37. The Fire Department was called each morning for a list of fires and all were investigated. Damage to the wiring and existing defects were reported to the owners and tenants. This department should be given considerable credit in keeping the fire loss at a minimum. Our inspectors find defective wiring conditions every day, which, if allowed to exist, would probably be the causes of many fires. Every day is Fire Prevention Day in the Wire Department.

Many requests for re-inspections were received and all were given immediate attention. Reports were sent to the owners and tenants and the conditions were remedied.

The wiring in many homes which was adequate for electrical needs 15 or 20 years ago have become inadequate today. With new electrical appliances and heating devices becoming available again, many changes to electrical wiring were made. Larger services and additional circuits were recommended and were installed in all sections of the city.

The following is a breakdown of the work this department has completed this year.

Requests for inspections	2,760
Wiring new buildings	19
Wiring old buildings	57
Additional sockets, switches, outlets and alterations	4,755
Repairing defects	571
Oil burners	416
Electric signs	102
Gasoline pumps	12
Advisory	218
Temporary work	16
Ice cream cabinets	4
Gas burners	61
Electric fixtures	3,484
Fluorescent fixtures	1,195

110V motors	468
220V motors	134
550V motors	73
Permits to contractors and owners	470
Receptacles	2,327
Transformers	149
Telephone booths	5
New loops	127
New services	138
Services reconnected	104
Inspections after fires	127
Inspections made	7,888
Reports of defective wiring sent to contractors and owners	2,898
Service breakdowns	23
Follow-up reports	167
Certificates on rough work	1,263
Permits to connect electric services issued to N. B. Gas & Ed. Lt. Co.	2,144
Red Tags	93

The department has also investigated and reported favorably to the City Council on 92 petitions of wire using companies, involving 197 poles, 10 relocations, 19 transfers, 39 fibre ducts, 28 removals, 8 manholes, 74 cancellations of former grants and 4,655 feet of underground conduits. Also approved 13 applications for the moving of buildings.

The operating expenses for the year were:

General Expenses	$ 664.73
Payrolls	9,449.92
Total	$10,114.65

POLICE SIGNAL SYSTEM

Work on the Police Signal System for this year has included the installation of one new box on Plainville Road also extensive repairs and reconditioning of five existing boxes. These repairs were made in our own repair shop. Two boxes have been rebuilt at the Gamewell Factory and replaced in service. There has been eighty-nine box inspections and eighty-three box repairs. Nearly all of the Police boxes have been repainted during the year. Two of the pedestals were knocked down by automobiles. This, of course, caused a slight interruption of service before repairs were completed. One box was relocated to permit the building of a new driveway and involved the extending of the existing underground conduits and wires a distance of about forty feet. One new pedestal has been set in the place of one of the older type.

New overhead tree cable was installed for a distance of five hundred feet replacing worn-out overhead lines. There have been fifty-two line jobs completed involving the replacement of existing overhead lines to new located poles. This also includes the repairing of breaks in the lines and also replacing defective cross arms.

Four cable jobs were undertaken and completed including the replacing of forty-five feet of defective underground cable.

Because the Telephone Company carried out an underground conduit job in the southwest section of the City, steps were taken to utilize a section of this construction for our own use. Twenty-five hundred feet of lead covered underground cable has been ordered and upon delivery will be installed in these underground conduits. This cable will replace a section of overhead lines which are in poor condition due to trees.

There has been twenty-one repair jobs completed on the Central Station apparatus.

There are ninety-two police boxes connected to the system.

A new rectifier type of battery charger has been ordered to take the place of the worn-out generator at the Central Station.

The traffic lights at County and Union Streets have required twelve different repair jobs.

The operating expenses for the year were:

General Expenses	$1,918.30
Payrolls	4,516.83
Total	$6,435.13

STREET LIGHTS

At the end of the year the new Plainville Road remains unlighted. These lights have been ordered installed and some of the poles have been set. I expect to see this job completed early in 1946.

During the year 18-100 candle-power lights were ordered installed in different sections of the city.

The number of street lights broken this year has reached an alarming total of 1,479. Compared with a total of 4,485 street lights in the city, the breakage was on a ratio of one out of every three. During November a total of 259 lights were broken and in December the number dropped to 89. While only paying half the cost of broken lights, the cost to the city this year was $256.79.

Many trees which shade street lights should be trimmed next year in order that we may receive the full benefit of our lighting system. Trees should have never been planted within fifty feet of a street light.

Modern street light fixtures should be installed throughout the city as soon as they become available.

At the end of the year there were 4,485 street lights, the highest number in the history of the city. The total candlepower was 881,000, the largest since 1936, and the cost per year are as follows:

2,088	100 C.P. overhead	14.40
918	250 C.P. overhead	23.88
32	250 C.P. underground (Hawthorn St.)	23.88
1,070	250 C.P. underground	31.20
36	400 C.P. overhead	35.28
259	400 C.P. underground	42.72
82	600 C.P. underground	54.36

Expenses of this department for the year were:

General Expenses	$101,868.10
Payrolls	1,000.00
Total	$102,868.10

Respectfully submitted,

WALTER E. MONT (signed)

Trustees' Report

To the Honorable, the City Council of the City of New Bedford, Mass.

The Trustees present their Ninety-third Annual Report to the City Council in the Report of the Librarian, which has been adopted by the Board.

Respectfully submitted,

BOARD OF TRUSTEES,

WILLIAM T. O'ROURKE,
Clerk of the Board

Librarian's Report

To the Trustees of the Free Public Library:

I herewith submit the report of a public trust, the Ninety-third Annual Report of the New Bedford Free Public Library.

In presenting this report, it is my intention to summarize briefly the accomplishments, changes, and developments of 1945, leaving all consideration of future prospects for inclusion in a "seven-year plan" to be submitted within the next month or two. This will incorporate department head recommendations for library growth and extension based on the foundations of personnel, buildings, books, and services, spaced over 1946-1953. In March 1953, the Library will celebrate its One Hundredth Anniversary.

CIRCULATION DEPARTMENT

The total book circulation for the year was 393,322, a gain of nearly 7,000 over 1944, due to a slightly larger amount of money available for book purchases. The registration figure as of December 31 was 18,657, a gain of 1504 in comparison with 1944. Both circulation and registration are still below the average we should achieve and will achieve when adequate book funds are appropriated. The deposit stations opened at Presidential Heights and Bay Village late in 1944 have proved very successful. Circulation at the former reached the splendid figure of more than 4000.

REFERENCE DEPARTMENT

An average of more than 500 questions per month was handled by the Reference Department, with a total figure for the year of 6332, an increase of 436 over 1944.

The Reference Librarian and Assistant Reference Librarian had a prominent part in the successful Practical Book Exhibit held in December, about which more will be said in the section on Public Relations.

Among the more important reference books added during the year are Westminster Dictionary of the Bible, Westminster Historical Atlas of the Bible, Gould's Medical Dictionary, Encyclopedia of Insurance, and Lanz' Aviation Dictionary.

JUVENILE DEPARTMENT

For the second successive year, this department showed an increase of more than 4000 in book circulation. The Children's Librarian continued her work with community groups by way of book talks, Girl Scout activities, work with teachers, and story hours. An innovation was the use of victrola music during part of the story hours, using a borrowed victrola and a number of records purchased for this particular purpose. The summer Vacation Reading Club numbered 123 members.

CATALOG DEPARTMENT

After one recheck the fiction inventory taken in 1944 now stands at 7572 books missing. With another recheck, the cards for these books will be removed from the catalogs. 5820 books were added to the shelves and 1331 were withdrawn, giving a total of 230,884 volumes in the library at the end of the year. The report of the Head Cataloguer points out the absolute necessity of a trained cataloguer to replace Miss Cobb who resigned late in 1945.

ART DEPARTMENT

The Head of the Art Department in her report says: "The recently painted walls and ceilings of the top floor, and the replacing of the paintings in their former locations, have drawn many pleasing comments from the public." Increased circulation in the Art Department indicates many new patrons and renewed interest. Exhibits of art work by Oded Bourla and Harold Kenworthy were enthusiastically received and well attended.

GENEALOGICAL DEPARTMENT

A number of new books and several volumes of the American Genealogical Index have been added to the shelves of the Genealogical Department. Routine clipping and indexing and the compiling of a picture record of local Service Men and Women were continued. Many out-of-town people have visited the Department in search of historical and genealogical information, which usually they have been able to obtain. It is hoped that the Department will be returned to its former room on the top floor early in 1946.

STACK DEPARTMENT

The work of rearranging sections of books in the stacks still goes on with gradual progress, though a large turnover in stack employees in addition to insufficient help at times have slowed the process. There are many old and out-of-date books, magazines and newspapers to be cleaned out, and room made for more modern material.

BRANCH LIBRARIES

The unsatisfactory physical conditions at the three branch libraries, with those of West and North of prime importance, will be taken up at greater length in recommendations included in the 1946-1953 plan. The repairing, painting and new lights for South that we have been awaiting for several years still were not forthcoming in 1945.

North Branch achieved a healthy gain in circulation, while South and West, showed slight losses, largely in juvenile fiction. On the other hand, South had a good increase in juvenile nonfiction.

The Saturday morning story hours at South Branch were continued and a Vacation Reading Club was conducted during the summer .

HOSPITAL SERVICE

The circulation of books at St. Luke's Hospital was 6569, a loss of about 800 in comparison with 1944, due largely to the fact that a number of hospital days, of which there are only two each week, occurred on holidays. Our inadequate book funds allowed the expenditure of only $25 for hospital books, so that only 24 volumes were added to the collection and of these 7 were gifts.

PUBLIC RELATIONS

The Practical Book Exhibit held early in December in Ingraham Hall, supervised by the Reference Department with generous help from other staff members, and active cooperation from Mr. Paul L. Kuch and Mr. Augustus Mailloux, was acclaimed a splendid organization and effective display of material by numerous business and industrial leaders of the city. The purpose of the exhibit was to call attention to the practical materials available in the library for business and industry, employers and employees. About 500 persons visited the exhibit and nearly 100 of the books shown were reserved for use after the display. An annual repetition of this type of exhibit for several years seems to merit consideration.

The Public Forums, begun in 1944, grew to larger proportions in 1945 with a special municipal appropriation of $600 to finance them. The Library Hall has been filled to overflowing for each forum, appropriate books have been displayed and reading lists distributed. The 1945-46 forums entitled "Problems of the Peace," may necessitate our moving the program to the High School Auditorium where there is a larger seating capacity.

An exhibit of "Books of Jewish Interest" was set up for a special literature program at Tifereth Israel Synagogue and displays of books were arranged at the Unitarian Church during a series of forums sponsored by the Inter-Church Council. During Catholic Book Week, the local council Knights of Columbus sponsored a lecture in Library Hall, "Good Living in Good Literature" by Professor Alfred V. Boursy of Holy Cross College and an appropriate exhibit of books was arranged in Ingraham Hall. Many other timely displays of books and other materials were shown during various weeks and for particular events. Generous thanks are expressed to the Standard-Times and WNBH for their excellent publicity of library affairs.

A series of library radio programs over WNBH is now in preparation and may get underway early in 1946.

SERVICE TO VETERANS

Many of the returning Service Men and Women have made use of the splendid collection of occupational and vocational materials purchased and organized during the past several years. In 1945 our section of school and college catalogs was checked and revitalized, and is being used quite frequently by veterans interested in furthering their education.

BUILDING AND GROUNDS

Under supervision of the Superintendent of Public Buildings, the walls and ceilings of the top floor of the Main Library were painted, the skylights were repaired, and the Art Room floor was refinished. Other minor repairs were completed in various parts of the building and at the branches.

The New Bedford Garden Club financed the landscaping of the library grounds and planted shrubs and trees in accordance with a plan in abeyance for two years because of the war.

FINANCES AND PERSONNEL

Because of the transfer of $600 from Salaries and Wages to General Expenses and permission to use about $400 from the unexpended Forums appropriation late in the year ,our General Expenses account was about $1000 higher than for 1944. This small increase is merely a beginning and must be enlarged greatly. The proposed budget plan adopted by the Library Trustees in 1944, and which was used as the basis of our budget estimate for 1945, was given no consideration ; neither was the salary and wage schedule in the library's Organization and Personnel Plan. Our requests for both General Expenses and Salaries and Wages are entirely reasonable and justified, and I cannot emphasize too strongly that the library's personnel sets the pattern for the library's reputation and consequent value to the community.

TRUSTEES

The Rt. Rev. Msgr. John F. McKeon and Mrs. Carolyn B. Manning were reappointed to the Board of Trustees in April.

STAFF

Among the numerous Staff changes during the year were the retirement of Clement L. Yaeger after 51 years of employment in the Library, and the resignations of the Misses Jean Bruce, Lucille Hayward, Mary Sherman, Marjorie Cobb, and the Mesdames Mildred Marsh, Mabel Coates, and Helen Smith. A testimonial party was given Mr. Yaeger at the Wamsutta Club by the Trustees and Staff. Mrs. Alice Mahoney was granted a year's leave of absence in June, and the Misses Deolinda Perry, Lucy Sherman, Charlotte Nye, Cezaltina Mendoza, Sally Victoria, Thelma Perry, Evalina Constantine, and Jacquelyn White were appointed to various vacancies. Mrs. Florence Perry and Mrs. Marion Hathaway were appointed temporary West Branch Librarian and Assistant respectively late in the year. The position of Executive Assistant to the Librarian was suspended, and Miss Minerva F. Maxfield was appointed Assistant Librarian upon Mr. Yaeger's retirement. Mr. William Marsh, after several years of service in the U.S. Navy, returned to his position as elevator operator. Changes in the part-time staff were also numerous.

The Librarian and Staff Members attended meetings of the Massachusetts Library Association and Old Dartmouth Library Club, and gave talks on the library and books, locally and elsewhere. The Misses Bonner and Riley as well as the Librarian continued their War Finance Committee work.

GIFTS

Many gifts of books, magazines and pamphlets were received from local sources and from individuals, libraries, business houses, and other outside the city. All are acknowledged with sincere gratitude.

RECOMMENDATIONS FOR 1946

All of these have been included in the Library's 1946 budget estimate and the special appropriation request submitted to the Mayor.

1.—Establish Young People's Department.

2.—Establish Extension Service to hospitals, rest homes, invalids in their own homes, and industrial plants.

3.—Paint and repair lower floors—Main Library.

4.—Paint, repair and change lighting system at South Branch.

5.—Provide ventilation system for Lecture Hall.

6.—Return Genealogical Room to top floor.

7.—Install fluorescent lighting in Reference Room, Ingraham Hall, Juvenile Department and present Genealogical Room.

8.—Lay new flooring in Reference Room and Juvenile Department.

9.—Begin microphotography of newspapers.

10.—Install new telephone system.

11.—Sandblast outside of building and apply pigeon deterrent.

12.—Remove partition and thus enlarge West Branch Library room.

13.—Paint and repair walls, ceilings and floors at North Branch.

14.—Make survey for new heating system at Main Library separate from Municipal Building.

In conclusion, it is my privilege to extend sincere thanks to the Library Trustees, members of the staff and those in the community who have shown an interest and helped the Library in various ways.

Respectfully submitted,

WILLIAM T. O'ROURKE.

OFFICE OF PARK BOARD

Room 205 Municipal Bldg.
New Bedford, Mass.

CITY OF NEW BEDFORD

BOARD OF PARK COMMISSIONERS

December 31, 1945

The Honorable City Council:

Gentlemen:

The Board of Park Commissioners, in compliance with the provisions of law, presents herewith its 52nd Annual Report on Parks; also the report on Bath Houses, Playgrounds, Youth Activities and Rifle Range, under the control of the Park Department, for the year ending December 31, 1945.

Nine regular meetings of the Board were held this year, the Board members voting to dispense with meetings during the months of June, July and August.

Mr. Antone Mello, whose term expired in May, was reappointed by the Mayor to serve on the Board for another five years.

In November, Mr. Leon W. Brown, Park Police Officer and a veteran of the first and second World Wars, retired on account of ill health, and Mr. Harold E. Finnell, a Military Substitute was made a permanent Park Police Officer.

Mr. Carlos V. Mello, a gardener at the Common for a number of years, was appointed in January to fill the vacancy of Park Keeper at Hazelwood Park. He was the first man on the Civil Service list of Park Keepers, the examination having been held the previous Fall.

In June of this year the Mayor appointed Mrs. Isabel K. Winsper as Supervisor of the Youth Centers. The employees at these Centers are under a provisional appointment, certified by the Civil Service Commissioner.

The Franco-American Society requested permission to erect a monument in Brooklawn Park in memory of the Franco-American Veterans of all wars, and the Board granted this request.

Although bids were advertised for concessions at three of the Parks, several bids were submitted but only for Buttonwood Park. The concessions privilege which is for one year were awarded to Mrs. Theodore Galkin, the high bidder, for $118.75.

Permission was granted to different Veteran Organizations to hold Carnivals on Bristol Mill Lot, which lot is under the supervision of the Park Department. This was done with the approval of the Mayor.

Community gardens were again apportioned this year, and it was impossible to meet the demand for these plots. Preference was given to those who had the gardens the previous years.

The Rifle Range under our control was used from May through November by the following Units of Massachusetts State Guards:

28th Infantry Machine Gun School
  14th Company for Rifle Practice
28th Infantry, Chemical Warfare School
  5th Company for Rifle Practice
Medical Det. 28th Infantry Training Exercises
  8th Company for Rifle Practice
28th Infantry, Sub-machine Gun School
25th Infantry, Rifle and Machine Gun School
28th Infantry, Communication Det. Exercises
Company F, QMC, for Rifle Practice

The reports of the Superintendent of Parks and that of the Supervisor of Youth Activities Centers, and the Playground Director are incorporated in this report.

Respectfully submitted,

ANTONE MELLO, Chairman
JOHN ANTHONY, Secretary

To the Honorable Board of Park Commissioners:

Gentlemen:

I herewith submit my annual report covering the work and activities of the Park Department.

There was difficulty again this year in obtaining enough help for the Spring and Summer months work, as our appropriation did not permit us to hire employees on a permanent basis. Of the names submitted by the Civil Service Commissioner, very few of the men would accept employment with a guarantee of only six months work.

We were further handicapped in that the Mayor established a forty hour work-week for all employees in the labor service of the city, and in order to keep up the necessary maintenance work on the parks we were obliged to work our regular employees forty-eight hours a week, which was not a satisfactory arrangement for the employees or the department.

This year we finished clearing up most of the wooded sections of the parks, of the trees damaged in the year 1944 hurricane, the cost of the labor being taken care of under a Hurricane Fund, which had been previously set up by the Mayor to take care of all damages done by this hurricane.

The employees in the greenhouse again raised almost two thousand geraniums which were used to help decorate veterans graves in the cemeteries throughout the city.

During the year, I with Superintendent of Parks and Recreation from various cities and towns in the Commonwealth, attended a meeting in the State House to which we had been invited by the Civil Service Commissioner, to plan a program on ways and means of setting up classifications for workers on Recreation Activities, for year-round recreation programs.

The War Mothers planted two trees in Brooklawn, Hazelwood and Buttonwood Parks as Memorials. This is a program this group has carried on for the past few years.

There were donated to the Zoo at Buttonwood Park, five black ducks and two buff bantams, by Mrs. Alton Healy of New Bedford.

All wooden flag poles in the parks were painted, under contract, for the sum of $357.70. The flag pole in Brooklawn Park being steel was painted under a separate contract at a cost of $125.00.

As the sheep at Buttonwood Park were getting too numerous for us to take care of, we donated a number of them to the City Infirmary to be slaughtered and used as food for the inmates.

A project has been started whereby barbecue fireplaces will be installed at Buttonwood Park by the Scouts, material for these to be furnished by the Park Department, the Scouts doing the work. This is a project that well could be fostered for the other parks in the city.

We were obliged to prohibit all horse-back riding in Buttonwood Park at night, as we had received numerous complaints this was dangerous to pedestrians. Some of the riders not confining themselves to the designated areas for this purpose.

The parks were patronized to a great extent for picnic parties by many Church groups, both old and young, in spite of our inadequate facilities. This also created an increase in the use of the Community Houses, especially by the elderly ladies in Church Guilds.

Our garden and floral displays were up to their usual standard and much admired by the many visitors to the parks. Although we did not have sufficient funds to purchase as many new rose bushes as we wished, we still had a fine display at the Common, with blossoms from June to late October.

The recreation facilities have been well patronized, and due to the cooperation of our regular employees we had no complaints on the upkeep of the baseball diamonds and bowling greens. The baseball fields are used afternoons by the High Schools and Vocational School for practice and Home games. In the evening these same fields are used by the senior groups for Twilight League games. This entailed extra work on the part of our men to have the diamonds in a condition to satisfy the evening leagues.

The tennis courts were not used to any extent in 1945, but in 1946 we expect to have more playing on the courts so will have to resurface all the courts.

The Municipal Bathing Beach proved its popularity during the mid-summer months by the very large crowds that frequented the beach. There were 111,225 bathers who used the facilities of the bath houses.

We were somewhat handicapped in that we were not able to obtain enough lifeguards with the necessary qualifications for this type of work.

A condition to which thought should be given is the jetties and seawall at the Municipal Bathing Beach. These damaged by the last hurricane are badly in need of repairs, but the work could not be undertaken again this year as we were not allowed enough money in the appropriation to take care of this expense. The cost of these repairs was estimated as $10,000 and the longer this work is postponed the greater will be the cost.

Improvements:

At Buttonwood Park a new cable for flood-lights was installed.

Extensive repairs were made on the buildings; the slate roofs on the skating shelter and the greenhouse were repaired and the bird house painted.

Brooklawn Park Bowling Green shelter was painted, and outside repairs made on the work-shop and garage; the slide doors being rebuilt and the buildings painted. Extensive outside repair work done also on the Ricketson House.

Painted and repaired the outside of the Lucas House, and the Superintendent's house in Hazelwood Park. In this park also forty benches were repaired and painted and sixteen new concrete and wood benches installed.

The Field House at Ashley Park was painted, and the concrete and wood benches repaired and painted.

Twenty-seven of the concrete and wood benches on Marine Park, that had been damaged by the hurricane and washed from their positions, were put back in place and repaired and painted.

All the concrete benches on the Common were repaired and painted.

The sun shelter and the covered slide on Hathaway Playground were rebuilt and painted. As the equipment on this playground was in a very poor condition it required extensive repair work done on it.

The standards and equipment on all the playgrounds were repaired and painted.

At the Rifle Range, which is under our jurisdiction, not much repair work was done. The principle work being to change over the water piping and install a safety valve on the hot water tank.

Improvements at the Municipal Bath Houses:

In the administrative building the inside walls, wood benches, and all other wood-work, were painted, and two coats of water-proof concrete paint applied to the outside. All piping exposed to the weather was painted.

All wood-work in the men's and women's rest rooms was painted, and all wooden parts on the outside of the building painted, and the gutters cleaned.

In the children's bath house the inside walls were painted, as was all the wood-work inside this building. The wood-work on the outside was also taken care of in this manner.

The canopy over the pier received one coat of paint.

The rafts which had broken away from their moorings in the year 1944 hurricane, and washed up on Joseph Francis Park, were moved back to their original moorings at the Municipal Bathing Beach at a cost of $1475.00. This expense was taken care of by the Hurricane Fund.

The sidewalks which also suffered considerable damage were repaired, and all settees along the walks, replaced, repaired and painted.

Reports on the Playground activities and the Youth Center Recreation activities are attached to this report.

This year's work was made possible by the co-operation and efficiency of the entire park force, and I wish to extend to them my sincere appreciation and thanks, and my thanks to the Park Commissioners for their advice in administering the duties of the Department.

Respectfully submitted,

THOMAS E. HALLIWELL,

Superintendent of Parks

September 28, 1945

Mr. Thomas E. Halliwell,

Superintendent of Parks.

Dear Sir:

I hereby submit a brief summary of the playground activities for the summer of 1945.

The playground season opened with an unusually large attendance at each of the eleven playgrounds, with an estimated attendance of approximately 100,000. The first week was given over to getting acquainted with the children, preparing for various types of handicraft classes, forming patrols for safety of younger children around the equipment areas, forming baseball leagues, as well as softball, volley and newcomb teams.

Throughout the season there were field and track events which created great interest and were participated in by most all the youngsters. Ribbon awards were given to the winners of the sport activities.

Great interest was taken in handicraft work, many useful and unusual articles having been made during the season. The children were taught knitting, sewing, making stuffed animals, making patch-work quilts, and the art of making paper flowers. There were also a great variety of articles made from leather.

As we were not able to obtain raffia, crepe paper was used to a great extent, the paper being cut in strips and drawn through a wooden contrivance which twisted the paper into a rope effect. This was used like raffia to make dolls, place mats, baskets of all kinds, covering glass containers to make fancy vases and for many other uses.

Broken toys, left over from a W. P. A. project, were reconditioned on the playgrounds by the children under the supervision of the leaders.

From scrap yarn were made novelty articles to be worn on coats.

Twice a week different playground groups were taken by a supervisor to visit the Old Dartmouth Historical Museum, where they learned many interesting things regarding the one-time Whaling Industry of their city.

During the last week of the season an exhibition of the children's work was on display in the window of one of our center stores where it attracted the interest of thousands of people who commented on the excellence and amount of work accomplished in the short period of time, which was only nine weeks.

I wish to thank the employees of the Park Department and the Superintendent for their co-operation which helped to make the season a success.

Respectfully submitted,

JAMES F. SULLIVAN,

Director of Playgrounds

December 31, 1945

Mr. Thomas E. Halliwell, Supt. of Parks

Dear Sir:

I respectfully submit herewith the report on Youth Centers for the year 1945.

During the past year, two Youth Centers have been established which are successfully meeting the recreational needs and guidance problems of the young people in our city. The Centers were originally intended for teen agers but younger sisters and brothers pleaded for membership cards, and because character development is best accomplished before the age of twelve, it was decided to admit young people from 8 to 19 years of age.

The first Center was established in December of 1944 under the careful supervision of Mrs. Rufus P. Turner. This is a first floor store property at the corner of Ash and Kempton Streets.

The second Center was established in May with Mrs. Francis S. Winsper, Director of Youth Centers, in charge and Mrs. Frank Simas (since resigned) assisting. This is an old school building which was made attractive by the efforts of the Mayor's committee under the leadership of Mrs. Paul Keller. Each of the four rooms was furnished by one of the following groups,—Council of Women's Organizations, Rotary Club, Lions Club and Kiwanis Club.

Activities at the Centers include quiet games, sewing, reading, chorus singing, dramatics, talent shows, newspaper publishing, social dancing, table tennis, pool, baseball, basketball and softball teams, nature hikes, picnics, hayrides, cook out suppers, swimming parties and other seasonal parties. Artcraft is taught by Mrs. Turner and Mrs. Winsper and during the year the members made almost $150 from sale of articles made in these classes. Mr. Vancini and Mr. Barreau have taught art and Mr. Charles Trafford, 3rd, social dancing.

There is no janitor service provided in either Center and all cleaning and repairing of equipment is done by members. This feature is unique in New Bedford Centers but is good in that it increases the responsibility of the individual to the community thus making better citizens.

Snack Bars in both Centers dispense milk, hot chocolate, sandwiches of various kinds, cakes, fruit, coca-cola and ice-cream. Cooking, serving and planning is done by members who raise considerable money for Center use in this way and also learn business methods.

Enrollment at the West End is 96 and daily attendance about 40. At the Mary B. White Center (centrally located) enrollment is 1095 and daily attendance 170.3. This would seem to indicate that Centers are neighborhood projects and because the North End of the city is not provided for, it might be well to consider starting a Center for this section during 1946.

The Director, Mrs. Winsper, was selected to discuss New Bedford Youth Centers in the panel on Recreation at the Massachusetts Conference of Social Work held in Boston in November. It was the opinion of experts that the variety of program is responsible for the success of our local Centers.

We are deeply appreciative of the fine work done by the Mayor's committee in sensing the need for these centers, and working to establish them. We appreciate also the assistance given so willingly by the aforementioned Clubs, also the North End Guild, Girl Scouts, Boys' Club, Vocational School, Miss Susan Shennan, Director of Vocational Guidance in the High School, Miss Alice Irwin, psychologist for the School Department and many interested people in the community who have contributed as individuals.

We sincerely appreciate the interest of the entire Park Department; the gentlemen of the Board, Mr. Halliwell, the office staff and others who have helped this new member of the Departmental family.

Respectfully submitted,

ISABEL K. WINSPER,

Director of Youth Activities

BOARD OF APPEALS

City of New Bedford

January 1, 1946

To the City Council of the City of New Bedford.

Gentlemen :

The Board of Appeals submits its annual report for the year 1945.

Meetings have been held on the first and third Wednesdays of each month except when there were no appeals.

Forty-two appeals were received for consideration during the year. Twenty-five of these were granted, fourteen denied, and three withdrawn.

A summary of the cases, with the action of the board thereon, is set forth in the following table.

No.	Nature	District	Location	Action

IN MEMORIAM

It is with deep regret that I announce the loss of a member of this department while on active duty with the armed forces of the United States in Germany.

MAURICE RAYMOND MORIARTY

was appointed a patrolman May 24, 1942. Entered U.S. Armed Forces August 1942 and in October 1944 was reported missing in action over Germany and October 1945 was declared legally dead.

PATROLMAN DANIEL J. McDONALD, Retired
Died January 27, 1945
Age 82 years, 4 months, and 16 days

SERGEANT ELLSWORTH C. JACOBS
Died March 1, 1945
Age 68 years, 7 months, and 22 days

PATROLMAN JAMES P. SWEENEY
Died April 26, 1945
Age 60 years, 4 months, and 11 days

PATROLMAN JAMES L. MANNING, Retired
Died October 10, 1945
Age 67 years, 7 months, and 6 days

LIEUTENANT JOSEPH C. RYAN
Died November 3, 1945
Age 45 years, 6 months and 18 days

REMARKS AND RECOMMENDATIONS

In presenting my report for the year 1945 I still am on record as recommending the installation of a teletype system of communication. We are entirely dependent on the State Police at Wareham, Mass. for a communication system of this nature. Every call placed requires a toll charge and in no way renders the service a teletype system would furnish, and place the department in a position to be informed on police matters in other areas.

October 7, 1945 our police training school continued in operation under the personal direction of Captain Wm. S. P. Murphy. Four classes per week were held. The school closed April 1, 1946 with examination and class discussion of the subjects taught. I feel sure that the instruction was well worth while and paid in dividends. Favorable comment has been received from members of the department.

At this time, I wish to thank His Honor the Mayor, the City Government, the Press, the Radio Broadcast, and the Public for the co-operation given to this department in the past year.

Respectfully submitted,

JOHN W. DAVIES,

Chief of Police

ANNUAL REPORT

OF THE

BOARD OF PUBLIC WELFARE

FOR THE YEAR 1945

CITY OF NEW BEDFORD

MASSACHUSETTS

William A. Higgins

Chairman

Lionel B. LeDuc

Board Member

Louis A. Cordeiro

Board Member

Joseph A. Desjardins

Principal Social Worker

To His Honor the Mayor and the Members of the
City Government of the City of New Bedford:

Gentlemen:

The Board of Public Welfare respectfully submits herewith its annual report for the year 1945.

The gross expenditures for public assistance for the year were $1,824,729.05. This represents an increase of $148,393.54 over that expended in 1944.

There are three categories of public assistance and of these, Temporary Aid and Aid to Dependent Children showed very little change from the previous year. Old Age Assistance continued to increase by leaps and bounds and this form of aid showed an increase of $139,100.11 over that spent in 1944.

The year 1946 will definitely show a tremendous increase for this category of assistance due to the fact that the law has been extensively liberalized by the 1945 Legislature. Changes did not become effective until January 1, 1946 and we are therefor unable to estimate at this time just how far-reaching they will be. We do know, however, that the reduced exemptions of children, the liberalization of the medical assistance part of the Act, and the changes by the State Department in their rules and regulations will add a considerable sum to the expenditures for 1946.

We would like to point out that the reductions in contributions by children due to the change in the law will represent an increase of more than $90,000.00. The new Act will also make eligible a large number of persons who could not meet the necessary requirements prior to this time.

The General Relief program or, as some call it, Temporary Aid, will also show an increase for the year 1946. A fairly good-sized number of former recipients were able to secure employment during the war period despite their physical handicaps. This is not the situation today and these people are gradually being discharged from their employment. In some instances, they will be eligible for some unemployment compensation but in most cases they will not have worked the required periods to receive this form of insurance.

The aid to Dependent Children expenditures can also be expected to increase during this coming year. Some changes have been made in this Act by the Legislature but the major reason for the anticipated increase is due to the fact that some mothers who were employed during the emergency period have now given up their work and are therefor eligible for this form of aid. We do know, however, that the increase for General Relief and Aid to Dependent Children will nowhere near reach the proportions of that expected under Old Age Assistance.

The Board would also like to point out that dispensing Welfare today is a far cry from that of a few years ago. The continued liberalization of all public assistance programs has made the Welfare Department of today one of many problems. The distribution of monetary aid is but a part of the department's work and the sooner we all realize that public assistance of the future will demand far more than merely sending a check, then the sooner we will adequately prepare for what is ahead of us. The recipients of all forms of assistance have many problems that require the attention and services of all and there is an increasing demand made upon the department for social services because recipients are not capable of looking after their own personal interests, both physical and financial

The problem at the City Infirmary during the past year has continued to be that of scarcity of personnel, the most serious part being our inability to secure male attendants for the men's section of the hospital. This problem has been, and still is, a serious one with all hospitals and institutions throughout the State. It has resulted in much additional work by the present staff and their whole-hearted cooperation has been greatly appreciated by the members of the Board.

A new cooling system was installed at the City Infirmary during the past year and this improvement will be of much value. The maintenance of the City Infirmary buildings is now under the jurisdiction of the Superintendent of Buildings and the Board at this time wishes to express its appreciation to the

Superintendent for his cooperation during the past year.

The Chairman of the Board repeats what he has said on numerous occasions during the past nine years and that is that the integration of all three categories of assistance would provide far greater efficiency, elimination of all duplication, and a reduction in administrative costs. This integration is in use in some other cities in the State and has proven to be a great success. The problem here in NewBedford has been, and still is, lack of adequate space to integrate the three divisions.

In closing, the Board wishes to express its appreciation to the Mayor and City Council, to the Supervisor and the staff of District 6, State Department of Public Welfare, to our local private charitable organizations, and to the many business and manufacturing concerns who have continued to cooperate with us throughout the year.

Respectfully yours,
William A. Higgins
Chairman

Report of Superintendent

Hon. School Committee
New Bedford, Mass.

Gentlemen:

It is once again my privilege to submit the annual report of the Superintendent of Schools of this city. This is the eighty-fifth in the series.

We have become accustomed to speaking and writing about problems resulting from a world at war. It is with a feeling of thankfulness to Almighty God and a sense of eternal debt and gratitude to our armed forces that we turn our attention to the problems of a post-war world. Since V-J Day we have been busily engaged in making necessary adjustments to changed conditions and preparing for the educational problems of the future.

This has been and is no easy task. We have never known a time when our resources were as severely taxed as they have been since the war unofficially ended. This is particularly true of our personnel.

Many of our employees who served in the armed forces have been discharged from such service and have returned to their duties in this department. We are very glad to report the return of the following:

Richard J. Brown
George F. Cronin
Lydia Fragosa
Stephen V. Hayes
Frank F. Hutchings
Mitchell S. Janiak
George W. King, Jr.
Joseph L. LeBlanc
J. Milton Rex
Anthony Zielinski

Some of our former employees discharged from military service have submitted their resignations and have taken up duties elsewhere. We wish the following success and happiness in their new fields:

Mary G. Ciaburri
William A. Julien
Preston B. Rowe
Kathleen Winfree

The following who were in the armed services have not yet returned to this department. We shall be glad to welcome them back at an early date:

John J. Bauer
Eleanor L. Benac
Walter W. Bonner
Philip Bronspiegel
Cyril G. Cole
G. Philippe DeRosier
Joseph A. DeSousa
Stephen W. Doherty
James K. Donaghy
Laura Furtado
John F. Gracia
James R. Hayden
Lawrence B. Markey
Catherine R. Murphy
Leon Sarin
Francis J. Singleton
Clifton M. Southworth
Mayo H. Tripp
Norman H. Tripp

You have doubtless heard and read much about the teacher shortage which exists throughout the country. Due to the fact that many of our former teachers, now married, have been willing to substitute in the absence of regular teachers, this shortage has affected us very little until the present school year. It is now making itself very evident in the elementary schools. There are several vacancies which should be filled as soon as possible by regular teachers in order to be able to use our substitute teachers for temporary work.

The tendency to look for positions in other lines of endeavor where salaries are higher, and the fact that graduates of teacher training institutions seek placement in junior or senior high schools where remuneration is usually greater, are among the reasons for shortage of teachers in elementary schools. The single salary schedule has much to offer as a solution of this problem. Something must be done to make positions in the lower grades as attractive as those in higher schools.

There is a new retirement law which goes into effect January 1, 1946. This law has increased retirement allowances to such an extent that several teachers may take advantage of it and leave the field of education. Teachers have resigned when their husbands returned from military service or resigned to be married since V-J Day.

You have helped to alleviate this teacher situation by voting an increase in salary to all regular employees in this department and by raising the substitute pay substantially. You have also given the superintendent authority to secure graduates directly from state teachers' colleges without experience and to nominate married women if necessary to fill regular positions.

It is our firm conviction that the Department of Guidance and Placement will prove very valuable to the youth of this city. This department has made an excellent start and has been most helpful in serving returning veterans. It has a strong endorsement from Mr. Benson of the State Department of Education. Miss Shennan's report gives details of accomplishment in the short time it has been in existence and stresses the philosophy underlying its activities.

It has been the object of the school department to serve the returning veterans in every way possible. Some are in the Adult Education Department, some have returned to regular high school courses by choice, while others are served by the so-called Regional High School. This school is established under the leadership of Mr. Anson B. Handy of the State Department of Education. Teachers are paid by the State Department while housing, books and supplies are furnished by the City. President Kelly of the State Teachers College at Bridgewater makes assignments to the local school from applications sent to him as a result of consultations with and advice of our guidance department. The Regional High School is the best means we had at our disposal to serve those who could not be assigned to regular high school routine.

Adult education was re-established during the past year with the approval of the State Department of Education. Mr. Joseph DeSousa will be director of this department. Since he is still in the armed services Mrs. Josephine Hurley was secured as a substitute pending his return. We are indeed fortunate to have the value of her training and experience in setting up this service. A total of 600 adults are enrolled at the present time.

Miss Irwin's report on special classes should give you a definite idea of the work under her charge. Her keen insight into the problems of the pupils served by these classes and her sympathetic understanding of their needs have contributed greatly to success in this field. It should be kept in mind that these classes required by law are designed to provide opportunity for training which is not possible in so-called regular classes. As soon as possible a workshop class must be established near the center. This will be done when proper facilities can be secured.

Nursery classes established under the Lanham Act in May, 1943 were discontinued September 30, 1945. This child care project was carried on as an aid to working mothers during the war. When the war ended Federal aid was withdrawn and you voted to close the classes unless Federal aid was extended.

During their existence these classes served over 300 children at different times and enabled their mothers to go to work. These children were between 2½ and 4 years of age. Classes were in session from 6:30 A.M. to 5:30 P.M. daily from Monday through Friday. A fee was charged according to the number of meals served during the day.

Reports from parents indicated that they were very much pleased with the care and training afforded by this project, but since it was in the nature of a day nursery and since the cost was approximately $300 per child it did not seem advisable for the School Department to carry it on at local expense during normal times.

The entire cost of this project was $56,707.39 of which $28,553.13 was borne by the Federal Government, $11,892.71 by New Bedford and $16,261.55 was received through fees.

The following is from a report made by Mrs. Rose M. Sylvia who supervised these classes: "All children of this age should be allowed the privilege of attending nursery classes. This project, being a war emergency project, the care and training was limited to the children of working mothers. The service should be extended to all mothers and to their children between 2½ and 4 years of age.

"The hours of the school day should not be as long as they have been, a regular school session 8:30 to 3:30 is sufficient for a nursery training program. In fact, two sessions of three hours each, with different age children at each would be most ideal and beneficial for the children from an educational point of view. Children should be with their mothers for the biggest part of the day, if conditions will permit."

The department is grateful to Mrs. Sylvia and her assistants for the success of this project.

Mr. John Egan, our chief custodian, has reported repairs, replacements and improvements made during the past year. This report cannot fully show the great amount of time and energy which Mr. Egan had to give to these matters. He has made excellent use of the money placed at his disposal and is gradually gaining ground in the many items of needed repairs which have piled up during those years when money for this purpose was at a minimum. More and more we are cognizant of the fact that our department mechanics are a financial asset to the city.

Throughout a period when it has been most difficult to secure satisfactory help our force of custodians has been a credit to the department, working extra time voluntarily when the welfare of the schools required it.

The several committees on courses of study in elementary, junior and senior high schools have functioned in an efficient manner. The work of these committees is very important and requires the best effort of the best people in order to achieve desired results. The members of these committees deserve our highest commendation for their unselfish devotion to this duty.

A committee composed of Dr. Mary W. Walker, Mr. G. Walter Williams, Mr. Allison R. Dorman, Mr. Robert H. Murdy and the superintendent was appointed on October 25, 1945 to study the need for courses in industrial and household arts at the High School. This committee recommended on November 25, 1945 that such courses be established in accordance with State Law and that the superintendent secure all necessary information needed in order that the School Committee may proceed in this matter.

It is the intention of the superintendent in this connection to examine all curricula at the high school. Mr. Dorman and Mr. Murdy will aid in this endeavor. The help of Mr. A. Russell Mack, Supervisor of Secondary Schools for the State Department of Education, will be sought and the curricula of other high schools in the State will be studied.

It is very desirable that additional opportunities be provided for eighth grade industrial and practical arts. As soon as tools and equipment can be secured for the boys' work a recommendation will be made that a shop be opened in the basement of the Cook School. This would take care of eighth grade boys in the Mt. Pleasant, Parker, Cook and Rodman Schools, leaving the entire time of the Harrington shop for the seventh grade.

At the same time it will be recommended that the facilities for cooking at the Harrington be used entirely by seventh grade girls and that eighth grade girls be given instruction in Clothing and Home Nursing at the Howland School. It is hoped that these changes will go into effect in September 1946.

During the school year you voted to grant time for religious instruction during school hours to those pupils in grades four and five in the Swift, Rodman, Cook, Taylor and Hannigan Schools whose parents desired it. This plan is on trial for the present school year. While no definite reports regarding this plan have been made by the principals it can be stated that there is definite cooperation between the school of religious instruction and the public schools which it is hoped will bring about satisfactory results.

Every year shows a loss of employees who have served the department faithfully for many years. We mourn the loss of those taken by death and we wish for those who resigned or retired many happy years in the future.

Last year's report stated that a school is largely what a principal makes it. That statement will bear repetition. Of course a school needs good teachers but there is no more important person in the school than the principal. The appointment of a principal has been and will continue to be a matter that requires the greatest care and consideration. The superintendent's recommendation is made only after endorsement by his immediate assistants and after the opinions of principals and supervisors in a position to know have been solicited. It is gratifying to know that appointments made under the present administration are proving very satisfactory.

The present world conditions emphasize the importance of education in the life of the individual as a member of the community, the state and the nation. Teachers never have had a more important or more difficult task than at present confronts them. Students must be taught the duties and responsibilities of citizenship in a democracy, the willingness to work, to study, to sacrifice if necessary for the common good. These lessons have been taught us by our armed forces in the conduct of the war. We as educators must apply them to peacetime pursuits. We as educators must teach by example.

This is a changing world and we who are laboring in the field of education must be constantly on the alert to make our objectives, our procedures, our policies, our methods fit that change. But fundamental principles must not be sacrificed in an endeavor to keep up with the times. Rather ours is the task to study, to investigate, to weigh values and to pursue only those courses which will attain our ultimate objective, the training of the individual to the full measure of his ability.

The greater our experience becomes the more we realize that satisfactory results can be attained only by the wholehearted cooperation of all members of an organization working unselfishly toward a common goal. World problems have rendered our work most difficult the past year. Your superintendent is most grateful to all members of our schools for their help and encouragement, particularly to his assistants who have had to assume more and larger responsibilities for their departments, and most of all to you, members of the School Committee, whose sympathetic support and guidance have made possible whatever success we have achieved.

Respectfuly submitted,

EDWARD T. N. SADLER

Report of the Assistant Superintendent in Charge of Secondary Schools

Mr. Edward T. N. Sadler,
Superintendent of Schools,
New Bedford, Mass.

Dear Sir:

My three previous reports were prepared during a period of world-devastating war. It is a pleasure to be able to write this one at a time when the great powers are at peace although the recent armed conflict has not yet been officially terminated by our government.

We are now entering a period of transition from wartime habits and practices to those of peacetime. It is important to realize that in planning the adjustments that were made in our educational system in order to render the most effective service during the war we never lost sight of the fact that every child has a right to an education for life. It was recognized that although it was essential to educate our manpower for war it was just as necessary to train our youth to meet the multiple demands and problems of a world at peace. As we contemplate the future we are conscious that our education should have as one of its objectives the establishment of a sound basis for a peaceful world. We are proud that our American way of life has prevailed. From now on educators can focus their attention on the development of a sound educational policy that will properly prepare our children for their new outlook in life. It is recognized that the responsibilities of school administrators are tremendous and that there are new opportunities for abundant service and attainment. The degree of success will depend on the wisdom and strength with which we build.

During the past three decades theories and practices of the organized guidance movement have been receiving ever increasing attention from progressive educators. It has been definitely established that leaders in this field regard guidance as an integral factor in education for the purpose of serving the individual and the community. It is felt that in a broadly conceived plan this service has a very prominent place, that every member of the teaching corps should be given an opportunity to participate, and that leadership to carry on the program should be delegated to trained people.

An important development during the past year was the organization in our school system of a Division of Guidance and Placement in co-operation with the Massachusetts Department of Education. Lack of space in the School Committee Rooms made it necessary to open an office in Room 120 of the High School. On May 10, 1945 the School Committee elected Miss Susan E. Shennan as Director and adopted a program outlined by her and approved by the Massachusetts Department of Education. At a meeting on June 28, 1945 the School Committee voted to transfer Mr. Alexander Thomson from the position of vocational counselor of boys in the junior high schools to that of assistant in the Division of Guidance and Placement with specific assignment to the duties of placement and follow-up.

Step by step a program of guidance will be organized that eventually will meet the needs of all the pupils in the system. It will take considerable study, patience, the exercise of wisdom and common sense, and the hearty cooperation of all who may be called upon to assist in the operation of this new division in order that maximum benefits may be obtained. The vital function of organized guidance is worthy of the conscientious interest and loyal support of every one who realizes the fundamental place it has in an educational system that strives to produce a dependable, worthwhile citizenship.

It is particularly fortunate that the Division of Guidance and Placement and the Division of Adult Education are being organized at this time as they can be of great assistance to veterans of World War II, who desire to resume their education after discharge from service. Everything is being done to give the veterans the best educational opportunities that are available. At present there are five means of formal training at their disposal.

1—Regular day sessions at the High School for those who express a desire to attend.

2—Evening High School.

3—Division of Adult Education.

4—Regional High School located in New Bedford High School and operated under supervision of the President of the State Teachers' College at Bridgewater.

5—Massachusetts Division of University Extension.

On September 13, 1945 the Superintendent reported to the School Committee that the enrollment in secondary schools at the end of the first week of school in September compared with the enrollment at the same time the previous year indicated a loss of 207. However, a comparison with the enrollment figures at the close of the school year last June showed a gain of 304 which indicated an increase in enrollment that was insufficient to make up the loss during the school year 1944-1945.

During the year classification was completed of the mounted materials that were assembled by the employees of the WPA and turned over to the New Bedford School Department when the federal emergency organization was dissolved. The pictures are now on file in the basement of the School Committee Rooms. Although this collection is not representative it contains much valuable material. The school librarians spent considerable time in cataloging and indexing. An effort was made to be as simple as possible and to anticipate questions that might arise among non-library trained people. Two copies of the Catalog and Index of Mounted Materials, containing instructions for the use of the catalog and for the procurement of the pictures, were issued to each school. Since all up-to-date teachers are sensitive to the educational value of visual aids it is expected that there will be a constant demand for these materials.

The film program for the current school year began Monday, September 17, 1945. In the past it had been the custom to prepare a program for the period from September to January inclusive and another for the remainder of the school year. This time bookings were made for the entire school year. In the past it was found necessary to depend to a large extent on the Division of Teaching Aids of Boston University for the type of films that were considered best for educational purposes. Recently the sources of films have increased in number and the quality of the films has improved. As a result of the opinion of a number of interested teachers that we should spread out and obtain films from a variety of sources the program for the current school year was prepared with a number of bookings from different places. Every care was exercised to see that the films were suitable for teaching purposes.

Previous to October 1945 it was the practice to use teacher-operators who often ran into difficulties in the operation of the projectors. On such occasions the teacher-operators did their very best to exhibit the pictures that were scheduled as it was very disappointing to the pupils, who had previously been prepared by their teachers to obtain the most educational value from the pictures, when the films could not be exhibited. At a meeting of the School Committee on October 11, 1945 a contract was awarded for the transportation and exhibition of films by a projectionist for the remainder of the school year. The results of the substitution of one operator for seventeen teacher-operators will be anticipated with interest.

The period from September 1, 1944 to August 31, 1945 included the first full school year of the Community School Lunch Program.

Type A, Without Milk

Number of schools participating	3
Number of meals served	121,297
Federal money (U. S. Department of Agriculture) received as reimbursement for school lunches	$8,490.79

Type C, Milk Only

Number of schools participating	35
Number of bottles served in schools with	
cafeterias	357,153
other schools	493,374
Total	850,527

The dietitian in charge of school cafeterias reported that one of the chief objectives of the community school lunch program is being achieved by the increasing number of hot lunches that are being purchased by pupils. The program is being carried on during the current school year 1945-1946.

On February 8, 1945 the School Committee accepted with regret the resignation of Mr. Elwyn G. Campbell as principal of the Roosevelt Junior High School. Mr. W. Kenneth Burke was promoted from the assistant principalship to the position of principal. On April 16, 1945 Mr. George F. Cronin of the high school faculty was elected assistant principal. I wish to take this opportunity to express my appreciation of Mr. Campbell's courtesy, loyalty, and the fine spirit of cooperation that he displayed on the numerous occasions that we met for the transaction of school business.

On May 10, 1945 the School Committee acknowledged with thanks and appreciation a gift to the Roosevelt Junior High School to be known as The Elwyn G. Campbell Fund, the income each year to be used to provide an award for some worthy member of the graduating class to be based on the same requirements as those for the Sons of the American Revolution Medal and the Veterans of Foreign Wars Medal.

Under date of June 12, 1945 the Social Studies Committee recommended a new course of study in United States Government for grade seven and in Massachusetts State Government for grade eight, which were adopted by the School Committee on August 30, 1945 to become effective the following month. The committee is now working on a course of study in New Bedford Municipal Government.

On May 31, 1945 the School Committee adopted a new course of study in literature for the seventh, eighth and ninth grades to be implemented by Books I and II of the Let's Read Series published by Henry Holt and Company, which had been adopted by the School Committee on November 30, 1944.

In September 1944 the subject of general science was introduced in grades seven and eight of the grammar schools. One set of text books was provided for each grade in each school but due to lack of funds no apparatus nor chemicals for experiments or projects were provided. Miss Roxie Newcomb, Chairman of the Science Committee, kindly prepared a list of such supplies that would meet the minimum requirements of one room in each building. These materials were purchased for use beginning last September.

During the past year teachers on the standing committees have rendered valuable service to the Department through their constructive suggestions to improve courses of study and methods of teaching. Their conscientious efforts are sincerely appreciated.

On October 25, 1945 the School Committee voted to accept a recommendation of the Superintendent that a committee to appointed to study the needs for courses in industrial and household arts at New Bedford High School. Mr. G. Walter Williams, Dr. Mary W. Walker, Mr. Allison R. Dorman, Mr. Edward T. N. Sadler and Mr. Robert H. Murdy were appointed to serve on the committee. The report of the committee, which was unanimously accepted by the School Committee on November 29, 1945, was as follows:

> "The committee recommends establishment of courses for the teaching of industrial and household arts in the senior high school in compliance with State Law.
>
> "The committee is convinced that this cannot be accomplished without an addition to the high school building.
>
> "The committee recommends that the Superintendent of Schools be directed to secure all necessary information needed in order that the School Committee may proceed at once in this matter."

It is quite significant that throughout the country today there is a definite conviction among educators that there should be more general education in secondary schools and colleges. Results of recent studies of the education of young people and adults emphasize the great need for more of this type of formal training. Specialization in order to learn enough technical subject matter or to acquire enough skill to obtain and hold a job will not properly prepare a student to participate as an informed and useful citizen in the social, economic and political problems of the community. It is important that there be a congruous balance between general education and specialized training. General education should enhance the value of specialization and broaden vocational usefulness.

We are now in a period of national and world reconstruction which will make it necessary to overhaul our curriculums in secondary schools and redefine our educational objectives in order that we may properly prepare our children to live in the new world of tomorrow with its many possibilities and its diverse responsibilities. The kind of world we will have a generation from now will depend to a large degree on the kind of educational opportunities we offer our young people now and on the thoroughness with which we meet the needs of all our youth.

It is now about a decade since the curriculums at the High School were revised and brought up to date. For a number of years limited facilities have curtailed opportunities to meet the variety of needs of the students. The school is not comprehensive in character. It has an academic unit, a commercial department, and there is a civic course for pupils who do not wish to prepare for higher institutions of learning nor for commercial employment. Students under sixteen years of age, who have been unable to enter the Vocational High School, are enrolled in numbers in the commercial department. A few enter the academic unit, and others take the civic course. In many instances they are not particularly interested as they are not doing the kind of work which they need or for which they are best suited. There are other students throughout the school who find themselves in the same predicament. The faculty is doing a very creditable job under the circumstances.

The expanding organization of the Division of Guidance and Placement, the possibility of the addition of courses in industrial and household arts, and the need of evaluating every course in the light of postwar objectives indicate that now is a propitious time to consider a survey to determine how the school can best serve the needs of the individual student and of the community. An occupational survey of the city will produce indispensable information for the vitalization of the function of placement and for the evaluation of commercial courses with reference to the needs of business men and to the needs of the students who are expected to meet business standards. It is desirable that in the near future surveys be inaugurated to decide on recommendations to expand and modernize the services of the senior high school in order that it may accomplish more completely the requirements of the community and the individual needs of all the students.

Every thoughtful person will agree that so far as education for all our youth is concerned the war has produced conclusive evidence that education is more important for the welfare of our country than ever before. The responsibilities of our democratic society impose upon each of us the duty of determining the educational needs of our people and of providing the means of meeting these needs in the most effective way. During the coming year may every one of us be alive to the new demands and issues that will confront us in the training of our young people to find their proper place in the life of our Nation and to have proper attitudes in civilian life in order that we may be able to do our part well in the reconstruction of human activities in the new era of peace.

Respectfully submitted,

ROBERT H. MURDY

Report of the Assistant Superintendent in Charge of Elementary Grades

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Massachusetts

Dear Mr. Sadler:

In compliance with your request, I submit the annual report of the Assistant Superintendent in charge of elementary grades.

Since school opened in September 1945 about half of our children in the elementary schools, for the first time in their lives, are attending school under peace time conditions. Life for many of these children during the war years included anxieties, excitement and stimulation from many sources and for many reasons — in the home, from the radio, the newspapers, the newsreels and from many school activities. Now that these school children are experiencing the happiness of living in a world at peace it is imperative that we study our elementary school program thoughtfully, reconstruct it if necessary, that these children may be assured maximum educational development.

As in September 1944 every pupil entering grade one in September 1945 was given a reading readiness test and a group mental test. This year the Detroit Beginning First-Grade Intelligence and the Marion Monroe Reading Aptitude Tests were given by teachers and principals to 811 children entering first grade. The results disclosed a wide range in both ability and readiness to learn. Mental ages ranged from three years to nine years. The range of average percentiles obtained on the Marion Monroe Aptitude Test was from one to ninety-six. An average percentile score of 60 or over indicates the child will become an average or superior reader by the end of the year, one below 40 indicates poor achievement and between 40 and 60 it is possible that presonality, emotional and teaching factors are most potent in turning the child toward good or poor achievement. With this information at our command soon after the child enters school we are challenged to adapt our teaching procedures to the level of the child's development and interest, to provide the child with a feeling of security and success at the beginning of his school life. If this is done many potential problems in later grades in the elementary school will be eliminated.

Last year Open House was held in the first grades of the I. W. Benjamin School, the Sarah D. Ottiwell School and the H. A. Kempton School in order that teachers might meet and see what had been achieved in a reading readiness program during our first year. Many teachers and principals attended these informal conferences, found an opportunity to talk with other teachers and see what had been accomplished. First grade teachers have made a fine beginning and I am proud of them. Last year a principal was invited to discuss reading readiness at a meeting of the College Club. The assistant superintendent gave an informal talk to the Mothers' Club of one of the churches and again to a group of young mothers in one of the schools. Another invitation to discuss this topic has been accepted for early in the new year. There is much interest in the meaning of reading readiness.

We are all very grateful to the committee of principals and teachers who as a result of study recommended that such a program should be adopted, to you as Superintendent, who not only approved it but encouraged us to carry it out, and to the school committee who voted to allow us to put it into operation.

Principals and teachers had been asked to check the progress of second grade children as predicted by the scores made in tests given in grade one in 1944. The assistant superintendent is discussing the achievement of these second grade children with principals and teachers during her visits to the schools. In most cases the scores have proved to be a true indication of both the ability to learn and the rate of learning. As always, other factors such as health, attendance and cooperation of the home contributed to the success of these pupils. This study emphasized differences in the rate and power of children to learn and the necessity of adapting the teaching to meet the individual differences of each child. Hollis L. Caswell in Education in the Elementary School writes, "Individual differences could not be eliminated even though it were desirable to do so. Much of the richness of living and many of the important achievements of men arises out of their differences in capacity, ability, and outlook. Where there are leaders, there must be followers; where there are producers of art, there must be consumers of art."

In grade three a battery of Stanford Achievement Tests including arithmetic, reading and spelling were given the children twice during the school year — first to find the grade level of achievement and the weaknesses which needed to be strengthened. In May another form of the battery was used to measure progress each child had made and was given consideration as one of the factors in determining whether the child had reached a point in his development which would warrant his promotion from the Primary Unit to Grade IV. As stated by a principal of a primary school, "We wish the child to be an integrated whole at the end of Grade III through variety of method in strengthening the weakness as first indicated by the Marion Monroe Aptitude Test and followed through by the careful study of weaknesses in second and third grades as evidenced by the observation of the teacher in spelling, arithmetic, reading, achievement tests, etc."

In May 1945 a battery of Stanford Achievement Tests including reading, arithmetic, literature, social studies, science and spelling were given to the boys and girls of grade six to measure the level of achievement of these pupils before they left the elementary school. These test results also are an aid in determining the skills which need to be given greater emphasis in grades four and five. This year instead of a battery of tests we are using a reading test and placing emphasis on improvement of reading skills throughout this school year. The Iowa Silent Reading Test is comprehensive — testing the rate of reading, comprehension, directed reading, word meaning, sentence meaning, alphabetization and the use of the index, skills which must be mastered in order to assure the pupil's successful progress in his secondary school life. These standardized tests given in grades one, three and six are the beginning of a cumulative record for each child in the elementary school. In many schools a personal folder is being assembled for each pupil, the contents of which provide concrete evidence of many phases of pupil growth.

This year has been no exception on the part of the teachers and principals of the elementary school in their continuous efforts to improve the curriculum. On the basis of their experience with children and the findings of research the curriculums are in a constant state of revision. Closely associated with the curriculum revision, a systematic study of textbooks is made in every subject field before a textbook is selected for adoption. This year the pupils and teachers of grade five are fortunate in having a new course of study in geography and a new text, "Geography of the Americas" by Dr. W. R. McConnell. The course of study was a cooperative undertaking written by members of the committee with some fifth grade teachers acting as consultants and was submitted to Dr. McConnell for suggestions and criticisms. The text was selected after many texts had been studied and evaluated and was a unanimous choice of the committee. This fine, cooperative work was accomplished under the guidance of Miss Frances B. Macy, Principal of the R. C. Ingraham School, chairman of this committee. This committee is initiating a fifth grade workshop in geography to be conducted soon after the beginning of the new year. A study of geography in fourth grade is scheduled for the near future. Sixth grade texts will be reviewed and selected as soon as conditions in Europe and Asia make it expedient for such books to be published.

Miss Stella L. McCarthy, Principal of the Jireh Swift School, chairman of the reading committee for many years has been relieved of the work at her request. Our thanks and appreciation are extended to Miss McCarthy for her faithful, enthusiastic and efficient service as chairman of the reading committee in the elementary school. Miss Helen F. Moore, Principal of the Abraham Lincoln School is now chairman of the committee which is being reorganized and will include principals and teachers from all grades.

At the present time the arithmetic committee is actively engaged in making a study of textbooks that they may have a knowledge of the text best fitted to serve the needs of the boys and girls in the New Bedford Schools. The literature committee hopes to complete the course of study for grades 4, 5 and 6 for use at the opening of school in September.

The constant improvement of the curriculum and the selection of modern textbooks are the results of cooperative effort on the part of teachers and principals. It is a pleasure to invite teachers to become members of committees, their acceptance is always so prompt and willing. We appreciate the valuable service they render and know that the contribution they make to the welfare of the children results in enriching their own experience.

The Pupil's Progress Card which is a report sent to the parents four times a year has been in use in the Elementary School since 1939. At a recent meeting of principals it was decided to make a study of the card for possible revision. We wish to carry to the parents the best interpretation possible of the school's endeavor to measure not only subject matter achievement but habits and attitudes of their boys and girls. This study will begin soon after the new year.

Children who are temporarily handicapped and unable to attend school for at least two months may receive educational training in the home by a teacher who visits the pupil at regular intervals. The privilege of receiving this instruction is dependent on the recommendation of a physician that the pupil is physically able to profit by such teaching. The services of three teachers who visit the homes are much appreciated by both parents and children as during the child's forced absence from school his education continues.

The New Bedford School Department is indeed fortunate in having such a fine cooperative spirit among its personnel for teamwork is required to solve problems which arise. I wish, especially, to express my sincere appreciation to Miss Alice M. Irwin, Supervisor of Special Classes, on whose time we make many demands as an individual Binet test often serves as the basis for understanding the cause of a child's difficulties.

Last June, Miss Ethel Bliss, Principal of the Harrington Memorial School and Miss Mary R. Dalton, Principal of the Phillips Avenue School retired from active service in the New Bedford School Department. They influenced the lives of many boys and girls with whom they were associated and we wish them happiness in their well-earned freedom from school responsibility.

It is imperative that some new teachers be secured to replace teachers who are no longer in the service and substitutes now teaching long periods in the grades of the elementary schools. Some of our first grades are too large for the type of teaching demanded of teachers today. The strength of the schools of the future will depend to a great extent on the teachers chosen. Schools can be no better than the personnel which operates them.

We welcome new principals to the corps who have proved through their service as teachers, their educational preparation and their personal characteristics that they are qualified to accept the added responsibilty of leadership which is required of a principal. The democratic leadership of the principal must find expression in every relationship with the children, the teachers and the parents. Teachers and principals must believe that human values transcend all other values and that within the children of today lies future destiny.

Let us remember that childhood is experienced but once. It influences definitely the life which follows. No portion of life can go in reverse and be lived again. We who determine how a child learns in his early years need be serious about our responsibility.

I appreciate and gratefully acknowledge your intelligent and sympathetic understanding of the problems which have been ours during the past year.

Respectfully submitted,

ELLEN C. SWEENEY

Report of the High School Principal

Mr. E. T. N. Sadler,
Superintendent of Schools,
New Bedford, Massachusetts

Dear Sir:

I herewith submit my report as principal of the New Bedford High School.

For the first time in four years this report is being written with the nation at peace. We have put aside the weapons of war and are returning to what is referred to as "normal conditions". These conditions, however, cannot be attained in a few months or even a few years. It will take time to wipe out the effects of war on the nation. The same may be said of the schools. We have been laboring under trying conditions, with many handicaps. One by one these are being removed and we hope before the next report we will be well on our way back to "normal".

Of the eleven members of the faculty who entered the armed services three have returned to their school duties and provision has been made to care for others as they return.

The rule allowing the granting of diplomas to pupils entering the armed services during the last half of their senior year and allowing credit for work done in absentia has been abrogated except for former pupils already in the service. This is perfectly fair, as no longer may a high school pupil be drafted into the armed services during his high school course.

The majority of veterans who wish to obtain the high school diploma are returning and reentering the regular classes. Thirteen have been enrolled to this date. Of these, three have already been accepted by colleges and have left school. One has left because of illness and the other nine are continuing their studies with us.

The State Department of Education has established a Regional High School under our jurisdiction for the benefit of veterans who cannot attend our regular classes. This school, at present, is held for two hours on each of two afternoons per week. Mr. Harold E. Willey, of the science department, is teaching this class which is made up of six veterans at various stages of advancement in mathematics and physics. So far it seems to be a highly successful experiment.

The enrollment of the school has decreased somewhat over that of the preceding year due to the fact that last year there was an extra class in the school which was graduated in January 1945. Our enrollment at present is 1826, which is for the full school year. We are now entirely free from mid-year promotions and graduations. This will make a more stable school year and save expense to the city and loss of time to the students.

It would be unfair to the personnel of the school not to call attention once more to the splendid record made by them in the sale of war stamps and bonds. In April, 1944, we began a long sustained series of weekly one hundred percent student participation in the purchase of war savings stamps. This has been maintained, up to December 1, 1945, for fifty-one consecutive school weeks. This record is unequalled by any high school in the country. In addition to this the pupils have purchased, or sold, fifty-nine thousand dollars' worth of war bonds during the past year. Miss Anna Brady, who has sponsored and managed these sales has done an excellent job, but the great credit goes to the student body and its representatives, the Junior Minute Men, who have done the detailed work of purchasing and selling.

Lieut. Edward S. Irwin, who was in charge of our R. O. T. C. during the year 1944-1945, has retired from the service and has been replaced by Lieut. Phillip H. Taft. Lieut. Taft has recently returned from active duty in Europe and is making a fine impression as our new commandant. The G.A.M.S. continues to be a popular organization with the girls. It proved to be such a success as a war effort that we plan to continue it during peace time. Miss Marion E. Lord, our Social Counselor, is to be complimented on the splendid work of this organization.

During the war period the cost per pupil of most high schools increased very considerably. It is a satisfaction to report that our costs have been maintained at a level that compares favorably with those of schools in cities that correspond to ours in population and character. Our average cost per pupil is below the average cost of all Massachusetts high schools. We hope to maintain this position.

Beginning with my first report as principal of this school, I have advocated the establishment of a Department of Placement. Each year I have repeated this recommendation. The department was established this fall in combination with the Guidance work and is now under the able direction of Miss Susan E. Shennan. Its offices are located in one of our former class rooms and are adequate to its needs. Already the work of this department is being felt in the administration of the school and the concentrating of all guidance and placement activities in one agency, where they belong, is a decided advance in the school organization. I look for this department to grow and become an even more important factor in raising the already high standard of our school.

Respectfully submitted,

A. R. DORMAN

Report of the
Supervisor of Buildings and Custodians

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Mr. Sadler:

In compliance with your request, I herewith submit my annual report for the year 1945.

Window breaking continues to be a problem and much of our carpenters' time is taken up setting glass.

It is estimated that $2500 worth of damage has been done to our schools during the year by vandals.

WATERPROOFING

Two-thirds of the Roosevelt Junior High was waterproofed, a project which was badly needed. This work was done at a substantial saving by the department maintenance force with the help of three spare custodians.

CARPENTRY

During severe northeast storms, water comes in through the windows of the Roosevelt. To offset this condition, all windows have been tightened and weather strips put on.

It is my intention to put storm sash on the east side of the building which will do much to improve heating conditions there.

New offices which meet all requirements were built and furnished at the Senior High School for the Director of Guidance and Placement.

The remainder of the carpenters' time has been taken up with general repairs.

MASONRY

Extensive repairs were made on the brick work of the Lincoln and Clifford schools. In the years to come, much more pointing-up work remains to be done on various schools.

PAINTING

The following schools were painted on the exterior: Thompson St., Cook, Cedar Grove, Merrimac St., I. W. Benjamin.

FLAG POLES

Flag poles were repaired and painted at the Cook, Ottiwell, Mt. Pleasant, Howland, Benjamin, Ingraham and Wood schools.

INTERIOR PAINTING

The entire second floor of the Mt. Pleasant School, including the principal's office, was painted. Other inside painting was done at the Roosevelt, Clifford and High Schools.

HEATING

Two new boilers were installed at the Taylor School and one new hot air furnace at the Rodman Portable. Boiler tubes were installed in No. 2 boiler at the Congdon, No. 2 boiler at the Ingraham and No. 1 boiler at the Congdon. Two heating units were installed in the Roosevelt — one in the print shop and one in the carpentry shop.

WELDING

Welding repairs were made at the High, Howland, Congdon, Greene and Ingraham school boilers.

ENGINES

Major repairs were made on No. 2 engine at the High School.

Extra radiation was put in one classroom at the Swift and the office of the Harrington School. All other heating and ventilating units were checked and repaired where necessary. Extra radiation was put in two classrooms at the Parker Street School.

Plibrico repairs were made in boilers wherever needed.

LINOLEUM

Linoleum was laid in the main office and counselor's room at the High School and the principal's office at the Cook School.

ELECTRICAL

All our electrical fixtures, such as clocks, time signals, motors, elevators and stage lighting, have been put in good working condition.

PLUMBING

The plumber has been very busy during the year, keeping our water system, conductors, and all sanitary fixtures in good operating condition. He also is responsible for keeping the hot air furnaces in good repair.

ROOFING

Repairs were made on the Cook, Congdon, High, Ingraham, Normandin and Roosevelt Schools.

There are many improvements and repairs, such as new floors, new window shades, new plumbing, resurfacing of school yards, to be made from time to time in our schools when materials and prices are more normal.

PERSONNEL

During the year three custodians and one cleaner who had given long and faithful service were retired. Mr. Richard Regan, custodian at the Mt. Pleasant, was with us 21 years; Mr. Antone Pacheco, of the Thomas Donaghy—25 years; Mr. Thomas Butler, Howland School—18 years; Mrs. Edith F. Stevens, High School—18 years.

I am pleased to report that the mechanics, custodians and cleaners have cooperated with me fully during the year.

In conclusion, I wish to thank you for the advice and cooperation which you have always extended to me.

Respectfully submitted,

JOHN EGAN

Report of the Supervisor of Vocal Music

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Mr. Sadler:

In accordance with your request I herewith submit my eighth annual report as supervisor of vocal music.

There are certain basic philosophies, certain ideas and ideals of education which each of us as individuals choose as our own. That these ideas and ideals change with the changing world is right and necessary. That there shall be periods of uncertainty and question, even in normal times, is not only inevitable but a wholesome sign of growth. Today, after the greatest cataclysm civilization has ever experienced, there are few educators who can say with assurance, "I hold to my own, I know this is the goal and this is the road."

Yet it is possible that, in one sense, music educators have less to confound them than those who teach the so called basic, bread and butter subjects. Fundamentally music education, now, as always, is concerned only with the child and with music. Its one purpose is to bring these two together in such a way that the child's life is made richer, happier and more useful because music has entered into it. Moreover, there can no longer be any question of the how and what of music teaching. Today, in an unhappy, bewildered world, music must be presented in such manner as will most fully reveal its spiritual and emotional content, with the emphasis first and foremost upon beauty. This is not to ignore method which should, in point of fact, be more streamlined and effective than ever; nor to forget the teaching of music skills and techniques, without which there can be little or no growth in musical understanding and enjoyment. Certainly it is to give high value to attitudes and interests, for these serve not only as a motive force toward learning but also as a powerful factor in personal growth. Method, skills, techniques, interest, — all these are important, but we must not forget that they are the means to an end, and never the central aim. The center and heart of the music course is the child, and anything else is valuable only in so far as it serves the child's need for beauty and makes contribution toward his growth and well being.

There is nothing new in these words. We have said them for years, but the real problem is to hold ourselves to these ideals and to translate them into actuality in the daily music lesson. Too often we have acted as though we thought skill came before beauty, and too often we have exalted method to the point of evaluating song material more for its usefulness in teaching musical problems than for its musical worth.

Within the last few years, with the help of our teacher committees, the members of this department have arrived at certain conclusions. First, we know that we must choose the right material, — music that is appealing, beautiful and interesting, not only to an adult but also the child who uses it, so that it seems to him worth working for, and worth remembering.

Second, we know that the major load and responsibility of teaching music falls upon the classroom teacher, and somehow we must help her to know her music material so well that she can present it to her children with contagious enthusiasm, as a gift of love and a joy to be shared.

Third, we believe that techniques and skills are highly important and that no real musical growth is possible without them, but we feel strongly that they must develop naturally, with meaning and purpose to the child, out of enjoyable song material and out of the child's own desire to learn.

Moreover, we are building our new courses around the conviction that skills must wait upon the child's readiness to acquire them. There is a growing accord among all educators that the child becomes better and better able to learn complex coordinations and complex perceptual tasks as he grows older, and that to require specific and exactive techniques too early is to defeat our own purpose. We are using the primary grades to build the basic foundations of music, as a sort of orientation period in which to establish musical contacts, backgrounds and reactions. Through a great variety of music, — singing, listening, moving to rhythm, the rhythm orchestra, phrasing, dramatizing music, — we hope that every child, no matter what his ability will find something for his satisfaction and enjoyment. There is no lack of learning in these grades, but it is broad and general rather than detailed, and it promotes music as "a pleasure to be sought rather than a lesson to be learned."

The phonograph, the radio and the sound film are agencies for the distribution of music which no program of music education can afford to ignore. Today music actually permeates all American life, no longer a luxury for the rich, but universally accepted by all people, in all walks of life. Already the results of this mass consumption are far reaching. The man on the street and the child in the classroom have new standards, new desires, and new ideas about what music is and what it should be. They are in a position not only to make choices but also to make comparisons. We face the hard fact that unless music in the school moves away from its traditional narrow program of rote songs and sight reading, unless the music becomes alive and its presentation less formal and conventional, unless its material is chosen for its beauty and appeal rather than its usefulness, unless the school can offer a variety of worthwhile musical activities, school music is bound to fare badly. This is a challenge from the outside, but it is a salutary one and good for all of us. If we are wise and clever enough, these agencies will not be competitors but allies, — magnificent opportunities and wonderful resources which can supplement and add force to our teaching program.

These remarkable inventions bring lavish gifts to all America but they also carry duties and responsibilities which the school cannot evade. Because we have made ourselves a nation of listeners, with the world's best music available in millions of homes, and because therein lies untold possibilities for the spread and enjoyment of beauty, our task is clear. Good music will not "do good" simply and solely because it is "good". People must choose to hear it, and hearing, they must understand and enjoy it. It will cost money to teach music appreciation in the New Bedford schools, but there can be no question of our duty, or of the school's responsibility. If we believe in good music, — and all America does, — then we must make good music familiar, understandable and beloved by all the people.

Before closing I shall make brief report of progress in the senior high school. The enrollment continues to increase and one more class was added this year. The department now offers three classes in general music and two chorus periods. All five classes meet twice weekly and are unprepared. Last year's report gave a detailed description of the work carried on in the two courses. It has continued to go forward with equal interest and success this year. Next year Miss Ratcliffe plans to offer one course in general music as prepared work. This course will meet two days weekly, like the others, but will use a text book and receive regular assignments for home study.

A girls' chorus of forty members rehearses an hour each week outside of school hours. Fourteen girls from this same group give an additional hour to choral practice, to form a selected choir for occasional concert work in the community. Mr. Melver C. Felton, of the high school faculty generously gives his time as accompanist to both of the choruses. This fall a small but enthusiastic boys' chorus was formed which may later rival the girls in popularity.

There remains the unfortunate lack of a music room, and the great need for assembly song books. The assembly sing is the one period in which every boy and girl can participate in music. Moreover, it would be hard to find an activity which could do more to socialize and integrate the school, or which could give more pleasure and "lift" to the whole group.

Each year I am glad for the opportunity to thank the teachers and principals for their friendly interest and cooperation throughout the year. A special word of appreciation goes to the teachers who have attended meetings, served as committee members, worked with experimental classes, or served as directors or accompanists for the glee clubs.

I am sincerely grateful to you for another year of helpful guidance and inspiring leadership.

Respectfully submitted,

MILDRED L. BAILEY

Report of the Supervisor of Instrumental Music

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Massachusetts

Dear Sir:

In compliance with your request, I submit the annual report of the Instrumental Music Department.

The aim of the Instrumental Music Department is to create within the boy or girl a desire to perform on some musical instrument. To develop this aim we have classes or groups in ten grade schools, orchestras in the Junior High Schools, band, orchestra and a selected advanced ensemble in the Senior High School.

At the request of the principals of the elementary schools, the selected ensemble of the High School is taken to the various schools for demonstration so that the students may become acquainted with the various instruments of the modern orchestra. In this way a desire to play some instrument is aroused.

The orchestras play for their own school assemblies and cooperate with other school activities. The Senior High School Band and Orchestra play weekly for auditorium periods and cooperate with all school activities. The High School Band has taken an active part in local drives and celebrations and has become not only an asset to our schools but also a community and civic asset.

I wish to express my appreciation of the whole-hearted work of Mr. Kenneth C. Park, my assistant.

Respectfully yours,

CLARENCE W. AREY

Report of the Supervisor of Practical Arts

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Massachusetts

Dear Sir:

In compliance with your request, I herewith submit the annual report of the Practical Arts Department for the year 1945.

> *"The entire object of true education is to make people not merely do the right thing, but to enjoy the right thing."*—Ruskin

This school year has seen the end of World War II and with it comes the hope that some of the difficult conditions endured during the war years by many departments, the art department included, will improve in the coming year.

The fine cooperation of principals, teachers and pupils made it possible to carry on our work and maintain a good standard of work when all things were considered.

JUNIOR RED CROSS — The New Bedford Chapter of the Red Cross has been very appreciative of the fine response shown by the boys, girls and teachers of the New Bedford Public Schools. It has been very gratifying to hear the many fine comments and to read the interesting letters received by the teachers of this department regarding the fine quality of material sent to the members of the armed forces. Christmas cards, menu and tray covers all helped to cheer up wounded veterans in the military hospitals of this area. The teachers in turn were very much pleased and happy to receive these letters for they had tangible proof that their work and the work of their pupils was appreciated.

LUMBARD WARD — Since September 1944 when a request came from the Lumbard Volunteers at St. Luke's Hospital, our pupils have faithfully contributed monthly art units of decorations to brighten up the children's ward. The parents, nurses and young patients have been most appreciative of the colorful decorations and eagerly look forward to their coming. The teachers and pupils who have contributed to this worthy project share in the joy of giving happiness to their less fortunate friends. With such charity in their hearts it is not a difficult task to get interesting material each month.

HIGH SCHOOL — For a long time the art teacher and mechanical drawing teachers have had to share the same room. This unsatisfactory and very difficult arrangement, which was to have been a temporary one, has continued for a number of years because of the lack of available rooms in the High School. The first step in rectifying this situation was taken when an empty room became available on the third floor through the cooperation of the principal, Mr. Dorman. Again this is only a "temporary" move.

I sincerely hope that when Mr. DeRosier, the regular instructor is discharged from the service and returns to his school duties, the Mechanical Drawing and Crafts departments will be greatly developed and take their rightful places in the school curricula of our High School.

Again I repeat what I stated in my report last year, "Looking ahead, certainly any student enrolled in a scientific course should have mechanical drawing as a required subject."

I strongly recommend that if and when plans are made to make the High School a comprehensive one, serious consideration be given to creating a "permanent" and well equipped room for the teaching of this important subject, one that will be a credit to the New Bedford High School.

PERSONNEL — Miss Phelan who served as a substitute last year, when a vacancy was created by the resignation of an assistant art supervisor, Mrs. Carolyn B. Owen, was made a member of the regular staff this past September.

Mrs. Arville D. Dodge who has served as a military substitute instructor of Mechanical Drawing and Crafts for Mr. G. Philippe DeRosier since he was inducted into the service in November 1942, resigned at the close of the school year in June 1945.

Miss Patricia M. Leary, a local graduate of our High School and a graduate of the College of Architecture at Cornell University, has ably served as a substitute in the vacancy created by the resignation of Mrs. Dodge and will continue to carry on until Mr. DeRosier's return which is expected sometime in the spring of 1946.

ART WEEK LECTURE — In observance of Art and Education Weeks which came in the early part of November your art supervisor gave an illustrated art lecture in the Free Public Library Hall. Parents and friends of the community were invited and given an opportunity to see the material used by the Art Department in the teaching of Art Appreciation to the boys and girls in our local public schools.

COURSES OF STUDY — The art courses of study for the primary grades one, two and three are completed. Courses for grades seven and eight are now being revised and should be in the teachers' hands in January, leaving grades four, five and six to be completed.

CONCLUSION — At this time I wish to express my appreciation for the continued cooperation of my fellow workers here in the office and in the schools. This mutual interest in the welfare of our boys and girls is encouraging and inspiring us to greater efforts.

I wish to thank you, Mr. Sadler, for the courtesies extended to me and this department during the past year.

Respectfully submitted,

PAUL P. VANCINI

Report of the Supervisor of Industrial Arts

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Sir:

At your request I am submitting to you the report for the Department of Industrial Arts for the year ending December 31, 1945.

In the Junior High School shops we have been doing many things for the School Department and for the Junior Red Cross, such as the following:

Even though there has been a shortage of paper stock we have been able to keep the needs of the department fairly well supplied with printed material and forms used throughout the schools. Mr. Purrington and Mr. Gulbranson have done a very fine piece of work in our Junior High School print shops.

Mr. Valentine and Mr. Hines have made several lots of ash trays from discarded tin cans. These ash trays are turned over to the Red Cross which, in turn, places them in the military hospitals wherever most needed. Mr. Coonan has made several lots of pin-up lamps, small bookcases and other articles much needed in the hospitals. The woodworking was done under the direction of Mr. Coonan and the electrical wiring of the lamps was done under the supervision of Mr. Sharp in the electrical department. All material for these projects was furnished by the Red Cross and all the work that is done for this organization is much appreciated by them.

The hand tools in most of our shops, especially the woodworking tools, are old and worn out and need to be replaced. During the past years when tools were needed for war purposes and hard to get we have done a great deal of repairing of broken tools under the direction of Mr. Livesley, instructor at the Normandin machine shop. Many plane parts and other pieces of equipment were made and repaired there.

Through the courtesy of Mr. Hayford, Director of Continuation Schools, and under the direction of Mr. Mulberry, instructor at the North Continuation School, a number of woodworking vises have been repaired and rebuilt and put back into use again.

Mr. Clay, instructor of woodworking, has instituted a system of individual instruction whereby each pupil is taught to plan and work out his ideas on paper before executing them in wood.

Mr. Burke and Mr. Davies carry on the work in the drafting department and each instructor is doing individual work with the pupils. Each student is advanced as rapidly as his ability permits. More time than one period each week should be given to this subject as it is the foundation for all industrial enterprises.

As you are well aware, we are now back on full time in the workshops, with the return of Mr. Rex, Mr. King, and Mr. Janiak from military service. Mr. Rex has returned to the Donaghy, Mr. King to the Clifford, Mr. Perkins to the Lincoln, and Mr. Marco to the Congdon School. Even though the workshops have been back on full schedule for only a short period of time, there is a marked improvement in the instruction and workmanship.

It is hoped that in the coming year we shall be able to obtain enough tools and equipment to open an eighth grade shop at the Cook School. If this proposed shop can be put into operation during the coming year it will give the boys of the Winslow, Mt. Pleasant, Cook, Parker Street, and Rodman Schools shop work each week, and will also give the seventh grade boys an equal amount of hand work. This new shop will give to the boys who attend these five schools similar opportunities to those enjoyed by the Junior High School boys, although the shop programs at the junior highs are more diversified.

Looking forward to the opening of such a shop, we are now making the work benches to be used there. The tops are being made under the direction of Mr. Coonan at the Roosevelt Junior High School and the bases under the supervision of Mr. Rose at the South Continuation School. The cost of the material for each bench will be approximately $15.50. If they were bought commercially they would cost around $65.00 per bench. It is our hope also to make the vises to be used on these benches. Mr. Rex at the Donaghy School is now making patterns for a suitable woodworking vise.

Our thanks and appreciation go to the Allen Company, River Road, for their contribution of several loads of short boards which were distributed to the shops where needed most. This company also kiln dried for us, without cost to the department, the material which is to be used to make the new benches for the Cook School.

In spite of the war years and shortage of materials the shops have continued in their production of many things needed by the School Department. My thanks and appreciation go to the shop teachers who made this possible under trying conditions.

Respectfully submitted,

GEORGE E. KILPATRICK

Report of the Supervisor of Special Classes

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Sir:

In compliance with your request, I submit the annual report of the supervisor of special classes.

When the atomic bombs split the atmosphere of Hiroshima and Nagasaki, newspaper writers acclaimed the ending of an age and the birth of "a new era". While that is true in the field of atomic energy, it is equally true in the field of American education. We have learned the value of a well-trained force on the battle fronts; we now realize that only a well-educated army of citizens can meet the crucial problems that lie ahead. It is the boys and girls of our schools who must assume the responsibility of leading our nation in the ways of peace. While the superior child may become a leader, the slow-learning child can be helped to understand and appreciate his immediate community, country, and world, thus making for his good citizenship, understanding, and tolerance. It is our aim to administer education in such a way that we shall, to the fullest extent, meet the needs of all pupils so that the greatest benefit to society may result.

In September of this year, the Detroit Intelligence Test was given to all children entering Grade I. When the results of this test were compiled, all children having a mental age of less than five years were referred to me to be retested with the Stanford Revision of the Binet Scale. This is an individual test, and at the present time, it is the most accurate device for the measurement of intelligence. In a few cases, because of a child's low mental age, we found it necessary to postpone his school entrance for at least another year, in other cases, an analysis of test results showed that a reading readiness program would best fit his needs. We cannot minimize the value of an early diagnosis of first grade children's difficulties for such a study makes possible a readjusting of the educational program to fit their individual limitations at a time when they are beginning their school career.

The complete battery of Stanford Achievement Tests was given in all the third grades of our city last January. Every child eleven years of age or older receiving a low score was later given an individual Binet test. In this way, a number of pupils were found that needed special class training, while others of average or better than average intelligence were retarded due to one or several causes: reading disability, poor health, long absences from school, or many changes from school to school.

We greatly appreciate the practical help which the State Department of Mental Health gives in providing us with the services of two competent psychiatrists. Since November 1921, at least twice a year, Dr. Esther S. B. Woodward from the Walter E. Fernald State School has been holding clinics in this city. During these years she has tested hundreds of New Bedford boys and girls, and has given this department invaluable aid and advice. Dr. Woodward is now retiring. We hope that this helpful clinical study may, nevertheless, be continued.

Also, the weekly visits to New Bedford of the Child Guidance Clinic under the able directorship of Dr. Olga Steinecke are of great service to us in handling our major problems. In some cases follow-up work is most essential. By seeing a pupil from week to week, the psychiatrist is able to give him help and guidance, and check definitely on the results of the program prescribed. We value Dr. Steinecke's and her assistants' close cooperation.

Continuous progress from year to year is our aim for all special class children as well as those in the regular grades. Each special class child progresses at his own rate; he attempts only that which he is capable of, and succeeds at it from step to step. As a result, many special class children this year have earned promotions to workshop classes.

There is a very definite need for a centrally located workshop class. At the present time boys and girls from the Rodman, Cook, and Parker Street Schools must travel to the Donaghy, Clifford, or Congdon Workshops. In many cases parents strenuously object to the distance involved. By having another workshop class located near the center of the city, this objection would be ruled out, and many pupils, now on the waiting lists for entrance to such classes, could then be accommodated.

This department and the entire community have suffered a tremendous loss in the death of Miss Annie F. Welsh, pioneer in teaching workshop classes. Miss Welsh was a teacher, who, having faith in her boys and girls, showed them love and understanding, and, with firm and gentle guidance, sought to build up within each pupil a feeling of confidence in his own ability to find a place in life as a good law-abiding citizen.

In closing, I wish to express my sincere thanks to you and Miss Ellen C. Sweeney for the helpful interest and guidance you have given to me, also, to principals, teachers, and school committee members for their friendly cooperation in helping my department's special problems this past year.

Respectfully submitted,

ALICE M. IRWIN

Report of the Grade Supervisor of Physical Education

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Sir:

In compliance with your request I hereby submit the report of the Grade Supervisor of Physical Education for the year 1945.

There has been some revision in the program of Physical Education in the elementary grades this year. This change is based on a month by month progression offering a definite plan of work through the year. The new set of correctives, beginning in the second grade will, I feel sure, be of great value in developing better posture in all children.

Last spring soft ball equipment was placed in schools where yard space was sufficient for the game. Some of the schools purchased additional equipment to enlarge the program within the school.

This year we have been able to have the use of the girls' gymnasium at the High School on Tuesdays from three to five. At this time eighth grade girls from the three center schools have an opportunity to learn and play basketball. It is an elective with the girls as it comes outside of school time. About sixty girls have signed up for the work. To be eligible girls must pass their physical examination and present written permission from their parents.

Although most boys in these grades are having basketball, it does not come under supervision. I wish a plan similar to that of the girls' program could be arranged but the problem is to find a central gymnasium for them to use.

In our program of country dances we have included some of the old-time round dances. The social value of this work is pronounced. Children learn dance etiquette and proper conduct on the dance floor. The entire program offers a fine opportunity for correlation with the social studies, since dances fit into the historical or geographic background of the work of the grades.

For the past year I have noted a marked improvement in the gain made by children in our posture groups. I believe this is due in part to a better general health, resulting from better living conditions. At the present time we have only one child whose exercises have to be restricted because of underweight. Whenever it has been necessary to confer with parents to point out specific conditions I have found them most cooperative and appreciative.

The teachers who are conducting these posture classes, thereby making this work possible in the schools, should truly feel a great deal of satisfaction in knowing that they have contributed so much to the physical welfare of these children.

The prospect of a coordinated program throughout our school system promises the fulfillment of a long felt need. Through cooperation of all our departments we can function as one unit for the best interests of all children.

In conclusion I wish to express my grateful appreciation for your help through the year.

Respectfully submitted,

ELVA M. PARKER

Report of the Director of Continuation Schools

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Massachusetts

Dear Sir:

Many pupils now in schools intend to leave them to go to work the moment they meet the age and grade requirements. These children form a large group, representing an important portion of the community. There are various reasons why they cannot or will not continue in school through programs of secondary education. It is easy to see the need and importance of general vocational training and guidance for these boys and girls who neither wish to continue a long high school or vocational school training, nor who would be able, in many instances, to profit by such education and training. Some of these pupils in the fourteen-sixteen year age group, for their own best interests, are permitted to go to work before they are sixteen years old and become members of the Continuation School on a four hour weekly basis; others, through guidance and parental choice, enroll in our general vocational courses. It is our job to continue the education, through training and guidance, of those pupils who are working and to furnish programs of training, guidance, and placement for the general vocational pupils who intend, in almost every case, to go to work when they reach the age of sixteen.

We have emphasized the importance of transferring to us, as early as it is possible and expedient, those pupils in the regular schools who would be better served in ours. Principals have been urged to send us applications for all pupils who with the permission of their parents wish to enter our schools, either to request a permit to go to work, or to receive general vocational training while waiting for their sixteenth birthdays. We have received splendid cooperation from everyone concerned. In many cases it is the teacher who first discovers that a pupil might be better served by our type of training than by that furnished in the regular school. It is well recognized that some pupils who cannot be held to a full program of academic routine with satisfactory results will respond heartily in the shops where the emphasis of discipline is on physical action rather than upon bodily restraint. This past year we were able to admit all who applied. In the North End Boys' School some applicants, because of a full enrollment, were obliged to wait for short periods. No one had to wait long and all were admitted.

This year my recommendation that all pupils desiring to go to work *before* their sixteenth birthdays, be sent to us for study and guidance, was adopted. In my opinion it has been a help to the pupils and to us. Each case is studied carefully and decisions are reached only after thorough and painstaking investigations are made. We have had excellent cooperation from the schools and from the supervisors of attendance who interview all prospective employers to ascertain the merits of the job and check on its legal aspects.

Follow Up Report—Girls' School:

Total Quota	1412 Hours
Total Time	1489¼ Hours
Total Visits	881

The Boys' Continuation School has been housed in two wooden buildings since it came into existence, twenty-five years ago. At that time we understood that these quarters would be temporary and that a better arrangement would one day be made. Time went on and nothing was done toward better housing for the boys' schools. I wish to suggest for your consideration the thought that it might be for the best interests of our department to keep in mind the possibility of combining the two boys' schools in one building. Teachers,, equipment, and materials could be used to better advantage under one roof.

Sincere appreciation is due you for your sympathetic counsel and leadership.

Respectfuly yours,

FREDERIC J. W. HAYFORD

Report of the Director of the Department of Health and Hygiene

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Mass.

Dear Mr. Sadler:

Herewith I am presenting the yearly report of the Department of Health and Hygiene for 1945 and probably my last report while with the School Department.

I do not see how this report can be much different than in previous years. We have had the same conditions and same problems as in the past.

In a few years, as the enrollment increases, as I feel sure it will, I think that an extra nurse will be necessary. However, I doubt if one can be obtained for the amount of compensation offered. They are making too much elsewhere.

I want to express my appreciation for the close cooperation of the members of my staff, for the members of the Department and the principals, teachers and parents.

I feel that in my twenty-one years of service there has been a gradual increase in the health-mindedness of all. As one example, I would like to say that when I entered the Department I found there were more than twelve hundred pupils excused from vaccination. At the present time there are less than seventy-five.

Formerly all children contacts to measles were excluded from school. About ten years ago I was able to persuade the Board of Health to allow all pupils immune to measles to enter school. At the same time we separated measles and German measles and shortened the period of isolation of the latter.

By keeping a file of all cases of measles reported, the result has been to keep more children in school and lower the per capita expense.

In the physical examination of pupils I find that the percentage of defects is nearly the same in the lower grades but a big improvement in the higher ones.

In the earlier days it was not uncommon to find the clothes of children sewed on in the younger ones. This is extremely rare today and both bodies and clothes are much cleaner.

It has been unfortunate that since last September there has been no hearing testing with the audiometer because of the resignation of the teacher of the deaf class and the necessity of using the lip-reading teacher to substitute. Thus the lip-reading classes in the regular schools have been neglected as there is no other substitute in the department. Until such time as a competent teacher can be obtained for either the deaf class or the lip-reading classes, I would recommend that a good substitute teacher be taught the use of the audiometer that we may get needy pupils lined up for the classes for next year.

Yours respectfully,

CHAS. W. MILLIKEN, M. D.

Report of the Supervisor of Adult Civic Education

Mr. Edward T. N. Sadler
Supt. of Schools
New Bedford, Mass.

Dear Mr. Sadler:

Complying with your request, as military substitute for Lieut. (J.G.) Joseph DeSousa, I submit the following report for your consideration.

The Adult Civic Education Department proposes to do two things: (1) organize classes in English and Citizenship to enable aliens to qualify for the federal examination for citizenship, and (2) encourage newly made citizens to return to school to improve their English and to become more familiar with, and to take a more active part in our government.

The alien registration of 1941 showed New Bedford to have 9,368 aliens. According to a recent survey, made this year with the help of the city census, there seemed to remain 5,008 non-citizens, which figure tallies well with the report of the Clerk of the Superior Court which showed that, in the past five years, 4,473 people had been made citizens. The challenge to the department was to acquaint those 5,008 aliens with the opportunities the City was offering. This is a long tedious task, because most of them have never attended school in this country or any other, and therefore felt they were too old to begin.

Through the non-English speaking churches, clubs and newspapers, the non-citizens were encouraged to attend classes, but the largest number have been recruited by the four full-time teachers making personal contacts. Primarily because of the work of these teachers, day classes for adults in English and Citizenship have been organized in the following schools:

Allen F. Wood
John B. DeValles
Abraham Lincoln
Cedar Grove Street
Hosea M. Knowlton
John Hannigan
Robert C. Ingraham

The numbers in the regular evening schools, Allen F. Wood, John B. DeValles, Hosea M. Knowlton, and Abraham Lincoln, have been greatly augmented by the recruiting of the full-time teachers.

The policy of the School Department was to keep the classes in school buildings, but eventually requests for classes came from organizations and, as far as possible, those requests were granted. Classes are operating in the following places outside of school buildings:

Green Front Band (Portuguese)

Pulaski Hall (Polish)

St. Casimir's Recreation Hall (Polish)

Synagogue — County and Hawthorne Streets

By request, classes, one for men, the other for women, in advanced English, mathematics, and government, are held twice each week at the Sassaquin Sanatorium. These classes seem to fill a very definite void, by keeping the minds of the patients active, preparing them to take their places in the community when their health is recovered.

Some discharged veterans wished to take civil service examinations, but found they could not meet the educational requirements. The School Department opened a class for them at the John B. DeValles School and it is proving very satisfactory. For some it is reviewing, and for others it is completing eighth grade work. To all, it is the missing link that is going to help these veterans attain their ambition.

I am indeed grateful to the superintendent and to the assistant superintendent for their confidence and support. Also, I am truly indebted to the evening school principals and to all the teachers of adult and evening school classes for their untiring efforts in the pioneer work of organization, and for their interest and efficiency which alone will make the department a permanent one and one of which the City may be justly proud.

Sincerely yours,

JOSEPHINE HURLEY,

Acting Director

Report of the Director of Occupational Guidance and Placement

Mr. Edward T. N. Sadler
Superintendent of Schools
New Bedford, Massachusetts

Dear Mr. Sadler:

The Office of Guidance and Placement was initiated with the appointment of a Director in May 1945 and of an assistant a month later. Figures compiled for September and October of interviews alone indicate the daily activity of the office.

August 27 through September 28, 1945	
Total number of interviews	596
including:	
Veterans with educational problems	50
Students with job problems	148
October 1 through November 2, 1945	
Total number of interviews	562
including:	
Veterans with educational problems	86
Students with job problems	208

By November 27 there were on file 346 returns on a follow-up of 346 graduates of the class of June 1945. Statistics will be gathered from this 100% return of the first follow-up and others to come at two and five year intervals. Valuable data will be derived as to the use made by graduates of their High School training.

Chapter 676 of the General Laws of Massachusetts and the manual of the State Supervisor of Guidance and Placement were adapted to fit the needs of the New Bedford school system. Detailed plans were drawn covering the six functions required for operation under the Massachusetts Plan:

1—Individual inventory of every pupil in the High School
2—Gathering and disseminating of occupational information
3—Gathering and disseminating of training information
4—Personal counseling
5—Placement
6—Follow-up

Guidance is as old as humanity, but formal guidance—Guidance with a capital G in the school sense—is relatively recent in development. In the East, it has been given added impetus by three state surveys, in Maryland, in New York, in Massachusetts. The Massachusetts survey eventuated in a bit of legislation which provides that communities shall recognize their obligation to young people for at least five years after graduation from High School and through an Office of Occupational Guidance and Placement watch their development at least through age twenty-three.

The personal interview, individual counseling, is the core of guidance. This is not to be a catch-as-catch-can affair, not hap-hazard, but systematic and thorough through the yeasty years of adolescence and is to continue to the point where follow-up demonstrates that the need for SCHOOL guidance is over.

It is logical that guidance should begin with the earliest school years. Much of what teachers learn in a year's contact with a child is valuable and illuminating, even more revealing than a set of marks or a score on an intelligence test. Teachers will welcome the opportunity to pass on this information in the formal way that a cumulative record will provide. A cumulative record should be a cooperative venture. It should be usable and certainly not just an additional chore, but rather a challenge to observe and a satisfaction to use. Important as forms and records are in a guidance system, they are not ends in themselves, but tools, aids, devices to be employed in procuring data which may be used for the benefit of pupils. To devise forms which require the recording of more data than would be used is not advisable. An elaborate system of pupil personnel records too often reduces rather than improves the effectiveness of guidance. We hope that a cumulative record folder which can be easily kept up to date and filed in such a way as to make it readily accessible for use by any qualified teacher will be cooperatively developed. It will provide an array of facts about a pupil which distinguish him as an individual apart from others. It will take into account a wide range of such factors as physical development, health, mental characteristics, educational achievement, family background, personal interests, special talents. It will be the school's formal record of its efforts to discover the individual differences among pupils. The inventory will implement the counseling function, the heart of the guidance program. The counseling process focuses all guidance activities directly on the individual pupil and gives him immediate and explicit aid in solving his problems.

The farther the student advances in school, the more his problems, of a personal or academic nature, bear directly on vocational decisions. The choice of work is a choice of adolescence, of the decade between fifteen and twenty-five.

Placement and follow-up of High School students are the logical outgrowth of the school program of educational and vocational guidance. With an adequate placement service, young people come to know better how and where to get jobs. The community becomes more interested in the schools and employers more interested in the graduates.

The placement staff within a school system should be aware of employment opportunities, types of jobs within the community, possibilities of advancement, all information needed by school leavers wanting employment. It should be aware of and even encourage training opportunities. It should continuously follow up former students and thereby provide data that may suggest improvements in the guidance program and in curricular offerings. Properly conducted follow-up surveys will result in advantages to the pupils, to the schools, to the community.

A school placement service should follow a few basic principles. It should take care of all pupils. The actual placement procedure should be simple, direct, adequate. Part-time placement should be considered as an educational experience, fitted to the pupil's ability to profit from it and discontinued immediately if it conflicts with school progress. Efficiency calls for as few forms as possible, but much personal counseling. The placement service should grow naturally out of other services to the pupils and from well developed community relations. It should include pupil preparation, pupil placement, pupil follow-up, and this includes school and college as well as job placement. The school placement office will endeavor to assist every school leaver, whether graduate or not, to become economically independent. It will endeavor to refit him through interview, further training, reemployment in case his first venture is not successful. It will strive to help him fit into the job by a friendly interest in him while on the job. It will encourage him to return for help in getting ahead vocationally. The successful functioning of the placement office may convince students that the school is a training place, that it is providing, to quote the title of Dean Donham's recent book, EDUCATION FOR RESPONSIBLE LIVING. A relationship may be built up between the school and the community in terms of service that the community can understand.

In a report on Vocational Guidance, the California Commission says: "There is reason to believe that for thousands of High School graduates who do not go to college 'commencement day' is the day on which they commence to wonder for the first time what they should do to earn a living." The changing of this wondering attitude into a knowing attitude is a direct challenge to the guidance system, and the efficiency of counseling can be measured in terms of the number of High School graduates knowing on commencement day where they are going. The problem of life work and placement is not left to chance during the last few weeks before completion of the school course, but is consistently made the subject of thought, discussion, study through the entire program.

Regardless of the set-up of the advisory system, the program of counseling must depend fundamentally for its effectiveness upon the sympathetic understanding and positive assistance of every member of the teaching force. All school agencies need to be coordinated for helping the pupil in solving his problems. Also important is the mutual assistance of non-school agencies and the guidance staff. The Guidance Office has already had reason to be grateful for the helpful cooperation of fellow workers and community agencies.

We shall try to have a guidance system custom made for New Bedford, flexible enough to provide for the changing exigencies of the times, stable enough to care for the unchanging needs of youth.

Respectfully submitted,

SUSAN E. SHENNAN

ANNUAL REPORT

of the

COMMISSIONER

of

PUBLIC WORKS

of the

CITY OF NEW BEDFORD, MASS.

to the

CITY COUNCIL

1945

AMERICAN PRESS
New Bedford, Mass.
1946

COMMISSIONER'S REPORT

February 26, 1946

To the Honorable Mayor and City Council
New Bedford, Massachusetts
Gentlemen:

I submit herewith my annual report of the operations of the Department of Public Works for the year ending December 31, 1945.

Appropriations and expenditures for the entire year are shown in the various tables, together with a chart giving the comparative Highway expenditures covering the period from 1922 to 1945 inclusive.

STREET CONSTRUCTION. Bituminous macadam, bituminous gravel, car rail, and Type I streets were resurfaced to the extent of 84,967.7 square yards. A program of laying a two inch top of Type I material over the existing surface of certain streets was carried out. Among streets thus treated were Pleasant Street, from Linden to Pope; Pleasant Street, from Kempton to Spring; Union Street, from Sixth to Ash. This type of work can be accomplished with a minimum degree of traffic tie-up and will materially increase the life of the street. Approximately 3.4 miles of streets were sealcoated.

NEW EQUIPMENT. Two new refuse getters have been purchased for the ash collection division and two more have been requested in the 1946 budget estimate. Maintenance costs of our equipment have been high due primarily to our inability to procure new replacements during the war. Purchase of new units, when available, will materially reduce these costs.

HURRICANE. Permanent repairs to streets and sidewalks damaged during the hurricane of 1944 by the uprooting of trees have been completed.

I take the opportunity at this time to express my appreciation for the cooperation that I have received from His Honor the Mayor, members of the City Council, the various Department Heads, and my own faithful assistants in carrying on the work of this Department.

Respectfully submitted,

PATRICK J. FOLEY,

PJF:G Commissioner.

GENERAL STATISTICS

January 1, 1946

Set off from Dartmouth	1787
Incorporated as a city	1847
Length of city	10.78 miles
Breadth of city (Maximum)	3.10 miles

Highest point — 1250 ft. north of Rockdale Avenue and Hathaway Road

Elevation	181.5 feet

Geometrical center of city — Nash Rd. and Mt. Pleasant St.

Area — Land	12,235 acres	
Ponds	193 acres	
Land and Ponds	12,428 acres	19.41 sq. miles
Tidal water	8,457 acres	13.22 sq. miles
	20,885 acres	32.63 sq. miles

Length of frontage on tidal waters	10.13 miles
Depth of main channel	30 ft. at low water
Average rise and fall of tide	3.66 feet
Population — Registrar of Voters estimate	111,558
Assessed valuation	$97,875,775
Assessed valuation per capita	$877.35
Accepted streets	218.24 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	206.45 miles

Length of Intercepting Sewer:

Outfall	0.626 miles
Interceptors	9.188 miles
16 Parks and 6 Public Playgrounds — Area	456.57 acres
40 School Buildings — Area of ground	73.76 acres

STREET INVENTORY

January 1, 1946

Bridges:

Coggeshall St., ¾ maintained by New Bedford.
Slocum St., ½ maintained by New Bedford.

Pavements:

(NOTE: — In the following list the area is the total of that kind of pavement on all streets, but the length is the length of streets where that material is the principal pavement.)

	Length Miles	Area Sq. Yds.
Bitulithic and similar	69.08	1,294,149
Bituminous macadam	92.67	1,501,255
Water bound macadam	23.55	195,243
Granite Block	10.59	153,855
Wood Block	0.00	1,266
Brick	0.06	10,109
Bituminous gravel	3.90	55,677
Cobble	0.04	695
Concrete	0.20	10,313
Gravel	18.05	229,080
Unimproved streets (Some have been graded)	4.87	
Sidewalks:		
Cement concrete	136.357	568,300
Tar concrete	25.271	105,751
Flagstone	22.433	63,413
Granite curbing	274.60	1,449,910
Concrete curbing	6.30	33,238
Concrete (combine curb and gutter)	1.05	5,544

Sewers:

206.45 miles of sewers (including interceptor)
cost $5,551,177.64

Combined	121.20 miles
Sanitary	37.49 miles
Storm	37.95 miles
Interceptor and outfall	9.81 miles

2115 catch basins
1026 inlets

Office of the New Bedford Water Board

January 1, 1946

To the Mayor and City Council
of the City of New Bedford

Gentlemen:

In accordance with the provisions of Chapter 25, Section 12, of the City Code, the New Bedford Water Board herewith respectfully submits its seventy-sixth annual report, recording its operations for the calendar year 1945, and including the reports of the Superintendent and the Water Registrar.

Mr. Albert Simmons was nominated by the Mayor and confirmed by the City Council as a member of this Board for a term of four years from the first day of June, 1945.

During the year, Mr. Louis F. Vaudry regretfully tendered his resignation as a member of this Board for the reason that pressure of other business did not permit him to devote the required amount of time to this position. The Board herewith records its appreciation for the services of Mr. Vaudry as a fellow member of the Board and its regret that he is unable to continue in the office.

The resignation leaves a vacancy in the membership of the Board for a term which will expire on June 1, 1948.

The following employees have retired under the provisions of Chapters 318 and 400, Acts of 1936:

Name	**Position**	**Date of Retirement**	**Length of Service**
George Hutchinson	Meter Reader	Aug. 12, 1945	32 yrs. 5 mos.
Manuel R. Coelho	Laborer	Feb. 17, 1945	33 yrs. 10 mos.

The following abstract from the Water Registrar's report shows in condensed form the financial operations of this department during the year. Full details will be found in his report, which accompanies this.

FIRST, BASED ON THE BUDGET SYSTEM, IN ACCORDANCE WITH CITY AUDITOR'S ACCOUNT.

	Salaries & Wages	**Labor**	**General Expense**	**New Equipment**	**Pension Account**	**1944 Encumb. Account**	**Totals**
1945 Budget Appropriation	$86,019.50	$67,333.50	$83,710.00	$1,375.00	$2,506.08		$238,438.00
Tax Refunds			67.59			1,217.72	1,285.31
Totals	86,019.50	67,333.50	83,777.59	1,375.00	2,506.08	1,217.72	239,723.31
Expenditures 1945	85,806.86	67,332.40	80,509.09	620.00	2,506.08	1,116.51	235,283.86
Balances	312.64	1.10	3,269.50	755.00	....	* 101.21	4,439.45
1945 Encumb. Account**			3,182.01				3,182.01
Un-expended balance 12/31/45							1,257.44

*Un-expended balance 1944 Encumbrance account

**This amount set aside in City Auditors account for encumbrances, goods ordered in 1945, delivery to be made in 1946

SECOND, BASED ON RECEIPTS AND EXPENDITURES

Receipts

For water, meter rentals, demands and charges		$425,009.92
Miscellaneous receipts		31,375.96
Total		456,385.88

Expenditures

Management and Repair	225,710.52	
Interest	23,473.75	
Bonds	68,000.00	
Extensions	12,079.42	329,263.69
Balance reverting to General Funds 12/31/45		127,122.19
The total outlay for the construction of these works exclusive of debt, interest, management and repair through 1944 was		6,975,299.61

Decrease

	Payments	Credit	Net	
Distribution	12,079.42	12,501.88	—422.46	—422.46
Net cost of works Dec. 31, 1945				$6,974,877.15

The following is a statement of receipts and expenditures for the past twelve years.

RECEIPTS AND EXPENDITURES SINCE 1934

Year	Receipts for Water	Total Receipts	Maintenance Interest and Bonds	Extensions Paid from Regular Receipts	Extensions Paid from Bond Account	Returned to General City Funds	Total Expenditures	Balance 1st of Year

* 13 Months

† Includes $380,000 from Bond Issue for PWA projects

Increase in revenue of the department over that for 1944 derives in the main from the following:

Increase in receipts for water	$8,453.97
Sale of timber, hurricane	7,044.49
Insurance on White property	4,000.00

Expenditures for payrolls were about the same as for the preceding year.

General Expense increased about $7,000.00, of which $4,284.96 represents increased payments for coal and electric current at the Quittacas Pumping Station.

The physical plant of this department is in urgent need of repair. Among the major items requiring attention during the coming year are the roof of the Quittacas Pumping Station, the exterior painting of dwellings occupied by engineers, the replacement of the electrical centrifugal pump and the replacement of the worn out traveling screen in the old intake.

The Superintendent has included in his recommendations for appropriations for the year 1946, provision of funds to make these repairs.

He has also requested funds to permit the replacement of accumulated deficits in the department inventory of materials and supplies; to permit the construction of a high-pressure system to serve present and future residents of the high ground along Rockdale Avenue; to permit the construction of a new repair shop; and to provide for the purchase of specified new equipment.

These recommendations have been forwarded to the Mayor for his consideration.

It is estimated that somewhat more than one-half of the total amount of timber felled by the 1944 hurricane has now been removed by the Sharon Box Company. It is believed that the balance will be cleaned up during the year 1946.

Investigation early in the year into the comparative costs of delivering coal to the Quittacas Station by rail, as against by truck, disclosed that the latter method is more economical when the cost of maintaining the track is considered. For this reason, the use of the spur track from Braley's Station to the Quittacas Pumping Station, was discontinued in the Spring, and coal, since then, has been delivered by truck.

Disposal of the track and other railroad equipment is under consideration at this time.

Under a contract awarded by the Clerk of Committees to David Duff and Son, coal is delivered by truck to our coal shed at a cost of $9.19 per net ton. The cost of coal delivered at the Repair Shop is $10.54 per net ton.

It is matter of record that during the war years repairs to buildings and structures were deferred because of the shortage of materials and manpower; that numerous extensions to the main pipe system for which petitions have been received were deferred for the same reason; and that, in line with the national policy of conserving materials, the stock of pipe, valves, hydrants, service supplies and miscellaneous stores of this department was reduced to a point far below the amount normally carried.

Because of the deferment of these normal activities and purchases, the revenue of the department for the past several years has shown an apparent surplus above the expenditures. The accumulated surplus of the past five years exceeds $500,000.00. This represents a sum of money paid by water takers in proportion to the amount of water individually used, which money has been diverted to General Municipal Purposes other than water supply. If all the revenue of the Water Department had been set aside for its use, in accordance with the practice followed prior to 1930, there would now be available for expenditure by the Board, a sum in excess of $800,000.00. Since however, this accumulated surplus is not now available, the issue of bonds to secure funds to pay for deferred repairs and improvements appears to be necessary to avoid an excessive increase in the tax rate.

The following are the principal contracts made by this Board during the year.

Date 1945	Contractor	Supply	Consideration
Jan. 10	American Smelting & Refining Co.	Lead Pipe	$8.75 lb. 2%—10 days
May 7	Hersey Mfg. Co.	2 inch meters	$216.00 net
Apr. 4	Babbitt Steam Specialty Co.	Repairs to Wire Fences	$2,550.00
Mar. 26	Link-Belt Company	Repairs to Traveling Water Screen	$470.00 net
May 14	Neptune Meter Co.	Meters & Fish Traps	$116.16 net
May 14	Hyacinth J. Saulnier	Excavation & Backfill of Trench	$1.00 per lineal ft. plus $50.00 for transp. of equip.
June 13	Acushnet Iron Co., Inc.	Castings	$.10 lb. del'd
July 20	Olson & Appleby	Repairs to Morton House	$1,487.00
Aug. 3	Joseph G. Pollard Co., Inc.	Pipe & Leak Finder	$620.00
Aug. 18	A. E. Coffin Press	250 copies Annual Report 75 Flat Sheets	$245.00
Aug. 18	A. E. Coffin Press	Water Bills	$141.90
Aug. 23	Brown-Wales Co.	Tubes for B. & W. Boiler	$175.16
Sept. 4	Babbitt Steam Specialty Co.	Copper Tubing	$173.63 2%—10 days
Sept. 20	Pittsburgh Equitable Meter Co.	3 inch meter	$141.00 net
Sept. 21	Darling Valve & Manufacturing Co.	8″ gate valves (3)	$41.15 ea. 2%—10 days
Oct. 13	A. P. Smith Manufacturing Co.	2 cutters	$103.00
Nov. 13	Frank C. Taylor, Inc.	Repair of leak submarine main pipe	$744.51 1%—10 days
Nov. 15	Neptune Meter Co.	1—4″ meter and fish trap	$243.60 net
Nov. 16	Acushnet Iron Co. Inc.	Castings	$310.20
Oct. 17	Builders-Providence, Inc.	Castings	$148.26
Dec. 31	New England Meter Repair Co.	Meter parts	$120.32

In conclusion, we wish to express our appreciation for your cooperation in the work of this department during the year.

Respectfully submitted,

Arthur N. Harriman, Mayor
Michael Zajac
George P. Hurll
Albert Simmons

New Bedford Water Board

REPORT OF THE WATER REGISTRAR

City of New Bedford,
Water Registrar's Office,
December 31, 1945

To the New Bedford Water Board:

Gentlemen:—

I herewith present to you a detailed statement of the receipts and expenditures of the Water Works Department for the year ending December 31, 1945.

The report is based on Budget vs. Expenditures and also on Receipts and Expenditures as previously.

First, Based on the Budget System

RECEIPTS

Budget Appropriation	$238,438.00	
Gas Tax refunds & rebates	67.59	
Amount used 1944 Encumbrance	1,116.51	
Pension Account Appropriation	2,506.08	$242,128.18

EXPENDITURES

Payrolls	$155,545.34	
Bills	81,128.09	
1944 Encumbrance expended	1,116.51	$237,789.94
		4,338.24
1944 Encumbrance not expended		101.21
		4,439.45
1945 Encumbrance Account		3,182.01
Un-expended balance Dec. 31, 1945		$1,257.44

Second, based on receipts & expenditures as previously

RECEIPTS

Rates	
Under 10,000 cu. ft. per quarter	$182,599.71
Over 10,000 and less than 100,000 cu. ft. per quarter	39,637.96
Over 100,000 and less than 1,000,000 cu. ft. per quarter	78,570.45
Over 1,000,000 and less than 2,000,000 cu. ft. per quarter	33,421.64
Over 2,000,000 cu. ft. per quarter	58,566.85
Estimated and building purposes	4,371.98
Total receipts for water	$397,168.59

Meter Rentals	$26,969.43
Demands and charges	871.90
Total receipts, water, meter rentals, demands and charges	425,009.92
Miscellaneous receipts, for detail see credits under expenses	31,375.96
Total receipts from all sources	$456,385.88

EXPENDITURES

Bills	$81,128.09	
Payrolls	155,545.34	
Interest	23,473.75	
Bonds	68,000.00	
1944 Encumbrance Account expended	1,116.51	329,263.69
Balance reverting to General Funds 12/31/45		$127,122.19

EXPENDITURES IN DETAIL

Maintenance	Payments	Credits	Net
Supt. Dept. Salaries including General Foreman	$17,699.85		$17,699.85
Water Registrars Dept. Salaries	26,090.62		26,090.62
Printing, postage, advertising stationery & other supplies	2,399.18		2,399.18
Traveling, Telephone & Telegrams	1,523.67	$40.00	1,483.67
Vacations, payroll	5,566.43		5,566.43
Totals	$53,279.75	$40.00	$53,239.75

Quittacas Pumping Station	Payments	Credits	Net
Salaries and Labor	$31,341.84		$31,341.84
Fuel	24,136.92		24,136.92
Oil, waste packing & lighting	1,681.38		1,681.38
Tools and other supplies	882.39		882.39
Repairs, steam engine	1,183.00		1,183.00
Repairs, boilers	428.87		428.87
Repairs centrifugal pump & motor	308.34		308.34
Electric current, centrifugal pump	15,661.44		15,661.44
Other repairs	4,192.84		4,192.84
Buildings & Grounds	3,823.90		3,823.90
Miscellaneous	1,284.12		1,284.12
Water treatment	1,631.78		1,631.78
Totals	$86,556.82		$86,556.82

Lakeville Supply			
Ponds, including connections, overflow, intakes, etc.	$593.79		$593.79
Motor car and trucks	2,779.98	$8.28	2,771.70
Lands	145.87	175.00	— 29.13
Forestry work	3,515.91	7,189.64	— 3,673.73
Roads, walls and fences	1,652.86		1,652.86
Patrol	1,803.63		1,803.63
Bldgs. other than pumping station	3,893.53	4,351.21	— 457.68
Railroad	1,171.34		1,171.34
48″ Steel Force Main	151.29		151.29
High Hill Reservoir	1,977.10	5.00	1,972.10
Totals	$17,685.30	$11,729.13	$5,956.17
Mains			
Main pipe	$1,174.02		$1,174.02
Stop Gates	690.46	$15.58	674.88
Hydrants	1,143.03	1,101.46	41.57
Flushing & Inspecting	2,174.35		2,174.35
St. Dept. repairing streets	286.86	39.44	247.42
Totals	$5,468.72	$1,156.48	$4,312.24
Services			
Repairing & Removing	$4,717.11	$904.21	$3,812.90
Renewing & Driving stop boxes	953.52		953.52
Cleaning stops, taps and pipe	1,542.32		1,542.32
St. Dept. repairing streets	1,571.06	101.89	1,469.17
Sealing fixtures & inspecting Check valves	611.71	874.34	— 262.63
Shutting off & turning on	104.52	2.05	102.47
Totals	$9,500.24	$1,882.49	$7,312.83
Meters	$13,373.47	$2,187.41	$11,186.06
General Maintenance			
Motor cars and trucks	$6,485.80	$494.95	$5,990.85
Labor at workshop	10,745.93		10,745.93
Materials at Workshop	47.87		47.87
Tools	4,492.03	532.00	3,960.03
Fuel, lighting & power at workshop	1,125.73		1,125.73
Repair, workshop, bldgs & pipeyard	3,368.43	15.00	3,353.43
Standpipe	54.29		54.29
Miscellaneous	401.90	21.45	380.45
Totals	$26,721.98	$1,063.40	$25,658.58

Acushnet Supply

Storing reservoir, surroundings and Dry Swamp ditch	$1,332.82	$25.00	$1,307.82
Receiving reservoir, pumpwell and Purchase St. Station	562.28	138.65	423.63
Mt. Pleasant distributing reservoir	528.44		528.44
Totals	$2,423.54	$163.65	$2,259.89

Industrial Accident Account	$1,276.00		$1,276.00
Taxes and Insurance	4,388.80	658.10	3,730.70
Pensions	2,506.08		2,506.08
Sick Leave	2,529.82		2,529.82

Water debt (not included in budget)

Interest	23,473.75		23,473.75
Bonds	68,000.00		68,000.00
Totals	$91,473.75		$91,473.75

EXTENSIONS

Mains

Main pipe & special castings	$2,182.69	$2,937.78	— $755.09
Stop gates	441.99	737.04	— 295.05
Hydrants	400.56	150.00	250.56
Lead & Gasket		1,314.27	1,314.27
Freight	11.96		11.96
Tools	620.00		620.00
All other supplies	12.40	10.50	1.90
Labor	197.90		197.90
Totals	$3,867.50	$5,149.59	—$1,282.09

Services

Pipe	$1,819.84	$1,024.80	$795.04
Taps & Stops	278.17	262.46	15.71
All other supplies	86.42	300.56	— 214.14
Labor	3,790.95	3,412.80	378.15
St. Dept. repairing streets	543.41	970.81	— 427.40
Totals	$6,518.79	$5,971.43	$547.36

Meters

Cost of meters	$1,473.17	$1,202.80	$270.37
Cost of testing & setting	35.60		35.60
Totals	$1,508.77	$1,202.80	$305.97
Mill piping	$184.36	$178.06	$6.30

SUMMARY OF EXPENSES AND CREDITS

Management & Repairs			
Salaries, office supplies, traveling, telephones and telegrams	$53,279.75	$40.00	$53,239.75
Quittacas Pumping Station	86,556.82		86,556.82
Lakeville Supply	17,685.30	11,729.13	5,956.17
Mains	5,468.72	1,156.48	4,312.24
Services	9,500.24	1,882.49	7,617.75
Meters	13,373.47	2,187.41	11,186.06
General Maintenance	26,721.98	1,063.40	25,658.58

Industrial Accident Account	1,276.00		1,276.00
Taxes and Insurance	4,388.80	658.10	3,730.70
Pensions	2,506.08		2,506.08
Sick Leave	2,529.82		2,529.82
Totals	$225,710.52	$18,880.66	$206,829.86
Water Debt	91,473.75		91,473.75
Totals	$317,184.27	$18,880.66	$298,303.61
Extensions			
Mains	$3,867.50	$5,149.59	—$1,282.09
Services	6,518.79	5,971.43	547.36
Meters	1,508.77	1,202.80	305.97
Mill Piping	184.36	178.06	6.30
Totals	$12,079.42	$12,501.88	— $422.46
Extensions	$12,079.42	$12,501.88	— $422.46
Management & repairs	225,710.52	18,880.66	206,829.86
Water Debt	91,473.75		91,473.75
Totals	$329,263.69	$31,382.54	$297,881.15
Water Receipts 1945			$397,168.59
Water Receipts 1944			389,181.57
Increase			$7,987.02
Received from City Depts.			
Water			$6,944.57
Miscellaneous			2,341.49
			$9,286.06
Due on Outstanding Bills*			
Water			$2,666.42
Miscellaneous			1,376.06
			$4,042.48

*Collection of water and miscellaneous bills remains exceptionally good, the amount of outstanding debt due being the smallest in years.

ADDITIONAL SUPPLY ACTS OF 1924 CHAPTER 400

There have been no transactions on this account
the balance remains the same viz: $1,688.82

EXPENDITURES FROM THE BEGINNING OF THE WORKS

	Payments	Credits	Net
Acushnet Supply			
Dry Swamp Ditch & Lands	$23,503.76		$23,503.76
Acushnet storing reservoir	61,470.71		61,470.71
White Homestead and lands	18,845.24		18,845.24

REPORT OF THE SUPERINTENDENT

New Bedford Water Works,
Superintendent's Office,
January 10, 1946

To the New Bedford Water Board:

Gentlemen:—The annual report of the Superintendent on general conditions of the works and operations of the year, and his recommendations for the future, are respectfully submitted.

The rainfall records, chemical analyses, and the usual tables showing in detail the work of the department for the year are incorporated herewith.

FINANCIAL

Total receipts from the year's operations were $456,385.88, showing an increase of $22,879.36 over those for the previous year.

Total expenditures from appropriations for 1945 amounted to $234,167.35 and exceeded those for the previous year in the amount of $3,521.08.

Encumbrances totaling $3,182.01 have been set aside for payment for orders placed in 1945 but not yet delivered, leaving an unexpended balance of $1,088.64 from total appropriations of $238,438.00.

Expenditures for coal and electric current for pumping exceeded those for the previous year in the amount of $4,284.96.

The surplus of revenue over expenditures for the year amounts to $127,122.19, which is an increase of $20,075.69 over the surplus for the preceding year. The accumulated surplus since 1934 amounts to $882,985.63.

The bonded water debt outstanding amounts to $504,000.00. If no new debt is assumed, the amount outstanding will be reduced to $96,000.00 on December 31, 1951, and will be completely liquidated in 1956. Principal payments will amount to $68,000.00 annually for the next six years, and interest payments will decrease progressively from $20,490.25 in 1946 to $2,607.25 in 1952. The financial records show that annual payments of principal and interest on the water debt averaged more than $124,000.00 for the period 1918 through 1940.

The considerations above show clearly the excellent financial position of the Water Department. They also show that the incurring of debt through bond issues, suggested by the Superintendent in his recommendations for appropriations for the year 1946, will permit the department to continue to be a self-supporting municipal undertaking.

The annual surpluses for the next five years, however, will be considerably reduced below those for the past five years due to increased expenditures for bond and interest payments.

Analysis of the water consumption records shows that while the domestic use of water has remained near 3,300,000 gallons per day for the past ten years, the commercial and industrial use of water has increased from 4,700,000 gallons per day to 9,100,000 gallons per day during the same period. The end of hostilities effected a decrease in the total industrial use of water of only about 10%.

Reviews and forecasts of the industrial aspects of our City by our local press and by Mr. Roger Babson point to the wisdom of preparing for a period of sustained production equal to, or greater than, anything attained during the war. It is also to be anticipated that, in conjunction with this industrial activity, many new homes will be built as soon as materials become available.

Your Superintendent has brought to your attention during the war years, the urgent need for replacement of worn-out and obsolete equipment of various kinds, for repairs to buildings and structures, and for restoring a stock of main pipe and service materials and supplies. Provision of funds to defray the cost of these repairs and replacements has been requested in the budget submitted to you and forwarded by you to the Mayor for his consideration.

The requested budget also provides for the cost of certain improvements which have been considered by you. These include the Rockdale high-pressure system, a new screen house on the old intake at the Quittacas Station, the replacement of the electrical centrifugal pump, and numerous main pipe extensions.

In addition to improvements specified in the budget request, the matter of increased pumping capacity requires consideration. Three present large users of water are engaged in construction to expand their production. Several new industries which will require large amounts of water are now being established. These facts make it appear that the demand for water during the year 1946 will be substantially larger than we have ever been called upon to furnish previously. It is recommended that the Board give its attention to a study to determine what sizes and types of prime movers and pumps will be most dependable and economical for furnishing present and future water demands.

It requires continuous and uninterrupted operation of one steam pump and the electrical pump to supply a sustained consumption of 15,000,000 gallons per day. It is not possible to depend upon continuous and uninterrupted operation of any of the three old pumps for long periods of time. Each of them absolutely must be stopped periodically for over-haul and repair. The frequency of stoppage and the length of time required for over-haul and repair increase with the age of the equipment. The two steam pumps have now been in operation for forty-six years, and the electrical pump for twenty-seven years. It is only to be expected that such old equipment should require more repairs than new equipment; and that the danger of major trouble should be greater.

It is, therefor, clearly evident that new pumping equipment should be secured as soon as possible, the size and type to be such as the Board may deem most economical and advantageous considering dependability as a primary requisite.

RAINFALL

The rainfall at Little Quittacas Station for the year was 53.63 inches. This is 12.30 inches more than last year, and 8.32 inches more than the average for the past fifty-one years.

POND ELEVATIONS

The water level in Great Quittacas Pond has ranged between 51.63 and 48.55. The average elevation for the year was 50.18. The present elevation is 51.63.

The elevation of Pocksha Pond has ranged from 51.60 to 48.67. The average elevation for the year was 50.18. The present elevation is 51.60.

The water level in Little Quittacas Pond, which is controlled by a gate in the connection to Great Quittacas Pond, has been kept somewhat lower than that of Great Quittacas Pond, in accordance with the practice of many years, to improve the taste, color and odor, through better drainage of the swamp located north of Little Quittacas Pond. The average elevation for the year was 47.81. The present elevation is 48.30.

FORESTRY

The Sharon Box Company has made good progress in the removal of timber felled by the hurricane on the water shed. More than 700,000 feet was removed during 1945. It is estimated that the removal of a slightly smaller quantity during 1946 will complete the work.

Nearly one hundred cords of timber left by the Sharon Box Company, and in diameter from four inches to eight inches, was sold for use as pulp wood. About fifty cords of slash and other timber rejected by the Sharon Box Company has been sold as cord wood to department employees. The total credit received for forestry work during the year was $7,189.64.

The old McCormick Deering tractor reached a state beyond further repair in the Spring. For this reason, we were unable to plow the fire lanes and harrow the shores of the pond as has been our usual custom. Forestry work was considerably handicapped by the lack of a tractor. It is recommended that a new rubber-tired tractor of 25 horsepower or more be secured this Spring to replace the worn-out McCormick Deering.

WATER SHED PROPERTY

Materials for painting the two dwellings occupied by engineers were purchased three years ago. It is recommended that the work be undertaken during 1946.

A contract was awarded to Olson and Appleby to repair rotted sills and studs and lay new flooring in the Morton house, under the supervision of the Superintendent of Buildings.

During the early Spring, it was noted that samples of water collected from brooks draining the area north of Little Quittacas Pond gave indication of contamination. It was believed that this contamination originated at a pig run maintained in this area. A hearing was held before the Massachusetts Department of Public Health on September 11, 1945, under the provisions of Section 41, Chapter 40 of the General Laws, on the request of the City of New Bedford for the consent and approval to the acquisition by the City, by purchase or otherwise, of nine parcels of land. The selectmen and other residents of the Town of Lakeville protested at the hearing against granting of consent and approval by the Massachusetts Department of Public Health. The State Department of Health did not approve the acquisition by the City.

In the case of the Judson property, so called, the department recommends "that suitable action be taken by the City of New Bedford with a view to acquiring this property if and when further investigation by the Water Board of the City of New Bedford shows that enforcement of rules and regulations of the department, adopted on September 26, 1932, is impracticable."

QUITTACAS PUMPING STATION

The roof of the engine room and the monitor section over the boiler room are in urgent need of repair. Leaks in the engine room roof cause continual rusting of the pumping equipment, and endanger the safety of the floors in spite of the precaution of putting a number of pans around. Complete specifications have been prepared by the Superintendent of Buildings to remedy these conditions. He has estimated the cost at $10,000.00. It is recommended that this work be done during 1946.

The matter of pumping capacity has been referred to under the heading "Financial". The homemade traveling screen installed in the old intake in 1909 is outmoded and unreliable. It is recommended that a new traveling screen be installed in a new building to be located in the line of the old intake near the shore of Little Quittacas Pond. The estimated cost is $30,000.00.

The recommendation is repeated that the present hazardous transformer installation near the chimney be removed, and a new and safer location be provided.

The delivery of coal by trucks has proven to be satisfactory and less expensive than delivery by rail. It is recommended that overhead doors be provided at the west end of the coal shed. The storage in the coal shed on January 1, 1946 amounted to about 330 tons, sufficient to provide for about forty days of operation.

WATER TREATMENT

The water pumped during 1945 was sterilized through the addition of liquid chlorine at the rate of about three pounds and anhydrous ammonia at the rate of about one pound per million gallons. The cost of chemicals and repair parts for this treatment for the year was $1,631.78.

WATER ANALYSIS

During the year, 246 samples of water taken from various locations in the water shed, and 154 samples taken from various outlets in the distribution system in the City, were examined. The results of these examinations show that the water furnished in the City continues to be of excellent quality. The results of samples taken from the area north of Little Quittacas Pond, however, show that the water draining therefrom is consistently contaminated. It is therefor, recommended that suitable action be taken so that another hearing may be had before the State Department of Public Health under Chapter 40, relative to the acquisition of property.

The Superintendent further renews his recommendation of previous years that arrangements be made to comply in full with the National Health Service requirements for bacteriological analyses as soon as conditions will permit.

FORCE MAINS

Both force mains have been in use during the year, and no important repairs have been necessary.

RAILROAD

Experience during the past year has indicated that it is more economical to deliver coal by truck than by rail. It is believed that any heavy castings or other material required at the pumping station can be delivered over the road. The disposal of the old railroad track and equipment to the best interest of the City is therefor recommended.

OLD ACUSHNET SYSTEM

Water was furnished from this system to the Revere Copper and Brass Co., Inc. to the value of $4,189.06, thereby reducing the demand upon the Quittacas system. It was necessary to suspend service on this system for a period during the summer due to the washing-out of the foundations of a waste way near the Wilson Dam. Emergency repairs were made at small cost and the system has given satisfactory service since then.

DISTRIBUTION SYSTEM

151 feet of distribution pipe (less than 4") have been laid. The total length now in use is 10,436 feet.

Twenty eight hydrants have been damaged as a result of traffic accidents. The total cost of repairs was $1,570.73, of which $973.54 has been collected from offenders.

LEAKS

There have been nine leaks on main pipe during the year, as herewith shown:

Date	Size	Location	Cause	Cost
1945				
Jan. 19	6″	Pleasant St., Intersection x Grinnell	Joint Leaking	$ 80.37
Jan. 29	4″	Commercial St., 35′ East x Front St.	Main Leak	79.63
Feb. 4-5	6″	In Front of 39 Pierce St.	Main Leak	173.24
Feb. 19	10″	Intersection of Davis St. and Riverside Avenue	Joint Leaking	49.23
Apr. 6	30″	In Front of 742 Acushnet Ave.	Joint Leaking	39.35
Sept. 27	6″	In Front of 225 No. Second St.	Joint Leaking	58.61
Oct. 9	8″	Under Acushnet River, south of Fairhaven Drawbridge	Joint Leaking	756.11
Oct. 15	4″	Pier 3, 30′ E. x Front St.	Main Leak	46.62
Nov. 19	8″	Hillman St., 65′ West x No. Water St.	Joint Leaking	68.09

151 feet of distribution pipe (less than 4″) have been laid. The total length now in use is 10,436 feet.

No new stop gates have been set and none of those previously set has been removed. The total number now in use is 2,959.

One small size gate has been set and none of those previously set has been removed. The total number now in use is 90.

Total number of waste gates now in use is 207.

Total number of air taps now in use is 218.

Twenty-one private stop gates have been set and none of those previously set has been removed. The total number now in use is 779.

No new hydrants have been set and none of those previously set has been removed. The total now in use is 1,921. One new private hydrant has been set in Homer's Wharf.

The total number of water cart hydrants now in use is 29.

Total number of sprinkler cart hydrants now in use is 8.

Fifty three service pipes have been laid and three of those previously laid have been removed. The total number now in place is 19,764. Of this number, two hundred ninety two are unmetered fire services, seventeen thousand five hundred four are metered, and the balance, one thousand nine hundred sixty eight are not in use.

Seven hundred ten taps have been cleaned as follows:

Rust 648; trouble inside 62.

One hundred eighty-nine leaks in services have been repaired in addition to main pipe leaks.

One thousand five hundred forty seven meters have been removed for repairs, and one thousand five hundred eighty six have been reset. Also forty-six new meters have been set for the year, making the total number now in use 17,504.

CONSUMPTION OF WATER

The consumption of water for the year has been as follows:

Month	Monthly Consumption				Daily Average Consumption
	New Bedford	Dartmouth	Acushnet	Total	
	Gallons	Gallons	Gallons	Gallons	Gallons
1945					
January	413,279,332	8,495,250	4,499,250	426,723,832	13,765,285
February	352,035,304	9,132,750	3,696,500	364,844,554	13,030,162
March	388,263,678	5,001,750	2,220,750	395,486,178	12,757,619
April	369,942,818	8,466,000	3,565,500	381,974,318	12,732,477
May	389,906,974	8,133,750	2,843,250	400,883,974	12,931,741
June	407,663,820	9,864,750	3,503,250	421,031,820	14,034,394
July	390,373,862	12,740,250	4,833,750	407,947,862	13,159,608
August	411,647,766	15,027,000	5,872,500	432,547,266	13,953,137
September	390,583,430	12,189,750	6,133,500	408,906,680	13,630,222
October	396,091,226	10,350,750	6,327,000	412,768,976	13,315,128
November	377,838,178	9,171,000	5,217,000	392,226,178	13,074,206
December	373,075,276	10,947,750	2,653,500	386,676,526	12,473,436
Totals	4,660,701,664	119,970,750	51,345,750	4,832,018,164	
Averages				402,668,180	13,238,406

Maximum daily consumption—(24 hrs.) Wed., Oct. 3..........17,627,676

Minimum daily consumption—(24 hrs.) Tues., Dec. 25.......... 8,035,060

Average daily consumption—6 A.M. to 6 P.M. 7,898,821

Average night consumption—6 P.M. to 6 A.M. 5,339,585

Amount of water consumed shown on above table includes the supplying of about 75.70 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 8790 consumers, of which 295 are summer residents, through 1758 taps. Acushnet supplies 3570 consumers through 690 taps.

COMPARISON OF THE CONSUMPTION OF THE YEAR 1945 WITH THE RECORD OF THE 64 PREVIOUS YEARS.

Year	Estimated Population	Estimated number of consumers	Number of taps	Total number of gallons consumed	Average daily consumption	Gallons per day to each inhabitant	Gallons per day to each consumer	Gallons per day to each tap	Number of meters
1882	28,500	20,424	4,203	859,119,622	2,326,352	82	114	553	41

*Includes population supplied in towns of Dartmouth and Acushnet 2,448 taps, 12,360 consumers.

‡This consumption is for eleven months.

†This consumption is for thirteen months.

CONSUMPTION

The average daily consumption, 13,238,406 gallons, shows a decrease of 2.6% under 1944.

The excellent quality of our water for chemical processes and the extremely low average rate for takers using in excess of five million gallons per month have been important factors in the decisions of several large industries to develop plants in our city.

The following table shows the number of accounts, registration, and income in the several steps of the sliding scale of rates:

DATA ON METERED CONSUMPTION AND REVENUE
JULY 1, 1944 THROUGH JUNE 30, 1945
(All active services except fire supplies are metered)

	No. of Accts.	Number of Gallons			Receipts for Metered Water		
		Total	Per Account	Per day Per Acct.	Total	Per Account	Per 1,000 gallons
Using less than minimum rate viz.— 33,333 1/3 gals. per year	3,763	74,529,000	19,805	54	$ 18,607.98	$4.95	$.249
Using over minimum rate but less than 75,000 gals. per quarter	12,944	1,088,546,250	84,097	230	163,789.29	12.69	.15
Using between 75,000 and 750,000 gals. per quarter	440	294,168,750	668,565	1,834	40,512.73	92.07	.137
Using between 750,000 and 7,500,000 gals. per quarter	103	684,220,500	6,642,917	18,200	75,415.92	732.19	.11
Using between 7,500,000 and 15,000,000 gals. per quarter	11	398,622,000	36,238,363	99,283	35,936.16	3,266.92	.09
Using over 15,000,000 gals. per quarter	9	1,953,882,000	217,098,000	594,789	59,239.26	6,582.14	.03
Totals and Averages	17,270	4,493,968,500	260,218	713	$393,501.34	$22.83	$.088
Metered consumption by Water Dept.		15,654,134					
		4,509,622,634					

The Superintendent wishes to express to the Mayor, the Water Board, and the members of the City Government, his appreciation for their assistance during the year; and to the employees of the Water Department, to repeat his gratitude, for their continued high quality of public service.

Respectfully submitted,

HOWARD C. MANDELL,

Superintendent

One ¾ inch galvanized iron service has been removed and replaced with ¾ inch copper tubing service.

One ¾ inch light lead service has been removed and replaced with ¾ inch heavy lead service.

Two ⅝ inch light lead services have been removed and replaced with ⅝ inch heavy lead services.

One ⅝ inch tin lined lead service has been removed and replaced with ⅝ inch heavy lead service.

Eight ½ inch heavy lead services have been removed and replaced with ⅝ inch heavy lead services.

Two ⅝ inch heavy lead services, and one ⅝ inch light lead service have been removed.

One 3 inch connection has been made to a service previously laid, by the Taker. One 4 inch, and one 2 inch connections have been made to services previously laid, by the City.

Length of service pipe laid during the year	2,513.5 ft.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1945.

IN FORM RECOMMENDED BY THE NEW ENGLAND WATER WORKS ASSOCIATION.

NEW BEDFORD WATER WORKS.

NEW BEDFORD,
BRISTOL COUNTY, MASS.

GENERAL STATISTICS.

Population by census of 1945—110,308.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899, inclusive.

By whom owned, City of New Bedford.

Source of supply.—Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply.—Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40′ + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6-10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30′) located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154′) located 1,879 feet distant, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from Little Quittacas Pond (grade 52′). It is pumped through two 48 inch force mains 8¼ miles long to a distributing reservoir (capacity 67 million gallons; grade 216′) located upon High Hill, in the town of Dartmouth. From this reservoir it flows into the city's distributing system by gravitation through two 36-inch cast iron pipes averaging 4 1-17 miles in length.

It is also possible to pump directly to the city through a 48″ and 36″ main using the reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use.

PUMPING STATISTICS

1. Builders of Pumping Machinery.

LITTLE QUITTACAS STATION

a. b.	Leavitt engines in duplicate, built by Dickson Mfg. Co.	Capacity of the two engines 20,000,000 gallons per 24 hrs.
c.	DeLaval electrically operated centrifugal pump, directly connected with a General Electric squirrel cage type I. Form K. 3 phase, 60 cycle, 550 volt, 250 H. P., induction A. C. motor, operating at about 1800 revolutions per minute, built by DeLaval Steam Turbine Co. Current purchased of New Bedford Gas and Edison Light Co.	Capacity about 6,000,000 gals., delivered into High Hill Reservoir in 24 hours.

LITTLE QUITTACAS STATION—Engines A and B.

2. Description of fuel used.
   - **a.** Kind—bituminous.
   - **b.** Brand of coal—Pocahontas.
   - **c.** Price of coal per net ton—delivered Little Quittacas Station $9.25.
   - **d.** Percentage of ash—11%.
   - **e.** Wood, price per cord—none used.
3. Coal consumed for the year—5,157,835 lbs.
4. (Pounds of wood consumed)÷3—equivalent amount of coal —none used.
5. Total equivalent coal consumed for the year=(3)+(4) 5,157,835 lbs.
6. Total pumpage for the year—3,725,194,464 gallons with 4.8% allowance for slip.
7. Average static head against which pumps work—167.76 feet.
8. Average dynamic head against which pumps work—177.96 feet.

9a. Number of gallons pumped per pound of equivalent coal (5) 722.

9b. Number of gallons raised 100 feet per pound of equivalent coal (5) 1,285.

10. $$\text{Duty}=\frac{\text{gals. pumped (6) x 8.34 (lb. x 100 x dynamic head (8}}{\text{Total fuel consumed (5)}}=107{,}000{,}000$$

10b. Cost per million gallons raised into High Hill Reservoir (engines A. and B.)=$18.95.

LITTLE QUITTACAS STATION—Engine C.

11. Total pumping time for the year 4,880 hrs. 32 min.
12. Total current used for the year 1,130,200 K.W.H.
13. Total pumpage for the year 1,104,781,600 gallons.
14. Number of gallons pumped per K.W.H. 978.
15. Number of K. W. H. required to raise one million gallons into High Hill Reservoir 1,023.
    Cost per K. W. H. varies in accordance with amount consumed.
16. Average cost per K.W.H. $.0138.
17. Cost per million gallons raised into High Hill Reservoir, (Engine C only) $14.46.

Total cost of pumping, figured on pumping station expenses, viz: $86,556.82.

18. Per million gallons pumped $17.92.
19. Per million gallons raised one foot (dynamic)—10 cents.

Cost of pumping figured on total maintenance and interest on bonds, (see financial CC+DD) less credits, viz: $230,303.61.

20. Per million gallons pumped $47.68.
21. Per million gallons raised one foot (dynamic)—27 cents.

Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC+DD+EE) less credits, viz: $298,303.61.

22. Per million gallons pumped $61.76.
23. Per million gallons raised one foot (dynamic)—35 cents.

STATISTICS OF CONSUMPTION OF WATER

1.	Estimated total population at date (New Bedford)	110,308
	Acushnet 4,307, Dartmouth 9,500	*124,115

AND AMENDMENTS

PASSED BY THE CITY COUNCIL

of the

CITY OF NEW BEDFORD

From July 1, 1945 to July 1, 1946

REYNOLDS PRINTING

CITY ORDINANCE

Taxi Drivers

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Forty-five

AN ORDINANCE

AMENDING ORDINANCE RELATIVE TO PUBLIC VEHICLES AND DRIVERS

Be it ordained by the city council of the city of New Bedford as follows,—

SECTION 1. Chapter 21 of The Code of the City of New Bedford is hereby amended by inserting after section 3 two new sections which shall read as follows,—

"Sec. 3a. Authority.

Authority is hereby delegated to the city clerk to issue all licenses under this chapter, subject to the limitations contained herein.

Sec. 3b. Investigation.

Before granting any license under this chapter, the city clerk shall satisfy himself by investigation through the police department or by such other means as he deems desirable that the applicant is a proper person to exercise the license and is eligible therefor under the provisions of this chapter."

SECTION 2. Paragraph one of Section 4 of said Chapter 21 is hereby amended by striking out all of said section as far as the colon in the fourth line after the word "include," and by inserting in place thereof the following, — "Applications for vehicle licenses shall be made at the office of the city clerk. Applications and licenses shall set forth such information as the city clerk may require, in addition to the following information:", so that as amended said paragraph shall read as follows,—

"Sec. 4. Applications—Public Vehicles.

Applications for vehicle licenses shall be made at the office of the city clerk. Applications and licenses shall set forth such information as the city clerk may require, in addition to the following information: the full name of the owner of the vehicle for which a license is desired; the home address and the business location of the applicant; the make, type and engine number of the vehicle; the current Massachusetts registration number (Massachusetts registration certificate shall be displayed at the city clerk's office); whether the owner of the Class A vehicle is to drive and operate the vehicle under the license, or whether a licensed public vehicle driver, as hereinafter provided, is to be employed."

SECTION 3. Paragraph three of Section 4 of said Chapter 21 is hereby amended by striking out the same in its entirety.

SECTION 4. Section 5 of said Chapter 21 is hereby amended by striking out in the first and second lines thereof the words "granted by the mayor and council" and by inserting in place thereof the words "issued by the city clerk"; and by striking out the last sentence of said section; so that said Section 5, as amended, shall read as follows,—

"Sec. 5. Vehicle licenses.

Licenses for Class A public vehicles shall be issued by the city clerk to suitable persons who are owners of vehicles and citizens of the United States, or have declared their intentions to become citizens of the United States by filing first papers under the naturalization laws, also to corporations duly authorized to transact business in the commonwealth of Massachusetts.

Licenses for Class B public vehicles may be granted to any suitable person."

SECTION 5. Section 6 of said Chapter 21 is hereby amended by striking out the same in its entirety.

SECTION 6. Section 8 of said Chapter 21 is hereby amended by striking out in the twenty-second line thereof the words "by the mayor and council" and by inserting in place thereof the words, "by the city clerk."

SECTION 7. Section 10 of said Chapter 21 is hereby amended by adding at the end thereof a new paragraph which shall read as follows,—

"No taxi driver shall serve or be employed in such capacity by any Class A licensee other than the one mentioned in his application without the consent of the city clerk, who shall make an office record of such change, and a violation of this provision shall be sufficient cause for immediate suspension of the taxi driver's license issued by the city clerk. Class A licensees must immediately notify the city clerk of the resignation or dismissal of any taxi driver employed by them."

SECTION 8. Section 15 of said Chapter 21 is hereby amended by striking out the same in its entirety and by inserting in place thereof the following,—

"Sec. 15. Applications — Drivers.

Application for a license to drive or operate Class A vehicles shall be made at the office of the City Clerk. Applications shall set forth, under the penalties of perjury, such information as the city clerk may require, in addition to the following information: name of applicant, his residence, age, height, weight, complexion, color of hair and of eyes, the number of his license to operate motor vehicles in this commonwealth, and the date of expiration of said license, which state license shall be displayed at the time of making application; also the name of the person, firm or corporation by which he is to be employed.

The applicant shall at his own expense furnish the city clerk with two 2″ x 2″ photographs of himself before the license is issued, one of which shall be affixed to the license, and the other used in connection with the office record. In case of renewals, the applicant shall not be required to provide new photographs, providing those in existence are in good condition, but he must surrender his old license."

SECTION 9. Paragraph two of Section 16 of said Chapter 21 is hereby stricken out and the following inserted in place thereof,—

"The license shall contain a description of the person licensed, together with a 2″ x 2″ photograph of the licensee and such other data as the city clerk may deem advisable. Said license shall expire on the date of expiration of the license to operate motor vehicles issued by the commonwealth. The suspension of the license to operate motor vehicles in the commonwealth shall automatically suspend the taxi driver license. The fee for a taxi driver license shall be $1.00, except that the owner of a Class A vehicle who is also the driver and operator of his own vehicle shall receive a license to drive, if he be otherwise qualified, without payment of the fee."

SECTION 10. Paragraph three of Section 16 of said Chapter 21 is hereby amended by striking out in the next to the last line thereof the words "50 cents" and inserting in place thereof the words "one dollar."

SECTION 11. Paragraph four of Section 16 of said Chapter 21 is hereby amended by striking out the first sentence thereof and inserting in place thereof the following,—"The license shall be conspicuously posted in the Class A vehicle in such a manner that it can be readily seen by the passengers."

SECTION 12. Section 17 of said Chapter 21 is hereby amended by striking out the same in its entirety, and by inserting in place thereof the following,—

"Sec. 17. Reference by City Clerk.

At his discretion, the city clerk may refer any application for a license under this chapter to the city council, together with any information relating thereto which he may possess. Upon receipt of the same, the city council shall determine whether or not the license applied for shall be granted. Upon the written request of any applicant who has been refused a license by the city clerk, the city clerk shall submit the application, together with a written statement of his grounds for such refusal with a copy of the police report as to the applicant, to the city council, which shall review the matter and determine whether or not the license applied for shall be granted. Any affirmative action shall be submitted to the mayor for his approval, in accordance with the provisions of Section 55 of Chapter 43 of the General Laws (Ter. Ed.)."

SECTION 13. Said Chapter 21 is hereby amended by inserting after Section 17 a new section which shall read as follows,—

"Sec. 17a. Revocation of licenses.

The license of any taxi driver who is convicted of larceny, illegal gaming, illegal keeping, transporting or sale of intoxicating liquor, immoral conduct, or of any felony shall immediately be revoked by the city clerk.

The city clerk shall notify the city council of the failure of any Class A licensee to cooperate in carrying out any provisions of this chapter, and if in the opinion of the city council the public interest or safety requires the revocation of any Class A license, said license may be revoked without a hearing.

A license may be suspended or revoked by the city council without a hearing for any reason deemed sufficient by the council.

Any affirmative action shall be submitted to the mayor for his approval, in accordance with the provisions of Section 55 of Chapter 43 of the General Laws (Ter. Ed.)."

SECTION 14. Section 18 of said Chapter 21 is hereby amended by striking out the last sentence thereof.

SECTION 15. Section 19 of said Chapter 21 is hereby amended by striking out the same in its entirety and by inserting in place thereof the following,—

"Sec. 19. Inspection and Suspension of Licenses.

Any police officer at any time may make inspections of Class A vehicles and of drivers thereof to see that vehicles are clean, and that all provisions of law and ordinance are complied with. A report shall be made to the chief of police of any violation that appears to warrant action by the chief.

When in the opinion of the chief of police public interest and safety requires that the operation of any Class A vehicle be prohibited, or that the license of any taxi driver be suspended, he shall notify the city clerk in writing to that affect, at the same time furnishing the city clerk with a concise statement of the facts. Upon receipt of such information from the chief of police, the city clerk shall immediately suspend the license of either the vehicle or the driver involved, or both, and report said matter to the city council for further action."

SECTION 16. All licenses to drive or operate Class A vehicles issued prior to the effective date of this ordinance shall become null and void 21 days after said effective date; and within that time, the holder of such a license shall surrender his outstanding license and obtain a new license conforming to the provisions of this ordinance and covering the unexpired term of said outstanding license.

SECTION 17. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY ORDINANCE

Amending Sick Pay Ordinance

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Forty Six

AN ORDINANCE

AMENDING AN ORDINANCE ESTABLISHING SICK PAY FOR CITY EMPLOYEES

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Section 1 of an Ordinance establishing sick pay for city employees of the City of New Bedford, passed by the City Council February 10, 1944, and approved by the Mayor on February 14, 1944 is hereby amended by striking out in the fourth line thereof the word "calendar" and inserting in place thereof the word "working" so that the first section of said Ordinance as amended shall read as follows:

SECTION 1. Each permanent employee of the City of New Bedford shall be entitled to sick leave with full pay computed on the basis of one day for each month of service. Such sick pay shall be cumulative for not more than sixty (60) working days and shall not lapse. All permanent employees who have been in the service of the City of New Bedford for five years or more on the date of the passage of this ordinance shall be considered to have the maximum sick leave to their credit without consideration of such leave as they have had in the meantime. Employees who have been in service less than five years shall be allowed one day for each completed month of service without regard to such leave as they have had in the meantime. Employees shall be entitled to their current sick leave as it becomes earned whether they have the maximum sick leave to their credit or not. Sick leave shall not be taken in advance.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY ORDINANCE

Filling Station Sites

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Forty-Six

AN ORDINANCE

RELATIVE TO APPROVAL OF SITES FOR FILLING STATIONS

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Section 222a of Chapter 7 of The Code of the City of New Bedford is hereby amended by striking out the last paragraph contained therein and by inserting in place thereof the following,—

No site shall be used for filling station purposes and no permit for the erection, alteration or conversion of a building for said purposes shall be issued until the use of said site for filling station purposes has been approved by the city council following a public hearing. Notice of said public hearing shall be given by the superintendent of buildings to all abutters of the site involved, by registered mail at least seven days prior to said hearing. The superintendent of buildings shall require a return receipt for said mail and all return receipts received by him shall be delivered to the city clerk for filing prior to the date set for said hearing. In all cases where the city council takes favorable action, the same shall be submitted to the mayor for his approval.

CITY ORDINANCE

Airport Commission

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Forty-Six

AN ORDINANCE

ESTABLISHING A NEW BEDFORD AIRPORT COMMISSION

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Chapter 3 of The Code of the City of New Bedford is hereby amended by inserting a new article to be known as ARTICLE XIV, which shall read as follows:

ARTICLE XIV — NEW BEDFORD AIRPORT COMMISSION

Section 82: Creation, term of office, compensation.

There is hereby created a New Bedford Airport Commission to be comprised of five members appointed by the Mayor and confirmed by the City Council. The five members originally appointed hereunder shall serve for terms ending in January of each of the following years,—1947, 1948, 1949, 1950 and 1951, and thereafter as the terms of the original appointees expire, their successors shall be appointed for five year terms. At least two of the five members appointed by the Mayor shall have experience in Aeronautics, as defined in Chapter 393 of the Acts of 1939, as amended by Chapters 537 and 695 of the Acts of 1941. The members of said board shall serve without pay or other remuneration.

Section 83: Duties.

The commission shall have the care, custody, control and management of all real and personal property heretofore purchased or procured, or which may be hereafter acquired for municipal airport purposes, and shall perform such other duties as may be legally delegated to it by the city council. Except that no lease of the Airport or any part thereof shall be executed in behalf of the City of New Bedford without prior authorization of the City Council.

Section 84: Clerk.

The Clerk of Committees shall serve as Clerk of said Commission and shall keep such records as the Commission may prescribe.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

IN CITY COUNCIL, May 23, 1946
Passed to a second reading. CHARLES W. DEASY, City Clerk

IN CITY COUNCIL, June 13, 1946
